## Q1 <br> Introduction:

COMMUNITY BENEFIT NARRATIVE REPORTING INSTRUCTIONS
The Maryland Health Services Cost Review Commission's (HSCRC's or Commission's) Community Benefit Report, required under §19-303 of the Health General Article, Maryland Annotated Code, is the Commission's method of implementing a law that addresses the growing interest in understanding the types and scope of community benefit activities conducted by Maryland's nonprofit hospitals.

The Commission developed a two-part community benefit reporting system that includes an inventory spreadsheet that collects financial and quantitative information and a narrative report to strengthen and supplement the inventory spreadsheet. The guidelines and inventory spreadsheet were guided, in part, by the VHA, CHA, and others' community benefit reporting experience, and was then tailored to fit Maryland's unique regulatory environment. This reporting tool serves as the narrative report. The instructions and process for completing the inventory spreadsheet remain the same as in prior years. The narrative is focused on (1) the general demographics of the hospital community, (2) how hospitals determined the needs of the communities they serve, (3) hospital community benefit administration, and (4) community benefit external collaboration to develop and implement community benefit initiatives.

The Commission moved to an online reporting format beginning with the FY 2018 reports. In this new template, responses are now mandatory unless marked as optional. If you submit a report without responding to each question, your report may be rejected. You would then be required to fill in the missing answers before resubmitting. Questions that require a narrative response have a limit of 20,000 characters. This report need not be completed in one session and can be opened by multiple users.

For technical assistance, contact HCBHelp@hilltop.umbc.edu.

Q2. Section I-General Info Part 1 - Hospital Identification

Q3. Please confirm the information we have on file about your hospital for the fiscal year.

|  | Is this information correct? |  | If no, please provide the correct information here: |
| :---: | :---: | :---: | :---: |
|  | Yes | No |  |
| The proper name of your hospital is: Garrett Regional Medical Center | - | $\bigcirc$ |  |
| Your hospital's ID is: 210017 | - | $\bigcirc$ |  |
| Your hospital is part of the hospital system called None - Independent Hospital. | - | $\bigcirc$ |  |

Q4. The next two questions ask about the area where your hospital directs its community benefit efforts, called the Community Benefit Service Area. You may find these community health statistics useful in preparing your responses.

Q5. (Optional) Please describe any other community health statistics that your hospital uses in its community benefit efforts.

As we work to provide care for everyone in our service area, we consider income level and issues with insurance coverage as primary drivers of our program. We are keenly aware that the median household income in our community is far below that of the state of Maryland, and we have greater numbers receiving both Medicare and Medicaid than other areas of the state. Our goal is to treat everyone in our community regardless.

Q6. (Optional) Please attach any files containing community health statistics that your hospital uses in its community benefit efforts

Qт. Section I-General Info Part 2 - Community Benefit Service Area

Q8. Please select the county or counties located in your hospital's CBSA.

Allegany County
$\square$ Anne Arundel County
$\square$ Baltimore City
$\square$ Baltimore County
Calvert County
$\square$ Caroline County
$\square$ Carroll County

[^0]Q25. Please check all Prince George's County ZIP codes located in your hospital's CBSA.

This question was not displayed to the respondent.

Q26. Please check all Queen Anne's County ZIP codes located in your hospital's CBSA

This question was not displayed to the respondent.

Q27. Please check all Somerset County ZIP codes located in your hospital's CBSA

This question was not displayed to the respondent.

Q28. Please check all St. Mary's County ZIP codes located in your hospital's CBSA

This question was not displayed to the respondent.

Q29. Please check all Talbot County ZIP codes located in your hospital's CBSA.

This question was not displayed to the respondent.

Q30. Please check all Washington County ZIP codes located in your hospital's CBSA

This question was not displayed to the respondent.

Q31. Please check all Wicomico County ZIP codes located in your hospital's CBSA

This question was not displayed to the respondent.

Q32. Please check all Worcester County ZIP codes located in your hospital's CBSA

This question was not displayed to the respondent.

Q33. How did your hospital identify its CBSA?

Based on ZIP codes in your Financial Assistance Policy. Please describe

$\square$ Based on ZIP codes in your global budget revenue agreement. Please describe

- Based on patterns of utilization. Please describe

Our CBSA reflects the service area we cover as a hospital. Due to the
poverty endemic to our region, all zip codes we serve have sizable
populations of low income families and individuals.

Other. Please describe

## Q35. Section I - General Info Part 3 - Other Hospital Info

Q36. Provide a link to your hospital's mission statement.
https://www.grmc-wvumedicine.org/ Mission statement can be found under "Ranked one of Maryland's Best" on the first page

Q37. Is your hospital an academic medical center?
$\bigcirc$ Yes

- No

Q38. (Optional) Is there any other information about your hospital that you would like to provide?

We are a small facility that has leveraged a clinical affiliation with WVU Medicine to become a regional medical center, offering numerous outpatient services most rural hospitals cannot provide. Our outpatient services now include cancer care, dermatology, nephrology, behavioral health, and heart and vascular

Q39. (Optional) Please upload any supplemental information that you would like to provide.

Q40. Section II - CHNA Part 1 - Timing \& Format

Within the past three fiscal years, has your hospital conducted a CHNA that conforms to IRS requirements?

- Yes

No

```
Q42. Please explain why your hospital has not conducted a CHNA that conforms to IRS requirements, as well as your hospita's plan and timeframe for completing a CHNA.
```

$\qquad$

Q43. When was your hospital's most recent CHNA completed? (MM/DD/YYYY) 01/30/2020

Q44. Please provide a link to your hospital's most recently completed CHNA.
https://mygarrettcounty.com/cha2021/

Q45. Did you make your CHNA available in other formats, languages, or media?

- Yes

O No

## Q47. Section II - CHNA Part 2 - Internal Participants

Q48. Please use the table below to tell us about the internal participants involved in your most recent CHNA.

|  | CHNA Activities |  |  |  |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |

Q56. Please select the health needs identified in your most recent CHNA. Select all that apply even if a need was not addressed by a reported initiative.

| ( Access to Health Services: Health Insurance | - Environmental Health | ( Oral Health |
| :---: | :---: | :---: |
| $\checkmark$ Access to Health Services: Practicing PCPs | Family Planning | ( Physical Activity |
| - Access to Health Services: Regular PCP Visits | - Food Safety | $\square$ Respiratory Diseases |
| - Access to Health Services: ED Wait Times | $\square$ Global Health | ( Sexually Transmitted Diseases |
| - Access to Health Services: Outpatient Services | Health Communication and Health Information Technology | $\square$ Sleep Health |
| - Adolescent Health | $\square$ Health Literacy | $\square$ Telehealth |
| Arthritis, Osteoporosis, and Chronic Back Conditions | $\square$ Health-Related Quality of Life \& Well-Being | $\square$ Tobacco Use |
| Behavioral Health, including Mental Health and/o Substance Abuse | Heart Disease and Stroke | (Violence Prevention |
| - Cancer | $\square \mathrm{HIV}$ | $\square$ Vision |
| - Children's Health | $\square$ Immunization and Infectious Diseases | $\square$ Wound Care |
| ( Chronic Kidney Disease | $\square$ Injury Prevention | (Housing \& Homelessness |
| $\square$ Community Unity | Lesbian, Gay, Bisexual, and Transgender Health | $\square$ Transportation |
| $\square$ Dementias, Including Alzheimer's Disease | - Maternal \& Infant Health | ( Unemployment \& Poverty |
| - Diabetes | Nutrition and Weight Status | $\square$ Other Social Determinants of Health |
| Disability and Health | Older Adults | $\square$ Other (specify) |

- Educational and Community-Based Programs

Q57. Please describe how the needs and priorities identified in your most recent CHNA compare with those identified in your previous CHNA.
In the previous CHNA, the top 5 issues of concern were: * Drugs \& alcohol * Physical activity * Nutrition * Chronic Disease * Mental Health In the CHNA conducted in 2019,
the top 5 concerns were: * Jobs/economic development * Substance abuse * Health insurance * Education * Mental Health There was a slight shift in concerns, though
some items - such as substance abuse and mental health - made the top of both lists. That said, overall the concerns noted in the 2016 survey were mentioned again in the
2019 survey. The list of results from the 2019 survey, however, was longer and had more detail, due in part to the fact that the use of surveys done online through a
community forum on health and other issues - www.mygarrettcounty.com - allowed Garrett County to essentially double the responses from previous years. In addition, staff
attended community events with iPads and asked people to take the survey on the spot. This also helped garner additional responses, though more traditional methods,
such as distribution of paper surveys to partnering agencies, were also used. Past CHNAs led the hospital to create an oncology program through a clinical partnership with
West Virginia University Medicine, and a behavioral health clinic partnering with the Sheppard Pratt Health System out of Baltimore.

Q60. Section III - CB Administration Part 1 - Internal Participants

Q61. Please use the table below to tell us about how internal staff members were involved in your hospital's community benefit activities during the fiscal year.

|  | Activities |  |  |  |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | N/A - Person or Organization was not Involved | N/A - <br> Position or Department does not exist | Selecting health needs that will be targeted | Selecting the initiatives that will be supported | Determining how to evaluate the impact of initiatives | Providing funding for CB activities | Allocating budgets for individual initiativves | Delivering CB initiatives | Evaluating the outcome of CB initiatives | Other (explain) |

Q64. Section III - CB Administration Part 2 - Process \& Governance

Q65. Does your hospital conduct an internal audit of the annual community benefit financial spreadsheet? Select all that apply

- Yes, by the hospital's staff
$\square$ Yes, by the hospital system's staff
$\square$ Yes, by a third-party auditor

Q66. Does your hospital conduct an internal audit of the community benefit narrative?

- Yes

No

Q67. Please describe the community benefit narrative audit process

Senior staff review the narrative.

Q68. Does the hospital's board review and approve the annual community benefit financial spreadsheet?

- Yes

No

Q69. Please explain:

This question was not displayed to the respondent.

Q73. Please describe how community benefit planning and investments are included in your hospital's internal strategic plan.

The CHNA items that the hospital implements are part of the Strategic Plan; indeed, the hospital uses the CHNA in compilation of its long term Strategic Plan, as is currently taking place.

Q74. (Optional) If available, please provide a link to your hospital's strategic plan

The Strategic Plan currently is being re-written.

Q75. (Optional) Is there any other information about your hospital's community benefit administration and external collaboration that you would like to provide?

Garrett Regional Medical Center works closely with other agencies and the community overall in implementation and growth of services

Q76. (Optional) Please attach any files containing information regarding your hospital's community benefit administration and external collaboration.

Q77. Based on the implementation strategy developed through the CHNA process, please describe three ongoing, multi-year programs and initiatives undertaken by your hospital to address community health needs during the fiscal year.

Q78. Section IV - CB Initiatives Part 1 - Initiative 1

Q79. Name of initiative.

GRMC Behavioral Medicine and Addictions Treatment Center (Known as "Family Health \& Wellness")

Q80. Does this initiative address a community health need that was identified in your most recently completed CHNA?

- Yes

No

Q81. In your most recently completed CHNA, the following community health needs were identified:
Access to Health Services: Health Insurance, Access to Health Services: Practicing PCPs, Access to Health Services: Regular PCP Visits, Access to Health Services: ED Wait Times, Access to Health Services: Outpatient Services, Adolescent Health, Behavioral Health, including Mental Health and/or Substance Abuse, Cancer, Children's Health, Chronic Kidney Disease, Diabetes, Disability and Health, Educational and Community-Based Programs, Environmental Health, Food Safety, Health Communication and Health Information Technology, Heart Disease and Stroke, Lesbian, Gay, Bisexual, and Transgender Health, Maternal \& Infant Health, Older Adults, Oral Health, Physical Activity, Sexually Transmitted Diseases, Violence Prevention, Housing \& Homelessness,
Unemployment \& Poverty
Other:

Using the checkboxes below, select the needs that appear in the list above that were addressed by this initiative.

| $\square$ Access to Health Services: Health Insurance | $\square$ Heart Disease and Stroke |
| :---: | :---: |
| $\square$ Access to Health Services: Practicing PCPs | $\square$ HIV |
| - Access to Health Services: Regular PCP Visits | $\square$ Immunization and Infectious Diseases |

| $\square$ Health Literacy | $\square$ Other Social Determinants of Health |
| $\square$ Health-Related Quality of Life \& Well-Being | $\square$ Other (specify) |

Q82. When did this initiative begin?

In 2018

Q83. Does this initiative have an anticipated end date?

No, the initiative has no anticipated end date.
The initiative will end on a specific end date. Please specify the date.

- The initiative will end when a community or population health measure reaches a target value. Please describe.

The initiative will end when a clinical measure in the hospital reaches a target value. Please describe.

The initiative will end when external grant money to support the initiative runs out. Please explain.

The initiative will end when a contract or agreement with a partner expires. Please explain

Q84. Please describe the population this initiative targets (e.g. diagnosis, age, insurance status, etc.).

This service is for all residents of Garrett County and the surrounding region struggling with behavioral health issues, regardless of income level.

Q85. Enter the estimated number of people this initiative targets.

46000

Q86. How many people did this initiative reach during the fiscal year?

436

Q87. What category(ies) of intervention best fits this initiative? Select all that apply.
( Chronic condition-based intervention: treatment intervention
$\square$ Chronic condition-based intervention: prevention intervention
(1) Acute condition-based intervention: treatment intervention

Acute condition-based intervention: prevention intervention
$\square$ Condition-agnostic treatment intervention

- Social determinants of health intervention
$\square$ Community engagement intervention
$\square$ Other. Please specify.

Q88. Did you work with other individuals, groups, or organizations to deliver this initiative?

Yes. Please describe who was involved in this initiative.

- No.

Q89. Please describe the primary objective of the initiative.
$\square$

Q90. Please describe how the initiative is delivered.

GRMC has a behavioral health clinic located off-campus that provides behavioral health services dovetailed with primary care well checks and assistance with finding community-based services to help with the challenges of daily living that may impact mental health (childcare, elder care, nutritional assistance, help with rent, etc.)

Count of participants/encounters $\begin{aligned} & \text { We look at number of } \\ & \text { patients reached, length of }\end{aligned}$ treatment.

Other process/implementation measures (e.g. number of items distributed)
Surveys of participants Patients are surveyed as
they exit the program, or
after 6 months of treatment.
Biophysical health indicators Physical health is looked at
in terms of patient
progress, in some cases.
Assessment of environmental change
Impact on policy change
Effects on healthcare utilization or cost
Assessment of workforce development
Other $\square$

Q92. Please describe any observed outcome(s) of the initiative (i.e., not intended outcomes).

Over half of all patients have participated in health intervention programs, such as smoking cessation, weight loss and exercise, diabetes prevention.

Q93. Please describe how the outcome(s) of the initiative addresses community health needs.

An ongoing goal of all agencies engaged directly in health care services or in the social determinants of health focus on helping people in the community lead healthier lives and in making healthier decisions. Garrett County has a large low income population, with high levels of diabetes, smoking, and other poor health outcomes/behaviors. Addressing these needs is an ongoing goal.

Q94. What was the total cost to the hospital of this initiative in FY 2018? Please list hospital funds and grant funds separately

GRMC costs: \$506,365 Grant funding: \$241,637 (federal HRSA grant)

Q95. (Optional) Supplemental information for this initiative.

Q96. Section IV - CB Initiatives Part 2 - Initiative 2

Q97. Name of initiative.

Diabetes Education

Q98. Does this initiative address a need identified in your most recently completed CHNA?
(-) Yes
No

Q99. In your most recently completed CHNA, the following community health needs were identified:
Access to Health Services: Health Insurance, Access to Health Services: Practicing PCPs, Access to Health Services: Regular PCP Visits, Access to Health Services: ED Wait Times, Access to Health Services: Outpatient Services, Adolescent Health, Behavioral Health, including Mental Health and/or Substance Abuse, Cancer, Children's Health, Chronic Kidney Disease, Diabetes, Disability and Health, Educational and Community-Based Programs, Environmental Health, Food Safety, Health
Communication and Health Information Technology, Heart Disease and Stroke, Lesbian, Gay,
Bisexual, and Transgender Health, Maternal \& Infant Health, Older Adults, Oral Health, Physical
Activity, Sexually Transmitted Diseases, Violence Prevention, Housing \& Homelessness,
Unemployment \& Poverty
Other:
Using the checkboxes below, select the needs that appear in the list above that were addressed by this initiative.
$\square$ Access to Health Services: Regular PCP Visits
$\square$ Immunization and Infectious Diseases
Access to Health Services: ED Wait Times
Injury Prevention

Q100. When did this initiative begin?

In 2011

Q101. Does this initiative have an anticipated end date?

- No, the initiative does not have an anticipated end date.

The initiative will end on a specific end date. Please specify the date.
The initiative will end when a community or population health measure reaches a target value. Please describe.

The initiative will end when a clinical measure in the hospital reaches a target value. Please describe.

The initiative will end when external grant money to support the initiative runs out. Please explain.

The initiative will end when a contract or agreement with a partner expires. Please explain.

Other. Please explain. $\qquad$

People at risk for developing Type II Diabetes.

Q103. Enter the estimated number of people this initiative targets

46000

Q104. How many people did this initiative reach during the fiscal year?

116

Q105. What category(ies) of intervention best fits this initiative? Select all that apply

Chronic condition-based intervention: treatment intervention
Chronic condition-based intervention: prevention intervention
Acute condition-based intervention: treatment intervention
$\square$ Acute condition-based intervention: prevention intervention
Condition-agnostic treatment intervention
$\square$ Social determinants of health intervention
$\square$ Community engagement intervention
$\square$ Other. Please specify.

Q106. Did you work with other individuals, groups, or organizations to deliver this initiative?

- Yes. Please describe who was involved in this initiative.

We work with the Health Department to recruit potential clients for the class.
,

No

Q107. Please describe the primary objective of the initiative

To help people at risk of developing Type II Diabetes adopt healthy eating habits, control their weight, and engage in regular physical activity

Q108. Please describe how the initiative is delivered.

## In a class structure, with some lecture but numerous hands-on activities, such as cooking and simple exercise. The program follows CDC guidelines.

Q109. Based on what kind of evidence is the success or effectiveness of this initiative evaluated? Explain all that apply.

Count of participants/encounters We count numbers who

- Other process/implementation measures (e.g. number of items distributed) Weight loss among clients.

Surveys of participants Surveys are conducted with
participants at the
program's end.
Biophysical health indicators Health indicators are tracked.

Q110. Please describe any observed outcome(s) of the initiative (i.e., not intended outcomes).

Those who follow through tend to have positive outcomes; unfortunately, sometimes up to $50 \%$ of participants leave the program before its completion.

Q111. Please describe how the outcome(s) of the initiative addresses community health needs.

Garrett County has high numbers of people struggling with weight issues and unhealthy eating habits, as well as lack of physical exercise. The program helps people adopt a healthier lifestyle that impacts their health outcomes.

Q112. What was the total cost to the hospital of this initiative in FY 2018? Please list hospital funds and grant funds separately

GRMC cost: $\$ 52,724$ Grant funding: $\$ 5,000$

Q113. (Optional) Supplemental information for this initiative

Q114. Section IV - CB Initiatives Part 3 - Initiative 3

Q115. Name of initiative.

Cancer and Infusion Center

Q116. Does this initiative address a need identified in your most recently completed CHNA?

- Yes

No

Q117. In your most recently completed CHNA, the following community health needs were identified:
Access to Health Services: Health Insurance, Access to Health Services: Practicing PCPs, Access to Health Services: Regular PCP Visits, Access to Health Services: ED Wait Times, Access to Health Services: Outpatient Services, Adolescent Health, Behavioral Health, including Mental Health and/or Substance Abuse, Cancer, Children's Health, Chronic Kidney Disease, Diabetes, Disability and Health, Educational and Community-Based Programs, Environmental Health, Food Safety, Health

Q118. When did this initiative begin?

2016

Q119. Does this initiative have an anticipated end date?

- No, the initiative does not have an anticipated end date.

The initiative will end on a specific end date. Please specify the date. $\square$
The initiative will end when a community or population health measure reaches a target value. Please describe.

The initiative will end when a clinical measure in the hospital reaches a target value. Please describe.

The initiative will end when external grant money to support the initiative runs out. Please explain.

The initiative will end when a contract or agreement with a partner expires. Please explain.

Other. Please explain.

Q122. How many people did this initiative reach during the fiscal year?

## 3,496

Q123. What category(ies) of intervention best fits this initiative? Select all that apply

- Chronic condition-based intervention: treatment intervention
- Chronic condition-based intervention: prevention intervention
- Acute condition-based intervention: treatment intervention

Acute condition-based intervention: prevention intervention
Condition-agnostic treatment intervention

- Social determinants of health intervention
$\square$ Community engagement intervention
$\square$ Other. Please specify.

Q124. Did you work with other individuals, groups, or organizations to deliver this initiative?

- Yes. Please describe who was involved in this initiative.

We work with oncologists from WVU Medicine, with which we are clinically affiliated.

Q125. Please describe the primary objective of the initiative.

To provide cancer care and infusion services for people in the GRMC service area.

Q126. Please describe how the initiative is delivered.

People can receive these services in their own community instead of having to travel for care

Q127. Based on what kind of evidence is the success or effectiveness of this initiative evaluated? Explain all that apply.
( Count of participants/encounters All patients are counted.
$\square$ Other process/implementation measures (e.g. number of items distributed) $\qquad$

- Surveys of participants Random surveys are sent
to patients.
- Biophysical health indicators Patient health indicators are tracked.
$\square$ Assessment of environmental change
$\square$ Impact on policy change
$\square$ Effects on healthcare utilization or cost
$\square$ Assessment of workforce development
$\square$ Other

In your most recently completed CHNA, the following community health needs were identified:
Access to Health Services: Health Insurance, Access to Health Services: Practicing PCPs, Access to Health Services: Regular PCP Visits, Access to Health Services: ED Wait Times, Access to Health Services: Outpatient Services, Adolescent Health, Behavioral Health, including Mental Health and/or Substance Abuse, Cancer, Children's Health, Chronic Kidney Disease, Diabetes, Disability and Health, Educational and Community-Based Programs, Environmental Health, Food Safety, Health

Q143. (Optional) Is there any other information about physician gaps that you would like to provide?
$\square$

Q144. (Optional) Please attach any files containing further information regarding physician gaps at your hospital

Q145. Section VI - Financial Assistance Policy (FAP)

Q146. Upload a copy of your hospital's financial assistance policy
$\frac{\text { Financial Assistance Policy GRMC.pdf }}{3187 \mathrm{~KB}}$
application/pdf

Q147. Upload a copy of the Patient Information Sheet provided to patients in accordance with Health-General §19-214.1(e),

Q148. Maryland hospitals are required under COMAR 10.37.10.26(A-2)(2)(a)(i) to provide free medically necessary care to patients with family income at or below 200 percent of the federal poverty level (FPL). Please select the percentage of FPL below which your hospital's FAP offers free care.

Q149. Maryland hospitals are required under COMAR $10.37 .10 .26(A-2)(2)$ (a)(ii) to provide reduced-cost, medically necessary care to low-income patients with family income between 200 and 300 percent of the federal poverty level. Please select the range of the percentage of FPL for which your hospital's FAP offers reduced-cost care.

Q150. Maryland hospitals are required under COMAR 10.37.10.26(A-2)(3) to provide reduced-cost, medically necessary care to patients with family income below 500 percent of the federal poverty level who have a financial hardship. Financial hardship is defined as a medical debt, incurred by a family over a 12-month period that exceeds 25 percent of family income. Please select the range of the percentage of FPL for which your hospital's FAP offers reduced-cost care for financial hardship. Please select the threshold for the percentage of medical debt that exceeds a household's income and qualifies as financial hardship.

Q151. Please select the threshold for the percentage of medical debt that exceeds a household's income and qualifies as financial hardship.

Q152. Has your FAP changed within the last year? If so, please describe the change.

- No, the FAP has not changed

Yes, the FAP has changed. Please describe:

Q153. (Optional) Is there any other information about your hospital's FAP that you would like to provide?
$\square$

Q154. (Optional) Please attach any files containing further information about your hospital's FAP

Q155. Summary \& Report Submission

Q156.

## Attention Hospital Staff! IMPORTANT!

You have reached the end of the questions, but you are not quite finished. Your narrative has not yet been fully submitted. Once you proceed to the next screen using the right arrow button below, you cannot go backward. You cannot change any of your answers if you proceed beyond this screen.
We strongly urge you to contact us at hcbhelp@hilltop.umbc.edu to request a copy of your answers. We will happily send you a pdf copy of your narrative that you can share with your leadership, Board, or other interested parties. If you need to make any corrections or change any of your answers, you can use the Table of Contents feature to navigate to the appropriate section of the narrative.

Once you are fully confident that your answers are final, return to this screen then click the right arrow button below to officially submit your narrative.

## Report This Email

1. Go to our website; our mission statement is under the headline at the top of the page, "Ranked a Top 20 Rural Hospital in the Nation," which is layered over the changing photos. Directly beneath that headline it says, "At Garrett Regional Medical Center, we strive to treat every patient like a member of our own family." That sentence is our mission statement. It is not identified as such, but that's it.
2. Question 83: that answer is a mistake; the Behavioral Medicine and Addictions Treatment Center has no end date. It is a clinical service offered by the hospital that will continue in perpetuity
3. The Cancer and Infusion Center treat patients in our service area who have cancer or a condition requiring infusions of some sort. The patients targeted are those with cancer diagnoses and/or gastrointestinal diseases and infections that do not respond to oral antibiotics. The Center treats patients of all ages regardless of their ability to pay.
4. Yes, "transportation" should have been checked in Question 56.

If you need anything else, please let us know. Thank you!

Subject: FW: Clarification Required - Garrett Regional Medical Center

In order to prepare the statewide community benefit report for FY 2020, we must finalize the narrative responses. Could you please provide the clarifications requested below by Friday, July 16, 2021?

Thank you very much

From: Hilltop HCB Help Account [hcbhelp@hilltop.umbc.edu](mailto:hcbhelp@hilltop.umbc.edu)

Subject: Clarification Required - Garrett Regional Medical Center

Thank you for submitting Garrett Regional Medical Center's FY 2020 Community Benefit Narrative Report. Upon reviewing your report, we require clarification of certain issues:

- In response to Question 36 on page 4 of the attached, you provide a link to your hospital's website with instructions on where to find the mission statement. Reviewers were unable to find the mission statement. Please provide a direct link to your mission statement.
- In response to Question 83 on page 17, you indicated that the initiative, GRMC Behavioral Medicine and Addictions Treatment Center, will end when a community or population health measure reaches a target value but did not provide a description. Please describe the community or population health measure and target value you are using to determine the end date of this initiative.
- Please provide a response to Question 120 on page 23.

In response to Question 136 on page 25, you selected "Transportation" as a CHNA need that was not addressed by your community benefit initiatives. However, you did not select "Transportation" as a CHNA need in Question 56 on page 10. Please clarify whether this should have been selected for Question 56.
Please provide your clarifying answers as a response to this message.

## Department:

Patient Financial Services Caring Program
Submitted by:
Originating Date:
11/2020

## Policy Statement:

The Caring Program enables Garrett Regional Medical Center (GRMC) to offer financial assistance for healthcare services rendered to underprivileged, underemployed, and/or underinsured patients who have difficulty providing themselves with life's necessities, i.e., food, clothing, shelter, and healthcare. In an effort to assist those in need and to further the hospital's charitable mission, GRMC has established a financial assistance program to allow the write-off of unpaid account balances upon determination of the "Caring Program" eligibility. GRMC strives to ensure that the financial capacity of people who need health care services does not prevent them from seeking or receiving care. Individuals with a demonstrated inability to pay rather than unwillingness to pay are eligible to apply for the financial assistance program at GRMC. Patients are expected to cooperate with GRMC's procedures for obtaining financial assistance and to contribute to the cost of their care based on their individual ability to pay.

## Objective:

The qualifying criteria are minimal and broad so GRMC can exercise maximum flexibility to offer financial assistance to program applicants. Eligibility to the "Caring Program" represents "free" or reduced healthcare and as such, is included as part of the hospital's outreach mission.

## Guidelines:

GRMC will grant financial assistance to eligible applicants for medically necessary services that are urgent, emergent, or acute in nature and are provided by GRMC.
A. Screening for Medicaid eligibility is required.
a. If Medicaid eligibility is likely, the patient must apply for Medicaid within the required timeframe of the service date or the date the patient assumes financial responsibility for services rendered (specific to state Medicaid requirements). b. Hospital Presumptive Eligibility (HPE) is offered at GRMC. The Patient Liaisons will screen self-pay patients and determine Medicaid eligibility, approval, or denial.
c. Those who are eligible for the following programs will receive free care at $100 \%$ participation, unless otherwise eligible for Medicaid or CHIP. Proof of participation in a program listed below is required.
i. Household with children enrolled in free and reduced-cost meal program
ii. Supplemental Nutrition Assistance Program (SNAP)
iii. State's Energy Assistance Program
iv. Federal Special Supplemental Food Program for Women, Infants, and Children (WIC)
v. Any other social service program as determined by the Maryland Department of Health or Health Services Cost Review Commission.
d. If Medicaid is not likely to be approved, i.e. no extraordinarily high medical bills, not children in the household, any disability, etc., a formal denial from Medicaid is not required. However, all Patient Financial Services (PFS) representatives have the authority to request the Medicaid application whenever there is a chance of Medicaid eligibility.
i. All inpatient and observation visits require Medicaid status denial within six months from date of service.
ii. Exception - patients who are deceased and are unable to apply or do not have a representative who can apply for them will not need a denial letter. e. Any patient who is not eligible for full Medicaid benefits may apply for financial
assistance through the Caring Program.
f. Any patient who is eligible for Medicaid but has a "spend-down" requirement to meet before Medical Assistance begins to cover charges, may apply for the Caring Program.
g. Incomplete applications and/or failure to apply and follow up with the Medicaid application will result in a denial from the Caring Program.
B. The Caring Program application must be completed and returned via US Postal Service, delivered in person, emailed, or completed over the telephone within 60 days of the date the patient becomes financially responsible for services rendered. The patient, a family member, a close friend, or associate of the patient, subject to applicable privacy laws, may make a request for financial assistance.
a. All applications require the signature of the individual who is financially responsible for the unpaid bills as well as proof of financial information used to determine program eligibility.
b. If the application is completed over the telephone for the patient by the PFS representative then the application will then be mailed to the patient for a signature. The application will then be either mailed or faxed back to the PFS Department.
c. If the applicant cannot read/write, PFS will read the policy to the applicant and assist with the form completion, requiring only a witnessed signature of an " X ."
d. Any required signatures or additional information requested by a Patient Financial Services Representative must be returned to the Patient Financial Services (PFS) Department within 30 days of the request. If the information is not returned within that time, the patient is ineligible for assistance through the "Caring Program" for those service dates that related to the application. C. In order for an individual to qualify, he/she must have exhausted all other sources of payment, including assets easily liquidated, i.e., bank accounts, money market accounts, Certificate(s) of Deposit, savings bonds, etc.
D. The following definitions of family size and income will assist in the "Caring Program" eligibility determination:
a. Family: Using the Census Bureau definition, a family is a group of two or more persons related by birth, marriage, adoption or step-children, living in the same residence, sharing income and expenses. When a household includes more than one family, GRMC will use each separate family's income for eligibility determination. According to Internal Revenue Service rules, if the patient claims someone as a dependent on their income tax return, they may be considered a dependent for the purposes of the provision of financial assistance.
b. Individual: An individual is a person who is emancipated, married, or 18 years of age or older (excluding inmates of an institution) who is not living with relatives.
An individual may be the only person living in a housing unit, or may be living in a housing unit with unrelated persons. An individual is also, for the purposes of this policy, someone 18 years of age or older who lives with relatives but has his/her own source of income. A patient's eligibility is not based on immigration status, legal residency, or citizenship. The hospital will not withhold or deny financial assistance based on race, color, religion, ancestry or national origin, sex, age, marital status, sexual orientation, gender identity, genetic information, or on the basis of disability.
c. Income: Before taxes from all sources, as follows:
i. Wages and salaries
ii. Interest and Dividends
iii. Cash value of stocks, bonds, mutual funds, etc.
iv. Net self-employment income based on a tax return as calculated by GRMC. Non-cash deductions (depreciation), income tax preparation fees, expenses for use of part of a home, entertainment, and any other non-essential expense will be subtracted from the reported business expense deductions in determining financial need and program eligibility.
v. Regular payments from Social Security, railroad retirement, unemployment compensation, veterans' payments, etc.
vi. Strike benefits from union funds
vii. Workers' compensation payments for lost wages
viii. Public assistance including Aid to Families with Dependent Children ix. Supplemental Security Income
x. Non-Federally funded General Assistance or General Relief money payments
xi. Alimony, child support, military family allotments or other regular support from an absent family member or someone not living in the household xii. Private pensions or government employee pensions (including military retirement pay)
xiii. Regular insurance or annuity payments
xiv. Net rental income, net royalties, and periodic receipts from estates or trusts
xv. Net gambling or lottery winnings
xvi. Assets withdrawn from a financial institution one year or less before program application
xvii. Proceeds from the sale of property, a house, or car
xviii. Tax refunds
xix. Gifts of cash, loans, lump-sum inheritances
xx. One-time insurance payments or compensation for injury
d. Assets - all assets owned by applying individual shall be listed on the application and recorded as value to the individual
i. The following assets will be excluded in calculating total assets owned by the applicant:

1. First $\$ 10,000$ in monetary assets
2. A "safe harbor" equity of $\$ 150,000$ in a primary residence
3. One motor vehicle used for the transportation needs of the beneficiary or any member of the family.
4. Any resources excluded in determining the eligibility under Maryland Medicaid
5. Prepaid higher education funds in Maryland 529 Program account
6. Retirement assets to which the IRS has given preferential tax treatment as a retirement account including the following:
a. Individual Retirement Account
b. 401 k
c. 403 b
d. Deferred-compensation plans
e. Roth IRAs
f. SIMPLE IRAs
g. Simple Employee Pension (SEP)
h. Profit-Sharing plans
i. Defined Benefit Plans
j. Governmental Plans
k. 457 Plans
E. Eligibility for $100 \%$ financial assistance at GRMC is available to applicants whose income is at or below $200 \%$ of the current Federal Poverty Guidelines. Any individual treated at GRMC, regardless of permanent State residence, may apply for financial assistance through "The Caring Program." Partial assistance is available with incomes up to $300 \%$ (after the $\$ 10,000$ net asset exclusion) of the Federal Poverty Guidelines, as follows:
a. Eligibility for $95 \%$ financial assistance is available for incomes at $201 \%-210 \%$ of the Federal Poverty Guidelines.
b. Eligibility for $85 \%$ financial assistance is available for incomes at $211 \%-220 \%$ of the Federal Poverty Guidelines
c. Eligibility for $75 \%$ financial assistance is available for incomes at $221 \%-230 \%$ of the Federal Poverty Guidelines
d. Eligibility for $65 \%$ financial assistance is available for incomes at $231 \%-240 \%$ of the Federal Poverty Guidelines.
e. Eligibility for $55 \%$ financial assistance is available for incomes at $241 \%-250 \%$ of the Federal Poverty Guidelines.
f. Eligibility for $45 \%$ financial assistance is available for incomes at $251 \%-260 \%$ of the Federal Poverty Guidelines.
g. Eligibility for $35 \%$ financial assistance is available for incomes at $261 \%-270 \%$ of the Federal Poverty Guidelines.
h. Eligibility for $25 \%$ financial assistance is available for incomes at $271 \%-280 \%$ of the Federal Poverty Guidelines.
i. Eligibility for $15 \%$ financial assistance is available for incomes at $281 \%-290 \%$ of the Federal Poverty Guidelines.
j. Eligibility for $5 \%$ financial assistance is available for incomes at $291 \%-300 \%$ of the Federal Poverty Guidelines.
F. If ineligibility results from the financial guidelines stated above or the applicant is eligible for partial assistance only and the applicant indicates an inability to pay the outstanding balance, the applicant will be asked to complete a financial statement to determine if his/her available monthly income is consumed by the daily necessities of life. Individual consideration of eligibility for applicants in this situation will apply to assure members of our community who cannot pay for their hospital care are included in our financial assistance program.
a. Mutually agreed upon interest-free monthly payments (based on available income after expenses) will be discussed and offered to those who are otherwise ineligible for the Caring Program and have expressed a need for an extended repayment period.
G. Individuals with a need for financial assistance who are unable to apply or do not have an individual to apply on their behalf are not overlooked for financial assistance through the Caring Program. This includes anyone determined to be homeless, patients who have filed for bankruptcy, and/or patients who are deceased with no estate or with an estate too small to cover the patient's hospital bills. Any patient falling into these categories will be eligible for $100 \%$ coverage of his/her hospital bills through The Caring Program. (Homeless patients are only eligible for the date of service in question). The following indicates the available methods for GRMC to obtain information needed for eligibility determination in these situations and for whom a completed, signed application is not required:
a. Telephone contact, including TTY communication and verbal information about the individual's financial situation
b. Discussion of the situation with the individual's state Medicaid office to obtain a preliminary determination of Medicaid eligibility
c. Research the applicant's other GRMC accounts
d. Information from the next of kin or other person able to speak about the individual's financial condition-Within HIPAA guidelines
e. Have personal knowledge of the individual's living situation
H. Documentation requirements include the application for financial assistance, proof of income and/or any unusual expenses, financial statement, release of information, etc. I. GRMC has posted signs publicizing the Program at all registration areas and in the reception area of the Patient Financial Services (PFS) Department. Information about the program is printed in the "Patient Handbook" and on the hospital's web site. Monthly self-pay statements include a pre-printed notification of the financial assistance program and instructions for applying to the "Caring Program." Included with every self-pay statement is the "Maryland Hospital Patient Information Sheet" that mentions the hospital's financial assistance program. Automated monthly statement messages also encourage applications for financial assistance. Whenever a patient/guarantor inquires about the availability of a financial assistance program at GRMC, staff members should refer the inquiry to the PFS Department; offer to supply the telephone number of the PFS department, and/or direct patients to the PFS department. All PFS personnel review the financial assistance policy annually, at a minimum, discuss policy changes at departmental meetings, and have access to the current financial assistance policy during all work hours.
J. GRMC will post, at least on an annual basis, an ad in the local newspaper informing residents of the availability of its financial assistance program, or upon approval of updates to the program guidelines. Printed copies of the application forms are available at the time of registration or at any registration location. Copies of the financial assistance policy and applications are also available in the Patient Financial Services Department upon request and may be picked up in person or mailed to the patient's or guarantor's home
K. Self-pay accounts will be screened for financial assistance regardless of the dollar amount of the account; however, self-pay balances resulting from insurance company payment to the individual or from the individual's failure to respond to an insurance or GRMC query will not be considered eligible for the program.
L. Financial assistance is not available for any account already referred to a collection agency or attorney for formal collection action. Excluded from this statement are accounts where an individual/family has declared bankruptcy or has deceased with no estate or has an estate too small to pay our claims. Any outsourced third party collection agencies receive a copy of the financial assistance policy on an annual basis, or when changed, whichever occurs first.
M. Financial assistance through the Caring Program will continue for a period of six months or one year after the eligibility approval date based on date of service, unless income significantly changes, when based on fixed incomes such as social security or retirement, or the tax return of a self-employed individual. Eligibly for six months is based on unemployment or three months of paystubs. Twelve month eligibility is based on a federal fixed income statement or annual tax return, retirement, and self-employed income. Eligibility for the Caring Program would be based on the financial information supplied unless the income of the applicant changes significantly.
a. After the designated period of eligibility, a new application for financial assistance must be completed/signed by the guarantor. Fixed income verification is required annually and applies for one calendar year (January through December) for eligibility determination if the applicant completes the renewal application at the appropriate time.
b. Upon application approval, GRMC will write-off eligible account balances.

GRMC may reverse the determination of eligibility if any of the information supplied on the application was incorrect.
c. If an individual's financial status deteriorates and he/she cannot pay the agreed upon monthly payment amount, GRMC will again review (upon request) the individual's eligibility to the program.
d. Once GRMC has determined that an account is eligible for financial assistance or is not collectible, that financial classification is final.
e. GRMC will post payments received from any source (after the eligible account balance is written-off) to the appropriate hospital account and will adjust the amount of the financial assistance write-off accordingly.
N. Individuals who have incurred hospital expenses for care and/or treatment ordered through the Garrett County Health Department (GCHD) as part of the Garrett County Cancer Control Program shall be eligible for financial assistance for balances remaining after payment from GCHD. GCHD is responsible for notifying GRMC of all claims that fall into this category.
O. Individuals or families with an income below $500 \%$ of the federal poverty level that can prove medical hardship will be eligible for The Caring Program for a15\% financial assistance or reduction in charges. In order to meet the medical hardship criteria, the patient/family must have medical debt at Garrett Regional Medical Center (excluding copays, co-insurance, and deductibles) that exceeds $25 \%$ of the individual's/family's annual income. Medical debt is any out-of-pocket expense (excluding co-pays, coinsurance, and deductibles) for medically necessary care that the individual/family has incurred at Garrett Regional Medical Center in a 12 month period. Medically necessary care, for the purposes of this policy, does not include elective or cosmetic procedures. If an individual/ family meets these criteria and is found eligible for The Caring Program, that eligibility will last for 12 months from the date on which the reduced-cost medically necessary care was initially received, unless there is a significant change in the individual or family's income. Once found eligible, The Caring Program covers medical bills for all members of the household. Eligible medical debt does not include any accounts which the patient chooses to opt out of insurance coverage or insurance billing. P. Upon receipt or notification of an individual's or a guarantor's notice of bankruptcy filing, all accounts with an outstanding self-pay balance for that individual or guarantor will become eligible for $100 \%$ financial assistance through the Caring Program.
Q. Self-pay accounts for individuals who are deceased and have no assets or estate shall be eligible for $100 \%$ financial assistance through the Caring Program, if not already an established Charity Care recipient. . Estates will be monitored and checked for 90 days by the Patient Financial Services Representative. If no estate is found the patient's selfpay balance will then be adjusted to Charity Care.
R. A probable eligibility determination will be given to the applicant within 2 business days of PFS representative receiving the patient's request.
S. A final approval or denial letter will be mailed out to the applicant within 14 days of receipt of the completed application.
T. If no auto benefits apply and commercial insurance has processed the claim. At this time Charity Care can be applied to the account.
U. In implementing this Policy, GRMC management and facilities shall comply with all other federal, state, and local laws, rules, and regulations that may apply to activities conducted pursuant to the Policy.
V. It is recognized that Old Order Amish and Old Order Mennonite patients do not rely in any manner on any type of government programs or private insurance based upon their religious beliefs. These two Orders rely on their religious community to pull resources together to pay for healthcare bills for members of their community. These patients, who
are $100 \%$ self-pay will be granted a $25 \%$ discount when paid in full within 30 days of service.
a. A letter from the Old Order Amish Church and Old Order Mennonite Church will be presented to Garrett Regional Medical Center to be kept on file.
b. Any patient applying for this discount will be required to fill out an application form.
c. Patients requesting this assistance must present to the Patient Financial Services Department and speak to a PFS Representative.
d. Financial assistance through the Caring Program will continue for a period of five years after the eligibility approval date.
W. Under Charity Care a person is eligible for standard Charity Care or Older Order Amish/Mennonite Charity Care. A patient may not pick and choose or have both. X. Patients may request the hospital to reconsider the denial of free or reduced care by contacting the Health Education and Advocacy Unit (HEAU). This organization is dedicated to providing services to Marylanders who need assistance with consumer or health billing issues. They can be reached at 410-528-1841 or toll free 1-877-261-8807. Their fax number is 410-576-6571 and email address is heau@oag.state.md.us. HEAU's mailing address is 200 St. Paul Place, Baltimore, MD 21202. You may also access this information at the HEAU website (marylandattorneygeneral.gov/pages/cpd/heau).

## Acknowledgement of COVID-19 Risk for Elective Procedures

The health and safety of our patients, visitors, employees and our community remain a top priority at Garrett Regional Medical Center. The COVID-19 (also known as Coronavirus) epidemic is a difficult time for all of us and as a patient-centered hospital, we must do everything we can to prevent the spread of the disease and protect our patients, staff and visitors. COVID-19 is a contagious disease. It spreads quickly and can be life threatening. A person can have COVID-19 with mild symptoms and unknowingly spread it to others. In order to protect our patients, their visitors and staff from spread of COVID-19 we have enacted a "No Visitors" policy, which will be made available to you if you elect to proceed with surgery. Given these circumstances, all patients desiring elective surgery must review and sign this Acknowledgement, or defer the surgery to a later date.
$I$ understand that following these guidelines only mitigates the risk of getting COVID-19. By having a surgical procedure at Garrett Regional Medical Center, I am accepting all risks associated to my own safety and the safety of others.

Any person, whose behavior, health, or failure to follow hospital safety and preventative protocols, in the sole judgment of the Hospital staff, presents a risk to patients or staff, will be directed to leave the hospital premises and will not be permitted to have surgery.

By signing below, I am acknowledging that I have read and understand the above. I also understand that by having a surgical procedure, I am accepting all risks associated to contracting COVID-19 virus or to the spread of the virus. I also understand that the use of PPE (Personal Protective Equipment) does not guarantee that I will not contract or spread any disease or illness.

Acknowledgement of Risk:

## ACKNOWLEDGEMENT OF PRIVACY NOTICE \&

``` PERMISSION TO SHARE PERSONAL HEALTH INFORMATION
```

## ACKNOWLEDGMENT OF PRIVACY NOTICE

```
I have received a copy of Garrett Regional Medical Center's (GRMC) Notice of Privacy Practices (if not already received). The Notice authorizes GRMC to identify me as a patient, to report a general one-word description of my condition to anyone who inquires about me by name, and to disclose my location within GRMC. GRMC may also identify my religious affiliation to members of the clergy meaning I agree to have visits from members of the clergy. My preferences to these three items are as follows:
1. GRMC may identify me as a patient, report my condition to persons who ask about me by name, and disclose my location within the facility. Yes
``` \(\qquad\)
```

2. GRMC may disclose my religious affiliation to the clergy.
``` \(\qquad\)
``` Yes
``` \(\qquad\)
``` No
3. GRMC may permit the members of the clergy to visit with me.
``` \(\qquad\)
``` Yes
``` \(\qquad\)
``` No
If you answered yes to question 1 we will include you in our hospital directory.
If you answered yes to questions \(2, \& 3\), we will include you in our clergy list.
Please be aware that if you are not included in our facility directory, we will not be able to confirm to any callers that you are in the hospital. Therefore, you will not receive any telephone calls, greeting cards, flowers, or visitors. (In this case, answer the, 'Restrict Dir Discl' prompt on the Prov/Rm/Svc screen 'PATIENT'.
If the patient does not wish to be on the clergy list and/or have clergy visit them while in the hospital, answer the, 'Restrict Dir Discl' prompt with 'RELIGION'.
If the patient does not wish to be in the directory or on the clergy list, answer 'BOTH' to the question.
If the patient does wish to be listed both in the directory, and on the clergy list, answer 'NONE' to the question.
Note to Admissions Staff: If a patient is unable to respond, use your best judgment and always err on the side of caution. It is better to protect the patient's rights than to possibly release confidential Protected Health Information.
```

## NOTIFICATION OF FAMILY AND/OR OTHERS

I hereby authorize the staff of GRMC to withhold all of my Protected Health Information:

I hereby authorize the use and/or disclosure of my personal information as indicated above.
Patient or Personal Representative Signature

Date

12/08/20

CONSENT FOR TREATMENT
I hereby enter the above named patient, whose relationship to me is that of as a patient in the GARRETT REGIONAL MEDICAL CENTER, OAKLAND, MD., agreeing to allow treatments, and/or operations and/or diagnostic studies to be performed in case the attending physician deems it to be necessary. If the patient leaves the GARRETT REGIONAL MEDICAL CENTER against the advice of the physician in charge, I agree that the same shall have been done at the risk of the patient and I release the hospital from all responsibility from the hour of departure, and agree to indemnify and protect said hospital from any claims arising out of the premises. Patient Rights, Complaints, and Visitation Guidelines are found in the Patient handbook.

I understand there may be instances when individuals may be shadowing a healthcare provider or when students in a healthcare discipline may be observing and/or have limited participation in my care, but only under the direction and supervision of hospital staff and/or the physician, Certified Registered Nurse Anesthetist, Physical Therapist,
Occupational Therapist, Speech Therapist; I consent to their observation and/or limited participation in my healthcare.
Some of our patient rooms have the capability to monitor by camera for patient safety. You may be in one of these rooms. If you have any questions concerning this, please ask.
RELEASE OF INFORMATION
It is understood that a report of diagnosis and other medical information related to my care and treatment may be released to such agencies as might be concerned with payment of charges and/or continuing medical care for provider services hereby authorized.
By signing, I agree that GARRETT REGIONAL MEDICAL CENTER and its related organizations may call any phone number I provided to reach me for treatment, payment or healthcare operations.
ASSIGNMENT OF BENEFITS
I hereby authorize payment directly to GRMC of any hospital or medical insurance benefits othwerise payable to me. Such payments, however, are not to exceed the balance due such
provider of services based upon the regular charges for such services.
MEDICARE BENEFICIARIES ONLY (Release of info and payment request)
I certify that the information given by me in applying for payment under TITLE XVIII of the Social Security Act is correct. I authorize any holder of medical or other information about me to release to the Social Security Administration or its Intermediaries or Carriers any information needed for this or a related Medicare claim. I request that payment of authorized benefits be made on my behalf. I assign the benefits payable for physicians or organizations furnishing the services or authorize such physicians or organizations to submit a claim to Medicare of payment for me.

## 2019-2021

## GARRETT COUNTY

## OVERVIEW

## Because Health Equity Matters

We each have our own ideas about what it means to be healthy, what we feel the biggest issues are for ourselves, and the community we live in. Unfortunately, the issues we face depend dramatically on what we're able to afford. When we think about health, it cannot be adequately discussed without acknowledging that our health is fundamentally affected by our income. Concerns like: affordability of health insurance, adequate treatment services to address mental health issues, honestly looking at how addiction can happen to anyone in a community, and addressing food insecurities, which left unchecked, can deeply impact a community overtime. Every community chooses to confront these challenges in different ways that reflect the varying sensibilities and priorities of the people who live within it. What is consistent, however, is that a community is better equipped to make informed decisions regarding policies and strategies, and is poised to respond together when data is shared transparently across sectors. Once we all have the most accurate and up-to-date information we can continue doing what works and begin to create new opportunities for a prosperous future.

The Community Health Assessment contained on the following pages provides the most accurate information available to us at this point in time. This document is a summary of work that has continued since the previous assessment publication in 2016.

The United States National Forum on Information Literacy defines information literacy as "... the hyper ability to know when there is a need for information, to be able to identify, locate, evaluate, and effectively use that information for the issue or problem at hand." Our goal is to provide the best quality information currently available to our community, so they can intelligently and actively participate in the decisions that impact them.

The Population Health, Innovation \& Informatics Unit within the Garrett County Health Department thanks the organizations that contributed to this assessment and encourages our partners to use it to inform planning to make Garrett County a healthier place to live, work and play. Please join us as we endeavor to make a difference in our community by participating on mygarrettcounty.com.

## EXECUTIVE SUMMARY

## 2019 Garrett County Community Health Assessment

This Community Health Assessment is simply a slice in time of a dynamic process contiguous with our efforts to make a difference in the lives of those we serve. Great care and attention was placed on collecting as much data as possible from the many subsections within our community. Expertise was garnered from NACCHO's MAPP guidelines and documentation to ensure rigorous standards during our needs assessment process.

# "Assessing our community is vital to understanding how we can better serve, layering the data that's available with our own primary sources creates a platform for responsive action." 

\author{

- Robert Stephens, Garrett County Health Officer
}

Extensive research was conducted from April 13th through August 13th, 2019. We conducted 10 focus groups and analyzed responses from 2,102 web based and paper surveys completed by staff, community organizations, and stakeholders. We also evaluated secondary sources of information about our community. The assessment included the social determinants of health, which are factors like employment, housing, transportation, etc... that affect the health of the community, and are vital to improving population health.

The Health Planning Council, the Assessment Planning Committee, and many community members all played key roles in pulling this information together for this report. We are pleased to publish this document and wish to convey gratitude for all those who took an interest and spent valuable time making this possible.

We more than doubled our participation from the previous assessment efforts, with 2,102 people participating in the focus groups and community survey, making this sample size statistically significant for our county! In addition to county wide significance, we had all but two zip codes with enough participation to count them as statistically significant in our analysis. This outstanding turnout of community participation on a primary data collection level enables us to develop robust and culturally informed improvement strategies based on accurate prioritization.

## GARRETT COUNTY

## HEALTH ASSESSMENT

## RESULTS

## Thousands of Voices, One Vision

In order to best understand the status of health in our communities, it's critical that we gather, analyze, and seek to understand the issues in our communities and how people perceive them.

Community health assessments typically use both primary and secondary data to characterize the health of the community:

- Primary data refers to the first-hand data gathered by the researcher themselves, is real-time and is often collected first-hand through surveys, and focus groups.
- Secondary data refers to data collected by someone else, in the past for another entity and/or purpose.

Balancing these data sources helps illustrate the most complete picture of our community, and its ever evolving people, resources, and needs.

Immediately following are the aggregate results of our community prioritization survey that was conducted both county-wide and regionally to collect primary data on community-driven need identification, down to the zip code level.

Additional primary data was collected through a series of focus groups. The qualitative data from all of the groups have been analyzed and is summarized following the prioritization report.

[^1]

## GARRETT COUNTY SURVEY RESULTS

These results reflect the responses of participants in Garrett County, Maryland zip codes, and do not include regional responses. Additional data, tables, and tools for this dataset, as well as regional datasets are provided in the supplement.

These results reflect the responses of participants in Garrett County, Maryland zip codes, and do not include regional responses.
Additional data, tables, and tools for this dataset, as well as regional datasets are provided in the supplement.
*Reference CHArp tool in the Methodology section for more information about current statistical validity of small samples.

## REGIONAL SURVEY RESULTS

These results reflect the responses of regional participants. Additional data, tables, and tools for this dataset, as well as Garrett County datasets are provided in the supplement.

## FOCUS GROUP ANALYSIS

## Conversations Run Deeper

Focus groups were held in a guided conversation format about the top five issues people identified as their main concern in our latest community prioritization survey. The top priority identified on the survey in the region, the entire county, and in every zip code, with the exception of Kitzmiller, was Jobs, Wages, \& Economic Development.

This priority and the themes central to Jobs, Wages, \& Economic Development that have been synthesized from the focus groups are consistent with data provided in this report. There is a generalized fear that our towns are "dying" due to population decline, lack of affordable housing, school closures in communities, and a lack of competitive job opportunities. Conversation about how to keep our young people in the area and offer them a way to thrive was a significant portion of every focus group. High speed internet that is both available and affordable to the entire county was both a consistent complaint and offered as a strategy. If high speed internet was available in every area of the county it could support job growth and people being able to work remotely for larger employers and remain in the area (tele-work). Some focus groups made the direct correlation between higher incomes and improved health outcomes, stating when you "have enough money, and a safe environment, the opportunity to live a healthier life is greater than those without."

Health Insurance as a priority was high ranking, second in the region, third in the county and, second for four of the zip codes, first in Kitzmiller. The consensus around this priority from the focus groups is that those working lower paying jobs could not afford the insurance plans offered by their employers so they typically don't have any insurance at all. Additionally, there were those who currently have insurance, but were concerned about future costs and being able to afford care later in life.

Substance Abuse continues to be a priority, ranking third in the region, second in the county and second for three of the zip codes. It's important to remember this category is broad and includes opioids, prescription medications, alcohol, tobacco, and other drugs. The conversations were as broad as the category itself. Those with personal experiences spoke bravely about how hard it was to receive proper treatment and that there are not adequate resources, especially for youth. Those who haven't had first hand experience reported watching neighbors sell drugs and senior citizens sell pills so they can afford to eat. They spoke of grandparents raising grandchildren, and the hardship of drug affected children on the education system. A hardship on employers was also reported.

## FOCUS GROUP ANALYSIS

## Community Composition

Education as a priority ranks fourth both in the region and in the county. Attention focused in two main areas: the public school system and vocational opportunities for youth in the county. Questions concerning appropriate resource allocation was a common theme, with better pay for quality teachers, and the concern of more school closures. Communities that have lost their elementary schools spoke of the compounding negative effects. The threat of school closures for other communities was also common and perceived to be what will take away all hope from any growth that may occur in the area. The burden of behavioral issues presenting in classrooms due to increased drug use overlaps with the substance abuse priority. However, in this context it was spoken about as concern for the teachers not having the resources - either the capacity and/or extra help in the classroom and the potential to compromise the education of other students. Training in vocational areas where students are taught a trade, in some cases including certification such as journeyman or welder, was discussed as an opportunity to make our area more attractive. Although it was noted we have vocational programs in the high schools, the consensus was that the programs are underfunded and the options for going further are very limited. Free tuition at Garrett College was perceived as a tremendous benefit, but for those who can't or don't want to transfer for a higher degree, the ability to earn a living wage without skilled trade is often difficult. With the cost of college completely out of reach for many families and the shortage of skilled labor this was an area communities wanted to explore further.

Mental Health ranks fifth both in the region and county on the consumer surveys. Digging deeper into this topic in the focus groups proved to be quite complex making it difficult to identify themes. However, a theme that carried over from 2016 was that mental health services are still insufficient, and despite high demand, the root of the problem is lack of access - or the ability to find care. Psychiatry is elusive and non-existent for youth, and tele-psych was reportedly still unreliable due to internet connection, billing, and insurance issues. Although there has been an effort to expand services in the area, many still feel as though it's difficult to receive proper treatment.

## FOCUS GROUP ANALYSIS

## Challenges Voiced During the Focus Groups (Direct Quotes)

"We have nothing here to keep young people in the area."
"Do we have a trade school in the county? I'm not talking about a driving school."
"You can get healthier with higher incomes, we're making progress - "
"My concern is the next 5-20 years, do we have the next generation or two behind us to attract and keep?"
"I have a good job-but the broadband thing-although my job allows me to work from home, I can't."
"This town is really dwindling - the school is gone, no one is moving into town- it's going to be a ghost town."
"Lack of high speed internet around the county- how do we move into the future? It effects tourism, giving people tools-so many opportunities are online."
"I wish I knew who to complain to so it would make a difference."
"Disparity of affordable housing - I'm not talking about subsidized housing, \$900 a month for rent or more is not affordable."
"What is my retirement going to look like? Trying to guess at what my medical needs will be and if I have medical concerns- will I be destitute without the insurance?"
"Health Insurance? We can't afford it."
"My kids have it through the state but it's still not enough."
"We pay our own way."
"I'm a transplant- I still don't feel like I belong after 25 years. That's what people who are born here call me, a transplant."
"People don't respect one another."
"People don't have open minds."
"I married a native but my friends are not."

## FOCUS GROUP ANALYSIS

## Challenges Voiced During the Focus Groups (Direct Quotes)

"It's the kids that grow up and are even born addicted. Drugs and what they do to the kids is the saddest part."
"Highest level of our society - grandparents are raising kids- affluent people."
"Senior citizens are selling their drugs for food."
"Parents in the schools need more education, alcohol is just as bad."
"Insurance didn't go out of the state."
"If you haven't been around other races you just don't know how to act"
"A lot of people drink too much."
"House was broken into and the only thing that was stolen was whisky."
"Meth was big- but they arrested the two dealers."
"If people had hobbies, or play sports that might help-lt gives me purpose. If they find something they are passionate about...."
"Addicts and seniors are mixed together in housing."
"Judgmental about people who use drugs. Addiction is not a choice-"
"People can't pass a drug test."
"They need to focus on the elementary school -they keep talking about shutting it down. The bank and the post office will probably leave too. If you don't have a school- you don't have a community. It's shortsighted of them to close the school."
"We lack psych. Telepsych - if the internet goes down it's hard for mental health patients. It's bad for adults and even harder for adolescents. It's much more stigmatized in a small community."
"We have more problems than people realize."

# WHAT DO YOU LOVE ABOUT LIVING IN GARRETT COUNTY? 

"Sense of community- everybody is related-they watch out for your kids"
"Strong volunteer base"
"Church involvement"
"Great senior site that provide much needed meals"
"Outdoor activities"
"Very friendly, waving, and polite, skies are very blue, hear birds, no smog"
"If there is a need this community comes together."
"Slower pace and four distinct seasons."
"We love our land, space, very neighborly but there is still space."
"Good area to feel safe and watch wildlife and walk in the woods. People are so friendly and kind and willing to help."
"An experience that's hard to appreciate unless you've lived elsewhere"
"The spirituality of the mountain."
"There are kind people, always someone watching out for you."

## FOCUS GROUP ANALYSIS

## Longing for Respect \& Belonging

In contrast to this theme, discussions with those that have had dissimilar experiences in small towns in the county were explored. This quote taken from a focus group may challenge your perspective,
"there is a difference between a polite community and one that truly embraces a person."
If you've never been the person treated differently, it may be difficult to understand. However, when asking the open-ended question about what makes a community healthy, the notion of the need for belonging kept surfacing. Regardless of whether you are from the area or not, being different in any way is perceived as a risk or disadvantage in Garrett County.

One person put it this way,
"it's a safe community for everyone, unless you're on the margin."
A call for open mindedness and general respect for people was recorded multiple times in the various focus groups.

## OUR HEALTH

## Secondary Data Analysis

In today's digital environment, data is more accessible than ever, and emerging innovations, such as the Garrett County Planning Tool (mygarrettcounty.com), present tremendous opportunities to better understand the constructs at work within our communities.

The supplemental datasets highlighted throughout this document are assembled snapshots from a broad sweep of community, regional, state, and federal data warehouses, and are provided for reference. These resources are designed to be investigative prompts, rather than exhaustive datasets.

Many of these reports and datasets were aggregated from numerous sources, and often, compared across state and regional boundaries to better illuminate the disparities that exist within different data frames. This means that some data may not be an exact match, and further analysis may be needed to flush out the differences in reporting across jurisdictions (i.e.; broadband access matches, Maryland vs. West Virginia vs. federal reporting, et cetera).

All information, data, tools, and materials contained within this report are provided without warranty. While every attempt was made to verify data throughout the process, many datasets, archives, and agencies sourced throughout are still striving to improve data quality and consistency in reporting.

The reports that follow were assembled with resources from secondary sources, and should not be considered conclusive or valid, nor interpreted for use, without reconciliation and verification outside of the discussion and supplements within this document. This report is the first attempt to reconcile these datasets, and results/data points may evolve or change over time, or as additional information becomes available.

Verification and further research are vital to ensuring that data provides transparency and promotes the most effective and efficient courses of action for community health improvement.

## OUR HEALTH

## Community Composition

Garrett County is a unique rural community situated in the westernmost corner of Maryland. According to the census, it is a large county with a geographic base of 656 square miles, and 46.5 persons per square mile (US Census, 2010). Our low population density ranks Garrett County as the third least populous county in Maryland. Natural beauty abounds with plenty of open space to enjoy with over 98,276 acres of parks, lakes and publicly accessible forestland.* The county is bordered by West Virginia and Pennsylvania and is considered a tri-state area.

According to the 2017 ACS 5-year population estimate, the population of Garrett County was 29,516 - continuing to decrease from 30,097 reported in 2010. This is important to note because population loss is one of the main indicators of a weak regional economy.** Only 15,720 people made up the labor force in Garrett County, a regionally small proportion relative to total population (more info in Regional Indicators Supplement). The migration of young people to urban areas coupled with aging populations continues to be a challenge for our region; however, a comprehensive secondary data analysis indicated that local systems of support are more aptly prepared to address rapidly aging populations than most, excluding economic concerns and health insurance.

Median household income hit an all time high in 2018 for the nation and Maryland was ranked the wealthiest state, with a median household income of $\$ 83,242$. Garrett County remains well below that at $\$ 48,174$. This more closely aligns us with our neighboring state of West Virginia, which is one of the poorest states with a median income of $\$ 44,061$. The population of West Virginia fell by $2.5 \%$ over the past eight years, the largest decline of any state. An article analyzing the richest and poorest states noted, "the GDP of West Virginia increased by just 1.8\% a year on average - less than half the 4.1\% national growth rate. Like the nation as a whole, the largest drag on economic growth was the state's mining sector."*** Related to this for our region was the 131 year old Luke Paper Mill closure, a devastating blow to the Western Maryland region. Reported job loss from VERSO was 675 in June of 2109. However, that does not account for the industry support jobs, many of whom were small companies or self-employed individuals. It remains to be seen just how deeply this closure will impact the people in our region, and how long it will take to recover.

[^2]
## OUR HEALTH

## Affordable Housing Impacts

Ensuring that everyone has a decent place to live is vital to improving population health. The affordable housing debate is one of many that is a topic of concern not only nationally, but also here at home. Simplicity is not the cornerstone of this debate, as there are layers of complexity that confound solutions.

The National Low Income Housing Coalition publishes a report annually showing the "housing wage" that a person would need to earn full time ( 40 hours a week, 52 weeks a year) in order for a two-bedroom rental unit to be affordable by the official government standard. The report states, "In the United States, the 2014 twobedroom Housing Wage is $\$ 18.92$. This national average is more than two-and-a-half times the federal minimum wage, and $52 \%$ higher than it was in 2000 . In no state can a full-time minimum-wage worker afford a onebedroom or a two-bedroom rental unit at Fair Market Rent."*

We naturally ask the questions, affordable for who and how many units are available for rent in the region? This was a common discussion that ran across several of our focus groups during this assessment. The federal Department of Housing and Urban Development (HUD) defines an "affordable dwelling" as one that a household can obtain for 30 percent or less of its income. However, this varies from place to place.

Shockingly, affordable housing, a known vital social determinant of health, remains elusive, pending further analysis that illustrated significantly higher Home Purchase Loan Origination by Loan Amounts of Under \$60,000 (Garrett: 4.48\%, Allegany: 19.29\%) and \$60,000-\$119,999 (Garrett: 18.49\%, Allegany: 43.85\%). In Garrett County, it is difficult to find a reliable data source to report affordable rental units at any given time. Our vacant property rates are more than triple both national and state rates at $38.24 \%$ in Garrett County (more info in Regional Indicators Supplement). This data is a starting place to aid local leaders as they evaluate housing policies, zoning, and other issues related to affordable housing. More data is needed as this complex issue continues to hinder economic growth in the region.
*https://reports.nlihc.org/oor/2014

## OUR HEALTH

## Hidden in Plain Sight

Balancing community priorities with secondary data sources as we seek to be responsive to the needs of the community can be a complex process. In some cases the secondary data supports the community priorities, and in other cases, it doesn't.

Due to the extensive nature of this the report, highlighting a few areas that demonstrate this point is important for broader community coalition conversations in order to work toward reconciliation.

Despite low interest from those surveyed, the first area of concern is sexually-transmitted infections (STIs/STDs). It was rated next to last on the community priority list. However, there appears to be increasing prevalence of diagnoses of chlamydia and HIV longitudinally in the region.

The second area of concern is child maltreatment, which is often defined as physical injury (not necessarily visible) of a child under circumstances that indicate that a child's health or welfare is harmed or at substantial risk of being harmed. Data sources record this differently, so it's important to consider what the sources are measuring, but rates have consistently been one of the worst in the state of Maryland and do not indicate improvement.

A call to action for increased aggregate data sharing on the Garrett County Planning Tool from agencies that track different nuances of the larger issue of child maltreatment is needed. Information about local foster care cases and domestic abuse may help us understand the complexities children and adolescents are facing.

Another area of note is the lack of reliable data around obesity and other chronic diseases, including diabetes. Data that is available does not indicate adolescents or adults prioritize healthy eating habits, exercise, limiting alcohol use, or avoiding tobacco. Further assessment is needed on the efforts that are being made in the community to address these issues.

Substance abuse has remained in the top three priorities from primary data collected through community surveys and focus groups since we began formal assessments in 2016. Chronic Disease remains the main cause of death and significantly surpasses all others including overdoses, yet people are not as concerned with heart disease. This is evident in our primary data results and the extensive programmatic efforts funded by multiple agencies to reduce substance abuse. A cultural shift is needed to reinforce the importance of healthy lifestyles on overall quality and length of life.

## OUR HEALTH

## State of Health Equity

Despite the traditionally white (96.3\%, not Hispanic or Latino), homogeneous population in Garrett County, documentation of severe health inequities among minority populations has provided additional insight as our community composition begins to change. While previous analysis of the region has focused on economic inequities, we are expanding the conversation to include racial and LGB inequities, based on the datasets discovered through expanded research.

Through accompanying supplements, the following critical indicators have been identified:

Garrett County, MD ranked the poorest among neighboring communities for Black or African American (50\%) and Other (31.9\%) races for No High School Diploma by Race Alone, Black or African American (34.33\%) races for Uninsured Populations by Race Alone, and Black or African American (85.71\%) races for Population in Poverty by Race Alone (more info in Regional Indicator Supplement).

From 2000 to 2010, the White population in Garrett County decreased, while the Black or African American population increased 135.16\% (more info in County Indicator Supplement).

Additionally, the results of the Maryland Youth Risk Behavior Survey (more info in Supplement) point to additional disparities among Gay, Lesbian, and Bisexual youth, indicating that these populations reported, in aggregate, No Difference or More Likely than Heterosexual to experience every risk behavior reported by Maryland through the national YRBS tool designed "to monitor health behaviors that contribute markedly to the leading causes of death, disability, and social problems among youth and adults in the United States."*

While these populations are small comparatively, these statistics present insurmountable difficulties for racial and sexual orientation minorities in our community and warrant further examination and consideration in developing equity-based practices to improve population health.

[^3]
## OUR HEALTH

## Hope on the Horizon

Despite these disappointing findings, there are several promising trends for Garrett County on the horizon.

One of the most important indicators for economic advancement in the modern age is broadband access.* Depending on the report referenced, this range varies greatly (up to a disputed estimate of $100 \%$, including mobile broadband access), and is further compounded by promising innovations and developments, such as the Neubeam initiative in partnership with Garrett County Government to find innovative solutions to increase consistent broadband access throughout the county. Further, the addition of Sprint, a major national carrier to several adjacent counties could provide additional infrastructure upon which to see additional advancements in community access.

In addition to this promising pathway that seems aptly timed to succeed in propelling Garrett County to the front of the line in rural communities primed to compete in the growing remote jobs market, a new indicator has been uncovered that shows additional promise for Garrett County by means of access to transportation. As reported in the accompanying Regional Indicator Supplement, only 6.84\% of households lacked access to a motor vehicle in Garrett County, compared to $10.66 \%$ in Allegany County. This relatively low figure illustrates the need to isolate the contributing factors to low/no transportation access, as the issue may be more readily resolved or alleviated through niche-targeted methods, rather than difficult systems-level modifications.

Finally, the dedicated efforts of Garrett Regional Medical Center and many local agencies and organizations, including the greatly appreciated Cindy's Fund, may be contributing factors worth further investigation, as Garrett County now has the lowest Age-Adjusted Death Rate for Cancer Mortality (137.5 Per 100,000 Pop.) in the entire sampled region (more info in Regional Indicator Supplement). Garrett County's commitment to cancer treatment and community support should be duly noted and may prove to be an innovation model worth expanding to additional areas, pending further analysis.

## METHODOLOGY

## A Shift Toward Actionable Data Collection

As our local community health assessment and improvement planning processes continue to evolve with an increased focus on collecting the most useful and actionable data, we happily credit the other counties, regions, and cities that have helped shaped our processes:

- Howard County, Maryland Community Health Needs Assessment Model*
- Richmond City, Virginia Health District Community Health Assessment Model**
- Denver, Colorado Public Health Assessment Model***

Additional resources:

- Survey Sample Size Calculator****

Community Tool Box Best Practices for Community Surveys*****

[^4]
## METHODOLOGY

## The Survey Instrument

The Garrett County Health Department's Population Health, Innovation, and Informatics Unit champions county-wide assessment, planning, and health improvement. These processes are reviewed at public Health Planning Council meetings held once a month at the Garrett County Health Department with a variety of stakeholders. Their mission: to ensure high quality, effective, and integrated community care system that is responsive to the needs of residents. For those unable to attend, every stakeholder and member of the public is invited join us digitally for a transparent look at these processes on mygarrettcounty.com.

In addition to the Health Planning Council meetings, local agencies and key stakeholder groups (consisting of staff from the Garrett County Health Department, Garrett County Local Management Board, Garrett County Behavioral Health Authority, Mountain Laurel Medical Center, and Garrett Regional Medical Center) met on March 12, 2019, to review a sample draft of the survey instrument. In order to ensure that our instrument captured the most valuable information and is equitable in design, this process was extended this cycle to include a one week, anonymous public comment window on the Garrett County Health Department's website at garretthealth.org from March 20 thru March 27, 2019.

## Public Review Results

The survey instrument was open for public review from March 20, 2019, through March 27, 2019. The survey instrument review reached 481 people, was reviewed 46 times by 34 unique individuals without request for modification.

## METHODOLOGY

## Survey Launch

Up to the release event at the Garrett County Health Fair on April 13, 2019, staff, agency partners, and student volunteers equipped with iPads collected 197 surveys from health fair attendees. Email marketing and social ads were the primary modes of outreach utilizing the health department's extensive databases and strategic investments in digital technology, providing a return rate that more than doubled that of the previous assessment. The Community Action, Aging \& Nutrition division assisted with a paper version for some of our most vulnerable residents.

Garrett Regional Medical Center, Garrett College, Mountain Laurel, Garrett County Health Department, County Government, Community Action, and Garrett County Public School System specifically requested staff and clients, when appropriate, to take the survey using the digital link. The Garrett County Population Health, Innovation \& Informatics unit provided two incentives for participation, one for completion of the survey and one to participate in one of ten focus groups held around the county. In seventeen weeks, our collaborative effort yielded 2,102 surveys. Ten focus groups were conducted with 60 individuals in Garrett County who volunteered their time to help us understand more about the priorities selected for their zip codes.

## Templates

The survey instrument and focus group script are available within the included supplement.

## EXTENDED TOOLS

## Community Health Assessment Research Portal (CHArp)

While the presence of narrative and thorough analysis of data is vital to guiding the community health improvement process, it is equally important to ensure that datasets and resources are accessible and interactive for end-users to draw their own conclusions. Thus, this cycle marks the first time that community stakeholders can explore a dynamic portal designed specifically for the assessment process to generate need reports, assess prioritization, and ensure that health equity is a concept central to all activities in and around population health in Garrett County, Maryland.

To this end, Garrett County has developed an open source research tool available at:

## garrettcountyhealthdepartment.github.io/CHArp

In addition to the easily accessible and interactive digital tools, charts, and maps available within the tool, each interactive element is mapped to a Tableau public sheet that includes relevant metadata for further analysis.

We greatly welcome your feedback on this new application via the built-in support mechanism for this tool.

## SUPPLEMENT

## GARRETH COUNTY

## Garrett County \& Surrounding Areas Community Needs Assessment (20192021)

Welcome!

The following survey is being conducted by the Garrett County Health Department with the Garrett County Local Management Board, Garrett County Behavioral Health Authority, Mountain Laurel Medical Center, and Garrett Regional Medical Center.

This survey should take approximately 2-5 minutes to complete, and all responses are anonymous. The results of this survey will help determine the prioritization of the next Garrett County Community Health Improvement Plan.

Please do not enter any personally identifiable information in any open text fields. Once you complete the survey, you will have the opportunity to enter your name in the prize drawing.

Thank you for taking time to help make our local communities healthier places to live, work, and play!

## Focus Group Script

## 2019 Community Health Assessment

- Introductions:
- My name is NAME and my role today is to help guide this discussion and learn more about what you think and how you feel. I will be working through a script and asking a lot of questions.
- This focus group is a guided conversation about the top five issues people identified as their main concern in our latest community prioritization survey. We had 2,102 responses from the regional area and of those responses- NUMBER were from the ZIP zip code and the following topics were identified as the top five issues in this zip code that we want to talk more deeply about today:
- The First topic is: Jobs, wages, economic development
- Second topic is: Substance Abuse (opioids, prescription drugs, tobacco and alcohol
- Third topic is: Health Insurance
- Fourth topic is: Mental Health
- Fifth topic is: Education
- In 2016 we published our first Garrett County Health Assessment. I like to think about like a slice in time. It's a picture of a dynamic process that helps us collect data to better define our community's needs. The intention is to use this data to better serve our residents. We use data about our area from federal, state and now local sources. SHOW Survey - This survey helps to narrow down the priorities and now we get to talk about why we think these are issues people are concerned about. It's also a time to explore solutions that can become strategies in the health improvement plan to address our issues.
○ We publish the assessment that gives us all the data we can find and then we publish the improvement plan. It's a measurable report that is accessible to everyone On-line and can be adjusted and updated as we together to make improvements.
- I invite to visit mygarrettcounty.com to become involved with the topics that you are most passionate about. We'll have an opportunity after the group concludes to show you how it works.
- There are a few guidelines for our discussion today:
- We want to be respectful of one another, so we need to allow people to have an opportunity to finish their thoughts and not be interrupted and allow everyone an opportunity to be heard. You may not agree with the opinions or perceptions of others in this group and that is okay- we want it to be a welcoming place for people to share their own experiences without judgement for the purpose of having many different perspectives deepen the discussion.

Garrett County, a healthier place to live, work, and play!

## garretthealth.org

- I will be recording our time for the ease of analysis, but I will use pseudo names in the reporting. I will use quotes as it relates to certain topics because themes emerge as we progress through our focus group cycle. We have nine scheduled in several areas of the county.
- I need your consent to record our discussion and use the data. I will turn the recorder on and we will begin by going around the table and saying yes.
- So our purpose today on DATE : To explore job, wages \& economic development, substance abuse, health insurance and education with community members in the ZIP zip code in the context of building, improving and sustaining a healthy community.
- We'll start by talking about what you like the most about living in your community.
- What are some things that could improve how you feel about living here?
- Let's describe what a healthy community looks and feels like?
- On a scale of 1-5-one being very unhealthy and 5 being very healthy how does your community rate?
- Why?
- Why not?
- Thinking about what you just told me I would like to reflect on the role Jobs, Wages and Economic development play in the health of a community.
- Let's talk about these as it relates to ZIP:
- What services, programs, or strategies could we have to do a better job of addressing jobs, wages and economic development?

## Population Under Age 18

An estimated $19.34 \%$ of the population in the report area is under the age of 18 according to the U.S. Census Bureau American Community Survey 2013-17 5-year estimates. An estimated total of 5,709 youths resided in the area during this time period. The number of persons under age 18 is relevant because this population has unique health needs which should be considered separately from other age groups.

## Population Age 18-64

This indicator reports the percentage of population age 18-64 in the designated geographic area. This indicator is relevant because it is important to understand the percentage of adults in the community, as this population has unique health needs which should be considered separately from other age groups.

| Report Area | Total Population | Population Age 18-64 | Percent Population Age 18-64 |
| :--- | ---: | ---: | ---: | ---: |
| Garrett County, MD | 29,516 | 17,681 | $59.9 \%$ |
| Maryland | $5,996,079$ | $3,799,281$ | $63.36 \%$ |
| United States | $321,004,407$ | $199,670,739$ | $62.2 \%$ |

## Population in Limited English Households

This indicator reports the percentage of the population aged 5 and older living in Limited English speaking households. A "Limited English speaking household" is one in which no member 14 years old and over (1) speaks only English at home or (2) speaks a language other than English at home and speaks English "Very well." This indicator is significant as it identifies households and populations that may need English-language assistance.

## Renter-Occupied Housing

Tenure provides a measurement of home ownership, which has served as an indicator of the nation's economy for decades. This data covers all occupied housing units, which are classified as either owner occupied or renter occupied. These data are used to aid in the distribution of funds for programs such as those involving mortgage insurance, rental housing, and national defense housing. Data on tenure allows planners to evaluate the overall viability of housing markets and to assess the stability of neighborhoods. The data also serve in understanding the characteristics of owner occupied and renter occupied units to aid builders, mortgage lenders, planning officials, government agencies, etc., in the planning of housing programs and services. ${ }^{3}$

## Renter-Occupied Housing

All occupied housing units that are not owner occupied, whether they are rented or occupied without payment of rent, are classified as renter occupied.

## Household Composition

This indicator reports the total number and percentage of households by composition (married couple family, nonfamily, etc.). According to the American Community Survey subject definitions, a family household is any housing unit in which the householder is living with one or more individuals related to him or her by birth, marriage, or adoption*. A non-family households is any household occupied by the householder alone, or by the householder and one or more unrelated individuals.
*Family households and married-couple families do not include same-sex married couples even if the marriage was performed in a state issuing marriage certificates for same-sex couples. Same sex couple households are included in the family households category if there is at least one additional person related to the householder by birth or adoption.

## Social \& Economic Factors

Economic and social insecurity often are associated with poor health. Poverty, unemployment, and lack of educational achievement affect access to care and a community's ability to engage in healthy behaviors. Without a network of support and a safe community, families cannot thrive. Ensuring access to social and economic resources provides a foundation for a healthy community.

## Children Eligible for Free/Reduced Price Lunch

Within the report area 1,906 public school students or $49.73 \%$ are eligible for Free/Reduced Price lunch out of 3,833 total students enrolled. This indicator is relevant because it assesses vulnerable populations which are more likely to have multiple health access, health status, and social support needs. Additionally, when combined with poverty data, providers can use this measure to identify gaps in eligibility and enrollment.

| Report Area | Total <br> Students | Number Free/Reduced Price Lunch Eligible | Percent Free/Reduced Price Lunch Eligible | Percent Students Eligible for Free or Reduced Price Lunch |
| :---: | :---: | :---: | :---: | :---: |

## Education - Student Reading Proficiency (4th Grade)

This indicator reports the percentage of children in grade 4 whose reading skills tested below the "proficient" level for the English Language Arts portion of the state-specific standardized test. This indicator is relevant because an inability to read English well is linked to poverty, unemployment, and barriers to healthcare access, provider communications, and health literacy/education.

| Report Area | Total Students with <br> Valid Test Scores | Percentage of Students Scoring <br> 'Proficient' or Better | Percentage of Students Scoring 'Not <br> Proficient' or Worse |

## Income - Inequality (GINI Index)

This indicator reports income inequality using the Gini coefficient. Gini index values range between zero and one. A value of one indicates perfect inequality where only one house-hold has any income. A value of zero indicates perfect equality, where all households have equal income.
Index values are acquired from the 2013-17 American Community Survey and are not available for custom report areas or multi-county areas.

| Report Area | Total Households | Gini Index Value |  |

## Income - Median Household Income

This indicator reports median household income based on the latest 5-year American Community Survey estimates. This includes the income of the householder and all other individuals 15 years old and over in the household, whether they are related to the householder or not. Because many households consist of only one person, average household income is usually less than average family income.

| Report Area | Total Households | Average Household Income | Median Household Income |
| :--- | ---: | ---: | ---: |
| Garrett County, MD | 11,865 | $\$ 63,130.00$ | $\$ \mathbf{\$ 4 8 , 1 7 4 . 0 0}$ |

## Insurance - Uninsured Population

The lack of health insurance is considered a key driver of health status.
In the report area $7.52 \%$ of the total civilian non-institutionalized population are without health insurance coverage. The rate of uninsured persons in the report area is greater than the state average of $7.34 \%$. This indicator is relevant because lack of insurance is a primary barrier to healthcare access including regular primary care, specialty care, and other health services that contributes to poor health status.

| Report Area | Total Population <br> (For Whom Insurance Status is <br> Determined) | Total Uninsured <br> Population | Percent Uninsured <br> Population |

## Population Receiving SNAP Benefits (SAIPE)

This indicator reports the average percentage of the population receiving the Supplemental Nutrition Assistance Program (SNAP) benefits between the months of July 2014 and July 2015. This indicator is relevant because it assesses vulnerable populations which are more likely to have multiple health access, health status, and social support needs; when combined with poverty data, providers can use this measure to identify gaps in eligibility and enrollment.

| Report Area <br> Ropulation | Population Receiving SNAP <br> Benefits | Percent Population Receiving SNAP <br> Benefits |  |
| :--- | ---: | ---: | ---: |
| Garrett County, <br> MD | 29,460 | 4,335 |  |

## Poverty - Children Below 100\% FPL

In the report area $16.96 \%$ or 929 children aged $0-17$ are living in households with income below the Federal Poverty Level (FPL). This indicator is relevant because poverty creates barriers to access including health services, healthy food, and other necessities that contribute to poor health status.

## Poverty - Population Below 100\% FPL

Poverty is considered a key driver of health status.

Within the report area $11.44 \%$ or 3,299 individuals are living in households with income below the Federal Poverty Level (FPL). This indicator is relevant because poverty creates barriers to access including health services, healthy food, and other necessities that contribute to poor health status.

| Report Area | Total Population | Population in Poverty | Percent Population in Poverty |

## Teen Births

This indicator reports the rate of total births to women age of 15-19 per 1,000 female population age 15-19. This indicator is relevant because in many cases, teen parents have unique social, economic, and health support services. Additionally, high rates of teen pregnancy may indicate the prevalence of unsafe sex practices.

| Report Area | Female Population <br> Age 15-19 | Births to Mothers Age 15-19 | Teen Birth Rate (Per 1,000 Population) | Teen Birth Rate (Per 1,000 Population) |

## Unemployment Rate

Total unemployment in the report area for the current month equals 760 , or $4.8 \%$ of the civilian non-institutionalized population age 16 and older (non-seasonally adjusted). This indicator is relevant because unemployment creates financial instability and barriers to access including insurance coverage, health services, healthy food, and other necessities that contribute to poor health status.

Youth Not Enrolled in School and Not Employed, Percent by Tract, ACS 2013-17

## Physical Environment

A community's health also is affected by the physical environment. A safe, clean environment that provides access to healthy food and recreational opportunities is important to maintaining and improving community health.

## Air Quality - Particulate Matter 2.5

This indicator reports the percentage of days with particulate matter 2.5 levels above the National Ambient Air Quality Standard ( 35 micrograms per cubic meter) per year, calculated using data collected by monitoring stations and modeled to include counties where no monitoring stations occur. This indicator is relevant because poor air quality contributes to respiratory issues and overall poor health.

| Report <br> Area | Total <br> Population | Average Daily <br> Ambient <br> Particulate <br> Matter 2.5 | Number of Days <br> Exceeding <br> Emissions <br> Standards | Percentage of Days Exceeding Standards, Crude Average | Percentage of Days <br> Exceeding Standards, Pop. <br> Adjusted Average | Percentage of Days Exceeding Standards, Pop. ## Air Quality - Respiratory Hazard Index

This indicator reports the non-cancer respiratory hazard index score. This score represents the potential for noncancer adverse health effects, where scores less than 1.0 indicate adverse health effects are unlikely, and scores of 1.0 or more indicate a potential for adverse health effects.

| Report Area | Total Population | Respiratory Hazard Index Score |
| :--- | ---: | ---: | ---: | ---: |
| Garrett County, MD | 30,097 | 0.53 |
| Maryland | $5,773,465$ | 2.01 |

## Built Environment - Broadband Access

This indicator reports the percentage of population with access to high-speed internet. Data are based on the reported service area of providers offering download speeds of 25 MBPS or more and upload speeds of 3 MBPS or more. This data represent both wireline and fixed/terrestrial wireless internet providers. Cellular internet providers are not included. This indicator is important because access to technology opens up opportunities for employment and education.

| Report Area | Total Population (2010) | Access to DL Speeds > 25MBPS (2017) |
| :--- | ---: | ---: |
| Garrett County, MD | 30,097 | $\mathbf{1 0 0 \%}$ |

## Built Environment - Recreation and Fitness Facility Access

This indicator reports the number per 100,000 population of recreation and fitness facilities as defined by North American Industry Classification System (NAICS) Code 713940. This indicator is relevant because access to recreation and fitness facilities encourages physical activity and other healthy behaviors.

| Report Area | Total Population | Number of Establishments | Establishments, Rate per 100,000 Population |

## Climate \& Health - High Heat Index Days

This indicator reports the percentage of recorded weather observations with heat index values over 103 degrees Fahrenheit. The "heat index" is a single value that takes both temperature and humidity into account. The higher the heat index, the hotter the weather feels, since sweat does not readily evaporate and cool the skin. The heat index is a better measure than air temperature alone for estimating the risk to workers from environmental heat sources.

| Report <br> Area | Total Weather <br> Observations | Average Heat <br> Index Value | Observations with High <br> Heat Index Values | Observations with High Heat Index <br> Values, Percentage |

## Food Environment - Fast Food Restaurants

This indicator reports the number of fast food restaurants per 100,000 population. Fast food restaurants are defined as limited-service establishments primarily engaged in providing food services (except snack and nonalcoholic beverage bars) where patrons generally order or select items and pay before eating. This indicator is relevant because it provides a measure of healthy food access and environmental influences on dietary behaviors.

| Report Area | Total Population | Number of Establishments | Establishments, Rate per 100,000 Population |

## Food Environment - Grocery Stores

This indicator reports the number of grocery stores per 100,000 population. Grocery stores are defined as supermarkets and smaller grocery stores primarily engaged in retailing a general line of food, such as canned and frozen foods; fresh fruits and vegetables; and fresh and prepared meats, fish, and poultry. Included are delicatessen-type establishments. Convenience stores and large general merchandise stores that also retail food, such as supercenters and warehouse club stores are excluded. This indicator is relevant because it provides a measure of healthy food access and environmental influences on dietary behaviors.

## Food Environment - Low Food Access

This indicator reports the percentage of the population with low food access. Low food access is defined as living more than $1 / 2$ mile from the nearest supermarket, supercenter, or large grocery store. Data are from the 2017 report, Low-Income and Low-Supermarket-Access Census Tracts, 2010-2015. This indicator is relevant because it highlights populations and geographies facing food insecurity.

| Report Area | Total Population | Population with Low Food Access | Percent Population with Low Food Access |

## Housing - Housing Cost Burden (30\%)

This indicator reports the percentage of the households where housing costs exceed $30 \%$ of total household income. This indicator provides information on the cost of monthly housing expenses for owners and renters. The information offers a measure of housing affordability and excessive shelter costs. The data also serve to aid in the development of housing programs to meet the needs of people at different economic levels.

| Report Area | Total <br> Households | Cost Burdened Households (Housing Costs Exceed <br> 30\% of Income) | Percentage of Households where <br> Housing Costs Exceed $30 \%$ of <br> Income |

## Cost Burdened Households by Tenure, Total

This data shows the number of households that spend more than $30 \%$ of the household income on housing costs. In the report area, there were 3,018 cost burdened households according to the U.S. Census Bureau American Community Survey (ACS) 2013-2017 5-year estimates. The data for this indicator is only reported for households where household housing costs
and income earned was identified in the American Community Survey.

## Housing - Substandard Housing

This indicator reports the number and percentage of owner- and renter-occupied housing units having at least one of the following conditions: 1) lacking complete plumbing facilities, 2) lacking complete kitchen facilities, 3) with 1.01 or more occupants per room, 4) selected monthly owner costs as a percentage of household income greater than $30 \%$, and 5) gross rent as a percentage of household income greater than $30 \%$. Selected conditions provide information in assessing the quality of the housing inventory and its occupants. This data is used to easily identify homes where the quality of living and housing can be considered substandard.

| Report <br> Area | Total Occupied <br> Housing Units | Occupied Housing Units with One or <br> More Substandard Conditions | Percent Occupied Housing Units with One <br> or More Substandard Conditions |
| :--- | ---: | ---: | ---: |
| Garrett <br> County, <br> MD | 11,865 | 3,008 | $25.35 \%$ |

## Substandard Housing: Households Lacking Complete Plumbing Facilities

Complete plumbing facilities include: (a) hot and cold running water, (b) a flush toilet, and (c) a bathtub or shower. All three facilities must be located inside the house, apartment, or mobile home, but not necessarily in the same room. Housing units are classified as lacking complete plumbing facilities when any of the three facilities is not present.

| Report Area | Total Occupied Housing <br> Units | Housing Units Lacking Complete Plumbing <br> Facilities | Housing Units Lacking Complete Plumbing Facilities, <br> Percent |
| :--- | ---: | ---: | ---: |
| Garrett County, <br> MD | 11,865 | 66 |  |
| Maryland | $2,181,093$ |  | $0,56 \%$ |
| United States | $118,825,921$ | 470,774 | $0.31 \%$ |

## Substandard Housing: Households Lacking Complete Kitchen Facilities

A unit has complete kitchen facilities when it has all three of the following facilities: (a) a sink with a faucet, (b) a stove or range, and (c) a refrigerator. All kitchen facilities must be located in the house, apartment, or mobile home, but they need not be in the same room. A housing unit having only a microwave or portable heating equipment such as a hot plate or camping stove should not be considered as having complete kitchen facilities. An icebox is not considered to be a refrigerator.

| Rotal Occupied Housing <br> Units | Housing Units Lacking Complete Kitchen <br> Facilities | Housing Units Lacking Complete Kitchen Facilities, <br> Percent |  |
| :--- | ---: | ---: | ---: | ---: |

Maryland
United States

## Substandard Housing: Households Lacking Telephone Service

A telephone must be in working order and service available in the house, apartment, or mobile home that allows the respondent to both make and receive calls. Households that have cell-phones (no land-line) are counted as having telephone service available. Households whose service has been discontinued for nonpayment or other reasons are not counted as having telephone service available.

## Housing - Vacancy Rate

This indicator reports the number and percentage of housing units that are vacant. A housing unit is considered vacant by the American Community Survey if no one is living in it at the time of interview. Units occupied at the time of interview entirely by persons who are staying two months or less and who have a more permanent residence elsewhere are considered to be temporarily occupied, and are classified as "vacant."

| Report Area | Total Housing Units | Vacant Housing Units | Vacant Housing Units, Percent |
| :--- | ---: | ---: | ---: |
| Garrett County, MD | 19,211 | 7,346 | $\mathbf{3 8 . 2 4 \%}$ |

## Clinical Care

A lack of access to care presents barriers to good health. The supply and accessibility of facilities and physicians, the rate of uninsurance, financial hardship, transportation barriers, cultural competency, and coverage limitations affect access.

Rates of morbidity, mortality, and emergency hospitalizations can be reduced if community residents access services such as health screenings, routine tests, and vaccinations. Prevention indicators can call attention to a lack of access or knowledge regarding one or more health issues and can inform program interventions.

## 30-Day Hospital Readmissions

This indicator reports the percentage of Medicare fee-for-service beneficiaries readmitted to a hospital within 30 days of an initial hospitalization discharge.

| Report Area | Medicare Part A and B Beneficiaries | Rate of 30-Day Hospital Readmissions among Medicare Beneficiaries | Rate of 30-Day Hospital Readmissions among Medicare Beneficiaries |

Note: This indicator is compared to the state average.
Data Source: Dartmouth College Institute for Health Policy \& Clinical Practice, Dartmouth Atlas of Health Care.

## Access to Dentists

This indicator reports the number of dentists per 100,000 population. This indicator includes all dentists - qualified as having a doctorate in dental surgery (D.D.S.) or dental medicine (D.M.D.), who are licensed by the state to practice dentistry and who are practicing within the scope of that license.

| Report Area | Total Population, 2015 | Dentists, $\mathbf{2 0 1 5}$ | Dentists, Rate per 100,000 Pop. |

## Access to Primary Care

This indicator reports the number of primary care physicians per 100,000 population. Doctors classified as "primary care physicians" by the AMA include: General Family Medicine MDs and DOs, General Practice MDs and DOs, General Internal Medicine MDs and General Pediatrics MDs. Physicians age 75 and over and physicians practicing sub-specialties within the listed specialties are excluded. This indicator is relevant because a shortage of health professionals contributes to access and health status issues.

| Report Area | Total Population, $2014$ | Primary Care Physicians, $2014$ | Primary Care Physicians, Rate per 100,000 Pop. | Primary Care Physicians, Rate per 100,000 Pop. |

Access to Primary Care, Rate (Per 100,000 Pop.) by Year, 2004 through 2014

## Diabetes Management - Hemoglobin A1c Test

This indicator reports the percentage of diabetic Medicare patients who have had a hemoglobin A1c (hA1c) test, a blood test which measures blood sugar levels, administered by a health care professional in the past year. In the report area, 534 Medicare enrollees with diabetes have had an annual exam out of 628 Medicare enrollees in the report area with diabetes, or $85 \%$. This indicator is relevant because engaging in preventive behaviors allows for early detection and treatment of health problems. This indicator can also highlight a lack of access to preventive care, a lack of health knowledge, insufficient provider outreach, and/or social barriers preventing utilization of services.

| Report <br> Area | Total <br> Medicare <br> Enrollees | Medicare Enrollees with Diabetes | Medicare Enrollees with Diabetes with Annual Exam | Percent Medicare Enrollees with Diabetes with Annual Exam | Percent Medicare Enrollees with Diabetes with Annual Exam |
| :---: | :---: | :---: | :---: | :---: | :---: |

## Federally Qualified Health Centers

This indicator reports the number of Federally Qualified Health Centers (FQHCs) in the community. This indicator is relevant because FQHCs are community assets that provide health care to vulnerable populations; they receive extra funding from the federal government to promote access to ambulatory care in areas designated as medically underserved.

| Report Area | Total <br> Population | Number of Federally Qualified Health <br> Centers | Rate of Federally Qualified Health Centers per 100,000 <br> Population |  |
| :--- | ---: | ---: | ---: | ---: |
| Garrett County, <br> MD | 30,097 |  |  |  |

Garrett County, MD

## Health Professional Shortage Areas

This indicator reports the number and location of health care facilities designated as "Health Professional Shortage Areas" (HPSAs), defined as having shortages of primary medical care, dental or mental health providers. This indicator is relevant because a shortage of health professionals contributes to access and health status issues.

| Report Area | Primary Care Facilities | Mental Health Care Facilities | Dental Health Care Facilities | Total HPSA Facility Designations |

Data Source: US Department of Health \& Human Services, Health Resources and Services Administration, Health Resources and Services Administration. February 2019. Source geography: Address

## Lack of Prenatal Care

This indicator reports the percentage of women who do not obtain prenatal care during their first trimester of pregnancy. This indicator is relevant because engaging in prenatal care decreases the likelihood of maternal and infant health risks. This indicator can also highlight a lack of access to preventive care, a lack of health knowledge, insufficient provider outreach, and/or social barriers preventing utilization of services.

| Report <br> Area | Total Births | Mothers Starting Prenatal Care in First Semester | Mothers with Late or No Prenatal Care | Prenatal Care <br> Not Reported | Percentage Mothers with Late or No Prenatal Care | Percentage Mothers with Late or No Prenatal Care |

Mothers with Late or No Pre-Natal Care, Percent by County, NVSS 2007-10

## Preventable Hospital Events

This indicator reports the discharge rate (per 1,000 Medicare enrollees) for conditions that are ambulatory care sensitive (ACS). ACS conditions include pneumonia, dehydration, asthma, diabetes, and other conditions which could have been
prevented if adequate primary care resources were available and accessed by those patients. This indicator is relevant because analysis of ACS discharges allows demonstrating a possible "return on investment" from interventions that reduce admissions (for example, for uninsured or Medicaid patients) through better access to primary care resources.

| Report Area | Total Medicare Part A Enrollees | Ambulatory Care Sensitive Condition Hospital Discharges | Ambulatory Care Sensitive Condition Discharge Rate | Preventable Hospital Events, Age- <br> Adjusted Discharge Rate (Per 1,000 Medicare Enrollees) |
| :---: | :---: | :---: | :---: | :---: |

## Prevention - Mammogram

This indicator reports the percentage of female Medicare enrollees, age 67-69, who have received one or more mammograms in the past two years. This indicator is relevant because engaging in preventive behaviors allows for early detection and treatment of health problems. This indicator can also highlight a lack of access to preventive care, a lack of health knowledge,
insufficient provider outreach, and/or social barriers preventing utilization of services.

| Report <br> Area | Total <br> Medicare <br> Enrollees | Female Medicare <br> Enrollees Age 67- $69$ | Female Medicare Enrollees with Mammogram in Past 2 Years | Percent Female Medicare Enrollees with Mammogram in Past 2 Year | Enrollees with Mammogram in Past 2 Year |

## Prevention - Recent Primary Care Visit

This indicator reports the number and percentage of adults age 18 and older with one or more visits to a doctor for routine checkup within the past one year. Data for this indicator is only available for the population within the top 500 most populous cities across the United States. County, State, and National values represent the population within those cities, and not the
total US population.

| Report Area | Total Population (2010) | Total Population in the $\mathbf{5 0 0}$ Cities (2010) | Percentage of Adults with Routine Checkup in Past 1 Year | Percentage of Adults with Routine Checkup in Past 1 Year |

Data Source: Centers for Disease Control and Prevention, Behavioral Risk Factor Surveillance System. Accessed via the 500 Cities Data Portal. 2015.

## Health Behaviors

Health behaviors such as poor diet, a lack of exercise, and substance abuse contribute to poor health status.

## Alcohol Consumption

This indicator reports the percentage of adults aged 18 and older who self-report heavy alcohol consumption (defined as more than two drinks per day on average for men and one drink per day on average for women). This indicator is relevant because current behaviors are determinants of future health and this indicator may illustrate a cause of significant health issues, such as cirrhosis, cancers, and untreated mental and behavioral health needs.

| Report Area | Total Population <br> Age 18+ | Estimated Adults Drinking <br> Excessively | Estimated Adults Drinking <br> Excessively <br> (Crude Percentage) | Estimated Adults Drinking <br> Excessively <br> (Age-Adjusted |

## Physical Inactivity

Within the report area, 6,515 or $26.2 \%$ of adults aged 20 and older self-report no leisure time for activity, based on the question: "During the past month, other than your regular job, did you participate in any physical activities or exercises such as running, calisthenics, golf, gardening, or walking for exercise?". This indicator is relevant because current behaviors are determinants of future health and this indicator may illustrate a cause of significant health issues, such as obesity and poor cardiovascular health.

| Report Area | Total Population <br> Age 20+ | Population with no Leisure Time <br> Physical Activity | Percent Population with no Leisure Time <br> Physical Activity |
| :--- | ---: | ---: | ---: |

## Tobacco Expenditures

This indicator reports estimated expenditures for cigarettes, as a percentage of total household expenditures. This indicator is relevant because tobacco use is linked to leading causes of death such as cancer and cardiovascular disease. Expenditures data are suppressed for single counties and single-geography custom areas. Rank data are not available custom report areas or multi-county areas. Expenditures data are suppressed for single counties and single-geography custom areas. Rank data are not available custom report areas or multi-county areas.

| Report Area | State Rank | Z-Score <br> (US) | Z-Score <br> (State) | Average Expenditures <br> (USD) | Percentage of Food-At-Home Expenditures | Cigarette Expenditures, Percentage of Total Household Expenditures |

## Health Outcomes

Measuring morbidity and mortality rates allows assessing linkages between social determinants of health and outcomes. By comparing, for example, the prevalence of certain chronic diseases to indicators in other categories (e.g., poor diet and exercise) with outcomes (e.g., high rates of obesity and diabetes), various causal relationship may emerge, allowing a better understanding of how certain community health needs may be addressed.

## Asthma Prevalence

This indicator reports the percentage of adults aged 18 and older who self-report that they have ever been told by a doctor, nurse, or other health professional that they had asthma. This indicator is relevant because asthma is a prevalent problem in the U.S. that is often exacerbated by poor environmental conditions.

| Report Area | Survey Population <br> (Adults Age 18+) | Total Adults with Asthma | Percent Adults with Asthma | $1$ |
| :---: | :---: | :---: | :---: | :---: |

## Cancer Incidence - Prostate

This indicator reports the age adjusted incidence rate (cases per 100,000 population per year) of males with prostate cancer adjusted to 2000 U.S. standard population age groups (Under age 1, 1-4, 5-9, ..., 80-84, 85 and older). This indicator is relevant because cancer is a leading cause of death and it is important to identify cancers separately to better target interventions.

| Report Area | Estimated Total Population (Male) | New Cases (Annual Average) | Cancer Incidence Rate (Per 100,000 Pop.) | Prostate Cancer Incidence Rate (Per 100,000 Pop.) |
| :---: | :---: | :---: | :---: | :---: |

## Mortality - Cancer

This indicator reports the rate of death due to malignant neoplasm (cancer) per 100,000 population. Figures are reported as crude rates, and as rates age-adjusted to year 2000 standard. Rates are resummarized for report areas from county level data, only where data is available. This indicator is relevant because cancer is a leading cause of death in the United States.

| Report Area | Total Population | Average Annual Deaths, <br> 2012-2016 | Crude Death Rate <br> (Per 100,000 Pop.) | Age-Adjusted Death Rate <br> (Per 100,000 Pop.) |

## Mortality - Coronary Heart Disease

Within the report area the rate of death due to coronary heart disease (ICD10 Codes I20-I25) per 100,000 population is 149.2 . This rate is greater than than the Healthy People 2020 target of less than or equal to 103.4. Figures are reported as crude rates, and as rates age-adjusted to year 2000 standard. Rates are resummarized for report areas from county level data, only where data is available. This indicator is relevant because heart disease is a leading cause of death in the United States.

| Report Area | Total Population | Average Annual Deaths, <br> 2012-2016 | Crude Death Rate <br> (Per 100,000 Pop.) | Age-Adjusted Death Rate <br> (Per 100,000 Pop.) |

Drug Overdose Mortality, Age-Adjusted Rate (Per 100,000 Pop.)
by Year, 2004 through 2017
The table and chart below display the age-adjusted rate of drug overdose deaths for single years between 2004 and 2017. County-level figures are modelled estimates, while state and national rates are based on actual recorded deaths, age-adjusted to the U.S. population standard.

| Report Area | 2004 | 2005 | 2006 | 2007 | 2008 | 2009 | 2010 | 2011 | 2012 | 2013 | 2014 | 2015 | 2017 |

## Mortality - Premature Death

This indicator reports Years of Potential Life Lost (YPLL) before age 75 per 100,000 population for all causes of death, ageadjusted to the 2000 standard. YPLL measures premature death and is calculated by subtracting the age of death from the 75 year benchmark. This indicator is relevant because a measure of premature death can provide a unique and comprehensive look at overall health status.

| Report Area | Total Population | Total Premature <br> Death, 2015-2017 | Total Years of Potential Life <br> Lost, <br> 2015-2017 Average | Years of Potential Life Lost, <br> Rate per 100,000 Population | Rate per 100,000 Population |

## Premature Death Rate per 100,000 Population by Race / Ethnicity

This indicator reports Years of Potential Life Lost (YPLL) per 100,000 age-adjusted population by race/ethnicity.

Within the report area there are an estimated 38.4 deaths due to cerebrovascular disease (stroke) per 100,000 population. This is greater than than the Healthy People 2020 target of less than or equal to 33.8. Figures are reported as crude rates, and as rates age-adjusted to year 2000 standard. Rates are resummarized for report areas from county level data, only where data is available. This indicator is relevant because stroke is a leading cause of death in the United States.

| Report Area | Total Population | Average Annual Deaths, <br> 2012-2016 | Crude Death Rate <br> (Per 100,000 Pop.) | Age-Adjusted Death Rate <br> (Per 100,000 Pop.) |

## Mortality - Suicide

This indicator reports the rate of death due to intentional self-harm (suicide) per 100,000 population. Figures are reported as crude rates, and as rates age-adjusted to year 2000 standard. Rates are resummarized for report areas from county level data, only where data is available. This indicator is relevant because suicide is an indicator of poor mental health.

| Report Area | Total Population | Average Annual Deaths, 2012-2016 | Crude Death Rate <br> (Per 100,000 Pop.) | Age-Adjusted Death Rate <br> (Per 100,000 Pop.) | Suicide, Age-Adjusted Death Rate (Per 100,000 Pop.) |

## Obesity (Youth)

This indicator reports the percentage of youth aged 10-17 who are obese, based on Body Mass Index (BMI). Children are classified as obese if their calculated BMI is in the 95th percentile or above for their age. This indicator is relevant because excess weight is a prevalent problem in the U.S.; it indicates an unhealthy lifestyle and puts individuals at risk for further health issues.

| Report Area | Total Population <br> (Age 10-17) | Number Obese | Percent Obese | Percentage of Children Age 10-17 Obese |

## Poor Dental Health

This indicator reports the percentage of adults age 18 and older who self-report that six or more of their permanent teeth have been removed due to tooth decay, gum disease, or infection. This indicator is relevant because it indicates lack of access to dental care and/or social barriers to utilization of dental services.

## Change in Total Population

According to the United States Census Bureau Decennial Census, between 2000 and 2010 the population in the report area grew by 46,339 persons, a change of $10.49 \%$. A significant positive or negative shift in total population over time impacts healthcare providers and the utilization of community resources.

## Population Under Age 18

An estimated $19.82 \%$ of the population in the report area is under the age of 18 according to the U.S. Census Bureau American Community Survey 2013-17 5-year estimates. An estimated total of 97,759 youths resided in the area during this time period. The number of persons under age 18 is relevant because this population has unique health needs which should be considered
separately from other age groups.

| Report Area | Total Population | Population Age 0-17 | Percent Population Age 0-17 |

## Population Age 18-64

This indicator reports the percentage of population age 18-64 in the designated geographic area. This indicator is relevant because it is important to understand the percentage of adults in the community, as this population has unique health needs which should be considered separately from other age groups.

| Report Area | Total Population | Population Age 18-64 | Percent Population Age 18-64 |
| :---: | :---: | :---: | :---: |
| Custom Area Estimate | 493,340 | 311,128 | 63.07\% |

## Population Age 65+

An estimated $17.12 \%$ of the population in the report area is age 65 or older according to the U.S. Census Bureau American Community Survey 2013-17 5-year estimates. An estimated total of 84,477 older adults resided in the area during this time period. The number of persons age 65 or older is relevant because this population has unique health needs which should be
considered separately from other age groups.

## Population with Any Disability

This indicator reports the percentage of the total civilian non-institutionalized population with a disability. This indicator is relevant because disabled individuals comprise a vulnerable population that requires targeted services and outreach by providers.

| Report Area | Total Population <br> (For Whom Disability Status Is Determined) | Total Population with a Disability | Percent Population with a Disability |

## Population in Limited English Households

This indicator reports the percentage of the population aged 5 and older living in Limited English speaking households. A "Limited English speaking household" is one in which no member 14 years old and over (1) speaks only English at home or (2) speaks a language other than English at home and speaks English "Very well." This indicator is significant as it identifies households and populations that may need English-language assistance.

## Renter-Occupied Housing

Tenure provides a measurement of home ownership, which has served as an indicator of the nation's economy for decades. This data covers all occupied housing units, which are classified as either owner occupied or renter occupied. These data are
used to aid in the distribution of funds for programs such as those involving mortgage insurance, rental housing, and national defense housing. Data on tenure allows planners to evaluate the overall viability of housing markets and to assess the stability of neighborhoods. The data also serve in understanding the characteristics of owner occupied and renter occupied units to aid builders, mortgage lenders, planning officials, government agencies, etc., in the planning of housing programs and services. ${ }^{3}$

## Renter-Occupied Housing

All occupied housing units that are not owner occupied, whether they are rented or occupied without payment of rent, are classified as renter occupied.

## Household Composition

This indicator reports the total number and percentage of households by composition (married couple family, nonfamily, etc.). According to the American Community Survey subject definitions, a family household is any housing unit in which the householder is living with one or more individuals related to him or her by birth, marriage, or adoption*. A non-family households is any household occupied by the householder alone, or by the householder and one or more unrelated individuals.
*Family households and married-couple families do not include same-sex married couples even if the marriage was performed in a state issuing marriage certificates for same-sex couples. Same sex couple households are included in the family households category if there is at least one additional person related to the householder by birth or adoption.

## Urban and Rural Population

This indicator reports the percentage of population living in urban and rural areas. Urban areas are identified using population density, count, and size thresholds. Urban areas also include territory with a high degree of impervious surface (development). Rural areas are all areas that are not urban.

| Report Area | Total Population | Urban Population | Rural Population | Percent Urban | Percent Rural |
| :---: | :---: | :---: | :---: | :---: | :---: |

## Social \& Economic Factors

Economic and social insecurity often are associated with poor health. Poverty, unemployment, and lack of educational achievement affect access to care and a community's ability to engage in healthy behaviors. Without a network of support and a safe community, families cannot thrive. Ensuring access to social and economic resources provides a foundation for a healthy community.

## Children Eligible for Free/Reduced Price Lunch

Within the report area 33,146 public school students or $47.17 \%$ are eligible for Free/Reduced Price lunch out of 70,276 total students enrolled. This indicator is relevant because it assesses vulnerable populations which are more likely to have multiple health access, health status, and social support needs. Additionally, when combined with poverty data, providers can use this measure to identify gaps in eligibility and enrollment.

## Education - High School Graduation Rate

Within the report area $89.29 \%$ of students are receiving their high school diploma within four years. Data represents the 2016-

## 17 school year.

This indicator is relevant because research suggests education is one the strongest predictors of health (Freudenberg \& Ruglis, 2007).

| Report Area | Total Student Cohort | Estimated Number of Diplomas Issued | Cohort Graduation Rate |

This indicator reports the percentage of children in grade 4 whose reading skills tested below the "proficient" level for the English Language Arts portion of the state-specific standardized test. This indicator is relevant because an inability to read English well is linked to poverty, unemployment, and barriers to healthcare access, provider communications, and health literacy/education.

## Income - Inequality (GINI Index)

This indicator reports income inequality using the Gini coefficient. Gini index values range between zero and one. A value of one indicates perfect inequality where only one house-hold has any income. A value of zero indicates perfect equality, where all households have equal income.
Index values are acquired from the 2013-17 American Community Survey and are not available for custom report areas or multi-county areas.

| Report Area | Total Households | Gini Index Value |  |

Income Inequality (GINI), Index Value by Tract, ACS 2013-17

## Income - Median Household Income

This indicator reports median household income based on the latest 5 -year American Community Survey estimates. This includes the income of the householder and all other individuals 15 years old and over in the household, whether they are related to the householder or not. Because many households consist of only one person, average household income is usually less than average family income.

| Report Area | Total Households | Average Household Income | Median Household Income |
| :---: | :---: | :---: | :---: |
| Allegany County, MD | 27,759 | \$56,646.00 | \$42,771.00 |

## Insurance - Uninsured Population

The lack of health insurance is considered a key driver of health status.
In the report area $7.84 \%$ of the total civilian non-institutionalized population are without health insurance coverage. The rate of uninsured persons in the report area is greater than the state average of $7.34 \%$. This indicator is relevant because lack of insurance is a primary barrier to healthcare access including regular primary care, specialty care, and other health services that contributes to poor health status.

| Report Area | Total Population <br> (For Whom Insurance Status is Determined) | Total Uninsured <br> Population | Percent Uninsured <br> Population |

## Population Receiving SNAP Benefits (SAIPE)

This indicator reports the average percentage of the population receiving the Supplemental Nutrition Assistance Program (SNAP) benefits between the months of July 2014 and July 2015. This indicator is relevant because it assesses vulnerable populations which are more likely to have multiple health access, health status, and social support needs; when combined with poverty data, providers can use this measure to identify gaps in eligibility and enrollment.

| Report Area | Total <br> Population | Population Receiving SNAP Benefits | Percent Population Receiving SNAP Benefits |
| :---: | :---: | :---: | :---: |
| Custom Area Estimate | 493,448 | 76,059 | 15.41\% |

## Poverty - Children Below 100\% FPL

In the report area $19.81 \%$ or 18,847 children aged $0-17$ are living in households with income below the Federal Poverty Level (FPL). This indicator is relevant because poverty creates barriers to access including health services, healthy food, and other necessities that contribute to poor health status.

## Poverty - Population Below 100\% FPL

Poverty is considered a key driver of health status.

Within the report area $15.81 \%$ or 74,385 individuals are living in households with income below the Federal Poverty Level
(FPL). This indicator is relevant because poverty creates barriers to access including health services, healthy food, and other necessities that contribute to poor health status.

## Teen Births

This indicator reports the rate of total births to women age of $15-19$ per 1,000 female population age 15-19. This indicator is relevant because in many cases, teen parents have unique social, economic, and health support services. Additionally, high rates of teen pregnancy may indicate the prevalence of unsafe sex practices.

## Unemployment Rate

Total unemployment in the report area for the current month equals 10,799 , or $4.5 \%$ of the civilian non-institutionalized population age 16 and older (non-seasonally adjusted). This indicator is relevant because unemployment creates financial instability and barriers to access including insurance coverage, health services, healthy food, and other necessities that contribute to poor health status.

| Report Area | Labor Force | Number Employed | Number Unemployed | Unemployment Rate |
| :---: | :---: | :---: | :---: | :---: |
| Custom Area Estimate | 241,230 | 230,431 | 10,799 | 4.5\% |

## Physical Environment

A community's health also is affected by the physical environment. A safe, clean environment that provides access to healthy food and recreational opportunities is important to maintaining and improving community health.

## Air Quality - Particulate Matter 2.5

This indicator reports the percentage of days with particulate matter 2.5 levels above the National Ambient Air Quality Standard ( 35 micrograms per cubic meter) per year, calculated using data collected by monitoring stations and modeled to include counties where no monitoring stations occur. This indicator is relevant because poor air quality contributes to respiratory issues and overall poor health.

| Report <br> Area | Total Population | Average Daily <br> Ambient <br> Particulate <br> Matter 2.5 | Number of Days <br> Exceeding <br> Emissions <br> Standards | Percentage of Days <br> Exceeding Standards, Crude Average | Percentage of Days <br> Exceeding Standards, <br> Pop. ## Air Quality - Respiratory Hazard Index

This indicator reports the non-cancer respiratory hazard index score. This score represents the potential for noncancer adverse health effects, where scores less than 1.0 indicate adverse health effects are unlikely, and scores of 1.0 or more indicate a potential for adverse health effects.

| Report Area | Total Population | Respiratory Hazard Index Score |
| :---: | :---: | :---: |
| Allegany County, MD | 75,087 | 0.94 |
| Garrett County, MD | 30,097 | 0.53 |

## Built Environment - Broadband Access

This indicator reports the percentage of population with access to high-speed internet. Data are based on the reported service area of providers offering download speeds of 25 MBPS or more and upload speeds of 3 MBPS or more. This data represent both wireline and fixed/terrestrial wireless internet providers. Cellular internet providers are not included. This indicator is important because access to technology opens up opportunities for employment and education.

| Report Area | Total Population (2010) | Access to DL Speeds > 25MBPS (2017) |
| :--- | ---: | ---: |
| Custom Area Estimate | 488,269 | $90.23 \%$ |
| Allegany County, MD | 75,087 | $100 \%$ |

## Climate \& Health - High Heat Index Days

This indicator reports the percentage of recorded weather observations with heat index values over 103 degrees Fahrenheit. The "heat index" is a single value that takes both temperature and humidity into account. The higher the heat index, the hotter the weather feels, since sweat does not readily evaporate and cool the skin. The heat index is a better measure than air temperature alone for estimating the risk to workers from environmental heat sources.

| Report Area | Total Weather Observations | Average Heat Index Value | Observations with High Heat Index Values | Observations with High Heat Index Values, Percentage |
| :---: | :---: | :---: | :---: | :---: |
| Allegany County, MD | 3,285 | 89.5 | 18 | 0.55\% |

## Climate \& Health - Tree Canopy

This indicator reports the percentage of the report area that is covered by tree canopy. Report data is based on analysis of the 2011 National Land Cover Database - Tree Canopy analytical dataset.

## Food Environment - Fast Food Restaurants

This indicator reports the number of fast food restaurants per 100,000 population. Fast food restaurants are defined as limited-service establishments primarily engaged in providing food services (except snack and nonalcoholic beverage bars) where patrons generally order or select items and pay before eating. This indicator is relevant because it provides a measure of healthy food access and environmental influences on dietary behaviors.

| Report Area | Total Population | Number of Establishments | Establishments, Rate per 100,000 Population | Fast Food Restaurants, Rat (Per 100,000 Population) |

## Food Environment - Grocery Stores

This indicator reports the number of grocery stores per 100,000 population. Grocery stores are defined as supermarkets and smaller grocery stores primarily engaged in retailing a general line of food, such as canned and frozen foods; fresh fruits and vegetables; and fresh and prepared meats, fish, and poultry. Included are delicatessen-type establishments. Convenience stores and large general merchandise stores that also retail food, such as supercenters and warehouse club stores are excluded. This indicator is relevant because it provides a measure of healthy food access and environmental influences on dietary behaviors.

Grocery Stores and Supermarkets,
Rate per 100,000 Population by Year, 2010 through 2016

## Food Environment - Low Food Access

This indicator reports the percentage of the population with low food access. Low food access is defined as living more than $1 / 2$ mile from the nearest supermarket, supercenter, or large grocery store. Data are from the 2017 report, Low-Income and Low-Supermarket-Access Census Tracts, 2010-2015. This indicator is relevant because it highlights populations and geographies facing food insecurity.

## Food Environment - Modified Retail Food Environment Index

This indicator reports the percentage of population living in census tracts with no or low access to healthy retail food stores. Figures are based on the CDC Modified Retail Food Environment Index. For this indicator, low food access tracts are considered those with index scores of 10.0 or less.

| Report <br> Area | Total <br> Population | Percent <br> Population in <br> Tracts with No <br> Food Outlet | Percent Population in Tracts with No Healthy Food Outlet | Percent Population in Tracts with Low Healthy Food Access | Percent Population in Tracts with Moderate Healthy Food Access | Percent Population in Tracts with High Healthy Food Access |

## Food Environment - SNAP-Authorized Food Stores

This indicator reports the number of SNAP-authorized food stores as a rate per 10,000 population. SNAP-authorized stores
include grocery stores as well as supercenters, specialty food stores, and convenience stores that are authorized to accept SNAP (Supplemental Nutrition Assistance Program) benefits.

| Report Area | Total Population | Total SNAP-Authorized Retailers | SNAP-Authorized Retailers, Rate per 10,000 Population |

## Housing - Housing Cost Burden (30\%)

This indicator reports the percentage of the households where housing costs exceed $30 \%$ of total household income. This indicator provides information on the cost of monthly housing expenses for owners and renters. The information offers a measure of housing affordability and excessive shelter costs. The data also serve to aid in the development of housing programs to meet the needs of people at different economic levels.

## Housing - Substandard Housing

This indicator reports the number and percentage of owner- and renter-occupied housing units having at least one of the following conditions: 1) lacking complete plumbing facilities, 2) lacking complete kitchen facilities, 3) with 1.01 or more occupants per room, 4) selected monthly owner costs as a percentage of household income greater than $30 \%$, and 5) gross rent as a percentage of household income greater than $30 \%$. Selected conditions provide information in assessing the quality of the housing inventory and its occupants. This data is used to easily identify homes where the quality of living and housing can be considered substandard.

| Report Area | Total Occupied Housing Units | Occupied Housing Units with One or More Substandard Conditions | Percent Occupied Housing Units with One or More Substandard Conditions |

## Substandard Housing: Households Lacking Complete Plumbing Facilities

Complete plumbing facilities include: (a) hot and cold running water, (b) a flush toilet, and (c) a bathtub or shower. All three facilities must be located inside the house, apartment, or mobile home, but not necessarily in the same room. Housing units are classified as lacking complete plumbing facilities when any of the three facilities is not present.

| Report Area | Total Occupied Housing Units | Housing Units Lacking Complete Plumbing <br> Facilities | Housing Units Lacking Complete Plumbing Facilities, Percent |
| :---: | :---: | :---: | :---: |
| Allegany County, MD | 27,759 | 66 | 0.24\% |

Substandard Housing: Households Lacking Complete Plumbing Facilities

## Substandard Housing: Households Lacking Complete Kitchen Facilities

A unit has complete kitchen facilities when it has all three of the following facilities: (a) a sink with a faucet, (b) a stove or range, and (c) a refrigerator. All kitchen facilities must be located in the house, apartment, or mobile home, but they need not be in the same room. A housing unit having only a microwave or portable heating equipment such as a hot plate or camping stove should not be considered as having complete kitchen facilities. An icebox is not considered to be a refrigerator.

| Report Area | Total Occupied Housing Units | Housing Units Lacking Complete Kitchen Facilities | Housing Units Lacking Complete Kitchen Facilities, Percent |
| :---: | :---: | :---: | :---: |
| Allegany County, MD | 33,046 | 1,298 | 3.93\% |

| United States | 135,393,564 | 3,859,746 | 2.85\% |

## Substandard Housing: Households Lacking Telephone Service

A telephone must be in working order and service available in the house, apartment, or mobile home that allows the respondent to both make and receive calls. Households that have cell-phones (no land-line) are counted as having telephone service available. Households whose service has been discontinued for nonpayment or other reasons are not counted as having telephone service available.

| Report <br> Area | Total Housing Units Lacking Telephone Service | Total Housing Units Lacking Telephone Service | Owner-Occupied <br> Units Lacking <br> Telephone Service | Owner-Occupied <br> Units Lacking <br> Telephone Service | Renter-Occupied <br> Units Lacking <br> Telephone Service | Renter-Occupied Units Lacking Telephone Service |

## Housing - Vacancy Rate

This indicator reports the number and percentage of housing units that are vacant. A housing unit is considered vacant by the American Community Survey if no one is living in it at the time of interview. Units occupied at the time of interview entirely by persons who are staying two months or less and who have a more permanent residence elsewhere are considered to be temporarily occupied, and are classified as "vacant."

| Report Area | Total Housing Units | Vacant Housing Units | Vacant Housing Units, Percent |
| :---: | :---: | :---: | :---: |
| Custom Area Estimate | 232,616 | 42,038 | 18.07\% |

## Clinical Care

A lack of access to care presents barriers to good health. The supply and accessibility of facilities and physicians, the rate of uninsurance, financial hardship, transportation barriers, cultural competency, and coverage limitations affect access.

Rates of morbidity, mortality, and emergency hospitalizations can be reduced if community residents access services such as health screenings, routine tests, and vaccinations. Prevention indicators can call attention to a lack of access or knowledge regarding one or more health issues and can inform program interventions.

## 30-Day Hospital Readmissions

This indicator reports the percentage of Medicare fee-for-service beneficiaries readmitted to a hospital within 30 days of an initial hospitalization discharge.

| Report Area | Medicare Part A and B Beneficiaries | Rate of 30-Day Hospital Readmissions among Medicare Beneficiaries |

## Access to Dentists

This indicator reports the number of dentists per 100,000 population. This indicator includes all dentists - qualified as having a doctorate in dental surgery (D.D.S.) or dental medicine (D.M.D.), who are licensed by the state to practice dentistry and who are practicing within the scope of that license.

| Report Area | Total Population, 2015 | Dentists, 2015 | Dentists, Rate per 100,000 Pop. |

## Access to Primary Care

This indicator reports the number of primary care physicians per 100,000 population. Doctors classified as "primary care physicians" by the AMA include: General Family Medicine MDs and DOs, General Practice MDs and DOs, General Internal Medicine MDs and General Pediatrics MDs. Physicians age 75 and over and physicians practicing sub-specialties within the listed specialties are excluded. This indicator is relevant because a shortage of health professionals contributes to access and health status issues.

## Diabetes Management - Hemoglobin A1c Test

This indicator reports the percentage of diabetic Medicare patients who have had a hemoglobin A1c (hA1c) test, a blood test which measures blood sugar levels, administered by a health care professional in the past year. In the report area, 7,150 Medicare enrollees with diabetes have had an annual exam out of 8,255 Medicare enrollees in the report area with diabetes, or $86.62 \%$. This indicator is relevant because engaging in preventive behaviors allows for early detection and treatment of health problems. This indicator can also highlight a lack of access to preventive care, a lack of health knowledge, insufficient provider outreach, and/or social barriers preventing utilization of services.

| Report Area | Total <br> Medicare <br> Enrollees | Medicare Enrollees with Diabetes | Medicare Enrollees with Diabetes with Annual Exam | Percent Medicare Enrollees with Diabetes with Annual Exam |

## Federally Qualified Health Centers

This indicator reports the number of Federally Qualified Health Centers (FQHCs) in the community. This indicator is relevant because FQHCs are community assets that provide health care to vulnerable populations; they receive extra funding from the federal government to promote access to ambulatory care in areas designated as medically underserved.

| Report Area | Total <br> Population | Number of Federally Qualified Health Centers | Rate of Federally Qualified Health Centers per 100,000 Population |

## Health Professional Shortage Areas

This indicator reports the number and location of health care facilities designated as "Health Professional Shortage Areas" (HPSAs), defined as having shortages of primary medical care, dental or mental health providers. This indicator is relevant
because a shortage of health professionals contributes to access and health status issues.

| Report Area | Primary Care Facilities | Mental Health Care Facilities | Dental Health Care Facilities | Total HPSA Facility Designations |

## Lack of Prenatal Care

This indicator reports the percentage of women who do not obtain prenatal care during their first trimester of pregnancy. This indicator is relevant because engaging in prenatal care decreases the likelihood of maternal and infant health risks. This indicator can also highlight a lack of access to preventive care, a lack of health knowledge, insufficient provider outreach, and/or social barriers preventing utilization of services.

## Preventable Hospital Events

This indicator reports the discharge rate (per 1,000 Medicare enrollees) for conditions that are ambulatory care sensitive (ACS). ACS conditions include pneumonia, dehydration, asthma, diabetes, and other conditions which could have been prevented if adequate primary care resources were available and accessed by those patients. This indicator is relevant because analysis of ACS discharges allows demonstrating a possible "return on investment" from interventions that reduce admissions (for example, for uninsured or Medicaid patients) through better access to primary care resources.

## Prevention - Mammogram

This indicator reports the percentage of female Medicare enrollees, age 67-69, who have received one or more mammograms in the past two years. This indicator is relevant because engaging in preventive behaviors allows for early detection and treatment of health problems. This indicator can also highlight a lack of access to preventive care, a lack of health knowledge, insufficient provider outreach, and/or social barriers preventing utilization of services.

Breast Cancer Screening by Year, 2009 through 2015

## Prevention - Recent Primary Care Visit

This indicator reports the number and percentage of adults age 18 and older with one or more visits to a doctor for routine checkup within the past one year. Data for this indicator is only available for the population within the top 500 most populous cities across the United States. County, State, and National values represent the population within those cities, and not the total US population.

| Report Area | Total Population (2010) | Total Population in the $\mathbf{5 0 0}$ Cities (2010) | Percentage of Adults with Routine Checkup in Past 1 Year |

## Health Behaviors

Health behaviors such as poor diet, a lack of exercise, and substance abuse contribute to poor health status.

## Alcohol Consumption

This indicator reports the percentage of adults aged 18 and older who self-report heavy alcohol consumption (defined as more than two drinks per day on average for men and one drink per day on average for women). This indicator is relevant because current behaviors are determinants of future health and this indicator may illustrate a cause of significant health issues, such as cirrhosis, cancers, and untreated mental and behavioral health needs.

## STI - HIV Prevalence

This indicator reports prevalence rate of HIV per 100,000 population. This indicator is relevant because HIV is a life-threatening communicable disease that disproportionately affects minority populations and may also indicate the prevalence of unsafe sex practices.

| Report Area | Population Age 13+ | Population with HIV / AIDS | Population with HIV / AIDS, <br> Rate (Per 100,000 Pop.) |

## Tobacco Expenditures

This indicator reports estimated expenditures for cigarettes, as a percentage of total household expenditures. This indicator is relevant because tobacco use is linked to leading causes of death such as cancer and cardiovascular disease. Expenditures data are suppressed for single counties and single-geography custom areas. Rank data are not available custom report areas or multi-county areas. Expenditures data are suppressed for single counties and single-geography custom areas. Rank data are not available custom report areas or multi-county areas.

## Health Outcomes

Measuring morbidity and mortality rates allows assessing linkages between social determinants of health and outcomes. By comparing, for example, the prevalence of certain chronic diseases to indicators in other categories (e.g., poor diet and exercise) with outcomes (e.g., high rates of obesity and diabetes), various causal relationship may emerge, allowing a better understanding of how certain community health needs may be addressed.

## Asthma Prevalence

This indicator reports the percentage of adults aged 18 and older who self-report that they have ever been told by a doctor, nurse, or other health professional that they had asthma. This indicator is relevant because asthma is a prevalent problem in the U.S. that is often exacerbated by poor environmental conditions.

## Cancer Incidence - All Sites

This indicator reports the age adjusted incidence rate (cases per 100,000 population per year) of cancer (all sites) adjusted to 2000 U.S. standard population age groups (Under age 1, 1-4, 5-9, ..., 80-84, 85 and older). This indicator is relevant because cancer is a leading cause of death and it is important to identify cancers separately to better target interventions.

## Top Five Most Commonly Diagnosed Cancers

The counts and age-adjusted incidence rates of the five most common newly diagnosed cancers by site are presented in the table below.

| Report Area | Cancer Site | Incidence | Age-Adjusted Rate |
| :---: | :---: | :---: | :---: |
| Allegany County, MD | 1 - Lung \& Bronchus, 2011-2015 | 79 | 75.7 |
| Garrett County, MD | 2 - Breast, 2011-2015 | 57 | 114.4 |
| Washington County, MD | 3 - Prostate, 2011-2015 | 51 | 103.6 |
| Bedford County, PA | 4 - Colon \& Rectum, 2011-2015 | 47 | 47.2 |
| Fayette County, PA | 5 - Bladder, 2011-2015 | 24 | 22.9 |
| Franklin County, PA | 1 - Lung \& Bronchus, 2011-2015 | 23 | 51 |
| Fulton County, PA | 2 - Breast, 2011-2015 | 23 | 106.4 |
| Greene County, PA | 3 - Prostate, 2011-2015 | 17 | 80.3 |
| Somerset County, PA | 4 - Colon \& Rectum, 2011-2015 | 17 | 39.1 |
| Frederick County, VA | 5 - Melanoma of the Skin, 2011-2015 | 8 | 19.6 |
| Barbour County, WV | 1 - Breast, 2011-2015 | 125 | 135 |
| Berkeley County, WV | 2 - Lung \& Bronchus, 2011-2015 | 124 | 67.7 |
| Grant County, WV | 3 - Prostate, 2011-2015 | 86 | 95.8 |

| Report Area | Cancer Site | Incidence | Age-Adjusted Rate |
| :---: | :---: | :---: | :---: |
| Hampshire County, WV | 4 - Colon \& Rectum, 2011-2015 | 69 | 38.1 |
| Hardy County, WV | 5 - Bladder, 2011-2015 | 44 | 23.4 |
| Marion County, WV | 1 - Breast, 2011-2015 | 44 | 128.4 |
| Mineral County, WV | 2 - Lung \& Bronchus, 2011-2015 | 41 | 53.2 |
| Monongalia County, WV | 3 - Prostate, 2011-2015 | 37 | 100.5 |
| Morgan County, WV | 4 - Colon \& Rectum, 2011-2015 | 35 | 47.2 |
| Preston County, WV | 5 - Bladder, 2011-2015 | 20 | 25.9 |
| Randolph County, WV | 1 - Lung \& Bronchus, 2011-2015 | 152 | 77.2 |
| Taylor County, WV | 2 - Breast, 2011-2015 | 124 | 124 |
| Tucker County, WV | 3 - Colon \& Rectum, 2011-2015 | 93 | 47.4 |
|  | 4 - Prostate, 2011-2015 | 77 | 79.6 |
|  | 5 - Bladder, 2011-2015 | 53 | 26.6 |
|  | 1 - Lung \& Bronchus, 2011-2015 | 128 | 61.7 |
|  | 2 - Breast, 2011-2015 | 108 | 107.4 |
|  | 3 - Colon \& Rectum, 2011-2015 | 91 | 45.4 |

|  | 5 - Melanoma of the Skin, 2011-2015 | 1,456 | 22.4 |

## Cancer Incidence - Breast

This indicator reports the age adjusted incidence rate (cases per 100,000 population per year) of females with breast cancer adjusted to 2000 U.S. standard population age groups (Under Age 1, 1-4, 5-9, $\ldots, 80-84,85$ and older). This indicator is relevant because cancer is a leading cause of death and it is important to identify cancers separately to better target interventions.

| Report Area | Estimated Total Population (Female) | New Cases (Annual Average) | Cancer Incidence Rate <br> (Per 100,000 Pop.) | er Incidence Rate 0,000 Pop.) |
| :---: | :---: | :---: | :---: | :---: |

## Cancer Incidence - Colon and Rectum

This indicator reports the age adjusted incidence rate (cases per 100,000 population per year) of colon and rectum cancer adjusted to 2000 U.S. standard population age groups (Under age 1, 1-4, 5-9, ..., 80-84, 85 and older). This indicator is relevant because cancer is a leading cause of death and it is important to identify cancers separately to better target interventions.

| Report Area | Estimated Total Population | New Cases (Annual Average) | Cancer Incidence Rate (Per 100,000 Pop.) | Colon and Rectum Cancer ncidence Rate (Per 100,000 Pop.) |
| :---: | :---: | :---: | :---: | :---: |

| Maryland | 63.30\% | 46.99\% |
| United States | 59.88\% | 42.56\% |

## Infant Mortality

This indicator reports the rate of deaths to infants less than one year of age per 1,000 births. This indicator is relevant because high rates of infant mortality indicate the existence of broader issues pertaining to access to care and maternal and child health.

| Report Area | Total Births | Total Infant Deaths | Infant Mortality Rate (Per 1,000 Births) |

## Mortality - Cancer

This indicator reports the rate of death due to malignant neoplasm (cancer) per 100,000 population. Figures are reported as crude rates, and as rates age-adjusted to year 2000 standard. Rates are resummarized for report areas from county level data, only where data is available. This indicator is relevant because cancer is a leading cause of death in the United States.

| Report Area | Total Population | Average Annual Deaths, 2012-2016 | Crude Death Rate (Per 100,000 Pop.) | Age-Adjusted Death Rate (Per 100,000 Pop.) | Cancer Mortality, Age-Adjusted Death Rate (Per 100,000 Pop.) |

Drug Overdose Mortality, Age-Adjusted Rate (Per 100,000 Pop.) by Year, 2004 through 2017

## Mortality - Homicide

This indicator reports the rate of death due to assault (homicide) per 100,000 population. Figures are reported as crude rates, and as rates age-adjusted to year 2000 standard. Rates are resummarized for report areas from county level data, only where data is available. This indicator is relevant because homicide rate is a measure of poor community safety and is a leading cause of premature death.

| Report Area | Total Population | Average Annual Deaths, 2012-2016 | Crude Death Rate <br> (Per 100,000 Pop.) | Age-Adjusted Death Rate <br> (Per 100,000 Pop.) | Homicide, Age-Adjusted Death Rate <br> (Per 100,000 Pop.) |

## Mortality - Motor Vehicle Crash

This indicator reports the rate of death due to motor vehicle crashes per 100,000 population, which include collisions with another motor vehicle, a nonmotorist, a fixed object, and a non-fixed object, an overturn, and any other non-collision. This indicator is relevant because motor vehicle crash deaths are preventable and they are a cause of premature death.

by Year, 2004 through 2016

## Mortality - Pedestrian Motor Vehicle Crash

This indicator reports the crude rate of pedestrians killed by motor vehicles per 100,000 population. This indicator is relevant because pedestrian-motor vehicle crash deaths are preventable and they are a cause of premature death.

| Report Area | Total Population (2010) | Total Pedestrian Deaths, 2011-2015 | Average Annual Deaths, Rate per 100,000 Pop. | Pedestrian Motor Vehicle Mortality, Crude Death Rate (Per 100,000 Pop.) |

## Mortality - Premature Death

This indicator reports Years of Potential Life Lost (YPLL) before age 75 per 100,000 population for all causes of death, ageadjusted to the 2000 standard. YPLL measures premature death and is calculated by subtracting the age of death from the 75 year benchmark. This indicator is relevant because a measure of premature death can provide a unique and comprehensive look at overall health status.

## Mortality - Suicide

This indicator reports the rate of death due to intentional self-harm (suicide) per 100,000 population. Figures are reported as crude rates, and as rates age-adjusted to year 2000 standard. Rates are resummarized for report areas from county level data, only where data is available. This indicator is relevant because suicide is an indicator of poor mental health.

| Report Area | Total Population | Average Annual Deaths, 2012-2016 | Crude Death Rate <br> (Per 100,000 Pop.) | Age-Adjusted Death Rate (Per 100,000 Pop.) | , Age-Adjusted Death Rate (Per 100,000 Pop.) |

Percent Adults Obese (BMI > 30.0) by Year, 2004 through 2016

## Obesity (Youth)

This indicator reports the percentage of youth aged 10-17 who are obese, based on Body Mass Index (BMI). Children are classified as obese if their calculated BMI is in the 95th percentile or above for their age. This indicator is relevant because excess weight is a prevalent problem in the U.S.; it indicates an unhealthy lifestyle and puts individuals at risk for further health issues.

| Report Area | Total Population <br> (Age 10-17) | Number Obese | Percent Obese |
| :--- | ---: | ---: | ---: |
| Maryland | 571,754 | 96,856 | $17 \%$ |
| United States | $30,059,005$ | $4,851,000$ | $16 \%$ |

Note: This indicator is compared to the state average.

## Poor Dental Health

This indicator reports the percentage of adults age 18 and older who self-report that six or more of their permanent teeth have been removed due to tooth decay, gum disease, or infection. This indicator is relevant because it indicates lack of access to dental care and/or social barriers to utilization of dental services.
