21780	Frederick Health Hospital
21780	LifeBridge Health and Ascension

- Hospitals should coordinate with each other directly in zip codes where there is overlap to prevent duplication of efforts

# Next Steps

- Hospitals have projected that 281,223 vaccine doses will be issued
  - Hospitals must communicate directly with MDH for vaccine supply.
  - Any vaccine requests should be sent to [MDH.covidvax@maryland.gov](mailto:MDH.covidvax@maryland.gov) no later than Tuesday of the week before vaccines are needed.
  - It is recommended that vaccine requests be made as far in advance as possible so that the request can be included in MDH planning.
- Statewide Coordination
  - Overlaps exist with some hospital applicants so hospitals should coordinate to avoid duplication of efforts.
- Hospital Primary Contact List
  - HSCRC staff will ask hospitals to identify a primary point of contact to address inquiries on strategies and planning.
