

## Maryland General Hospital Community Benefits Evaluation FY 2010

1.	Licensed Bed Designation:	180
	Rehabilitation Beds:	33
	Bassinets:	<u>17</u>
		230

Inpatient admissions, FY 2010: 11,729

2. Maryland General Hospital is a 230 bed community teaching hospital with a network of services providing care to 110,000 patients each year. In addition, Maryland General Hospital was one of the first hospitals in Baltimore to establish an outreach program offering education, prevention and screening, serving individuals who face significant barriers in obtaining high quality and affordable care. Ninety-five percent (95%) of all admissions to Maryland General Hospital are from Baltimore City, with seventy percent (70%) originating from the primary service area of West Baltimore. Maryland General Hospital serves an urban population and the highest percentage of Medicaid patients of all hospitals in Maryland. Ninety-two Percent (92%) of Maryland General Hospital's patients are Medicaid, Medicare, or Self pay.

Maryland General Hospital serves a community with a disproportionate share of federally funded insurance recipients. For Fiscal 2010, Maryland General Hospital had the highest percentage of Inpatients with Medicaid as the primary insurance (48%). Maryland General also has the highest combined Medicare, Medicaid, and Self Pay percentage of inpatients at (92%) for the same time period. The Hospital serves the second highest percentage of African American patients in the state as a percentage of total patients at 81.5%. Lastly, Maryland General has the fifth (5<sup>th</sup>) highest percentage of inpatients whose level of severity is either "Major" or "Extreme", according to the APR Severity Index scale and this severity level continues to increase.
