### **3. Identification of Community Needs:**

A comprehensive needs assessment for the SHS service area was completed in 2006 and is updated annually. Shore Health identifies community needs through analysis of the current needs assessments and health plans developed by the local health departments for Talbot, Dorchester, Caroline, and Queen Anne's counties. The needs assessments include data compiled by county, state, and federal government and identifies health

Shore Health System's annual strategic planning process includes analysis of the region's health care needs using data projected through 2030. Many factors, such as population growth projections, the aging of the regional population, emerging trends in health care delivery, physician recruitment needs, changes in the region's transportation network, and current and projected regulatory and reimbursement trends are examined.

An additional source reviewed in FY10 to identify community needs, is the *Healthy People 2010* guidelines established by the Maryland DHHS. The comprehensive set of health objectives set in *Healthy People 2010* serves as the framework to develop community health initiatives and activities that address major public health concerns.

### **4. Major Needs Identified:**

The top ten areas/needs that have the greatest impact on overall health in our communities are:

- Access to quality health services
- Cancer

- Heart Disease and Stroke
- Physical Activity and Fitness
- Educational & Community-based Programs
- Diabetes
- Maternal, Infant and Child Health
- Nutrition and Obesity
- Mental Health and Mental Disorders
- Environmental Health

**5. Description of the decision making process for community benefits activities:**

Shore Health System's annual management plan results in activities aligned with the needs of the community it serves. Hospital operations, nursing leadership, finance, and volunteers are involved in developing and participating in activities that reach out to the community.

**6. Description of how initiatives address the needs listed in #4:**

**Access to quality health services**

- SHS physicians and clinicians participate in health fairs and lecture series providing information and services to the community.
- SHS aids in obtaining necessary medications or equipment needed for discharge for patients unable to pay.
- Ongoing recruitment efforts over the last year include orthopedic, endocrinology, pediatrics, neurology, pulmonary, ob/gyn, anesthesia and family practice physicians.
- Stipend to Tidewater Anesthesia and Maryland Emergency Medicine paid to provide evening, weekend, and holiday call at Dorchester General Hospital in order to provide emergency Surgical Services 24/7

**Cancer**

The SHS Breast Center participates in Community Outreach to meet the needs of screening, etc for the underserved population. Oncology Support Social Services offered special education on cancer and resources available for cancer patients.

**Stroke Prevention and Awareness**

Shore Health System hosted community outreach activities including screenings and education on stroke prevention and treatment. Attendees received a free blood pressure screening and information on a variety of health topics, such as diabetes, nutrition, exercise and fitness. The Power to End Stroke Campaign, an initiative to reduce the risk of stroke among African Americans is ongoing.

## **Diabetes**

- SHS provides nutrition and diabetic information at health fairs and participates in support groups for adult and juvenile diabetes.
- SHS held a week-long diabetic summer camp for juvenile diabetics.

## **Maternal, Infant and Child Health**

Shore Health System offers a variety of community education programs to meet the needs of the new mother and the family unit. Childbirth classes, infant CPR, breastfeeding classes are offered free of charge.

### **7. Description of the efforts taken to evaluate the effectiveness of major Community Benefit program initiative:**

Currently SHS uses statistical data gathered by local health departments along with internal documentation/evaluation to assess effectiveness of community benefit initiatives.

SHS tracks encounters for all health screenings, community outreach programs, and educational based programs offered. The program initiatives are evaluated to ensure the goals of the program are met. Thorough documentation and tracking is accomplished through completion of: Activity Forms; Occurrence Forms; Outcomes Forms; and Leadership Journal Forms for all community benefit activities. This tracking system provides the stakeholders with the ability to determine the effectiveness of individual activities and for year-to-year comparison analysis.

SHS is continuing to work towards the incorporation of an electronic data collection process to improve tracking effectiveness of activities.

### **8. Description of gaps in the availability of specialist providers, including outpatient specialty care, to service the uninsured cared for by SHS:**

The SHS Medical Staff by-laws require that physicians provide ten days of Emergency Department call. In areas where there is only one or two sub-specialists for a particular specialty, there will be occasions when certain days are not covered. If a patient presents to the Emergency Department and there is no sub-specialty coverage for that day, the patient is stabilized and then transferred to an appropriate facility for treatment.

**9. If you list Physician Subsidies in your data, please provide detail.**

Stipend to Tidewater Anesthesia and Maryland Emergency Medicine paid to provide evening, weekend, and holiday call at Dorchester General Hospital in order to provide emergency Surgical Services 24/7. Consistent to prior years, the report reflects the expense for ER and Anesthesiology physicians, offset by any other revenue (the CFO refers to as rebate of expenses received).

**Appendices:**

**Appendix 1: Describe your charity care policy**

- A. Describe how the hospital informs patients and person who would otherwise be billed for services about their eligibility for assistance under federal, state or local government programs or under the hospitals charity care policy.

It is the policy of Shore Health System to work with our patients to identify available resources to pay for their care. All patients presenting as self pay and requesting charity relief from their bill will be screened at all points of entry, for possible coverage through state programs and a probable determination for coverage for either Medical Assistance or Financial Assistance (charity care) from the hospital is **immediately** given to the patient. The process is resource intensive and time consuming for patients and the hospital; however, if patients qualify for one of these programs, then they will have health benefits that they will carry with them beyond their current hospital bills, and allow them to access preventive care services as well. Shore Health System works with a business partner who will work with our patients to assist them with the state assistance programs, which is free to our patients.

If a patient does not qualify for Medicaid or another program, Shore Health System offers our financial assistance program. Shore Health System posts notices of our policy in conspicuous places throughout the hospitals, has information within our hospital billing brochure, educates all new employees thoroughly on the process during orientation, and does a yearly re-education to all existing staff. All staff have copies of the financial assistance application, both in English and Spanish, to supply to patients who we deem, after screening, to have a need for assistance. Shore Health System has a dedicated Financial Assistance Liaison to work with our patients to assist them with this process and expedite the decision process.

Shore Health notifies patients of availability of financial assistance funds prior to service during our calls to patients, through signage at all of our registration locations, through our patient billing brochure and through our discussions with patients during registration. In addition, the information sheet is mailed to patients with all statements and/or handed to them if needed. Notices are sent regarding our Hill Burton program yearly as well.

**Appendix 2: Attach copy of SHS hospital’s charity care policy and financial assistance policy**

See attached, Shore Health System Policy LD-34, Patient Financial Services – Financial Assistance Program attached.

**Appendix 3: Describe the hospital’s mission, vision, and value statements.**  
*Mission, Values, and Strategic Principle of Shore Health System*

Mission: “To excel in quality care and patient satisfaction”

Values: “Every interaction with another is an opportunity to care”

Strategic Principle: “Exceptional Care, Everyday”

Vision: “Shore Health System is strategically located hospitals and ambulatory care services throughout the five-county mid-shore area. We manage resources to support the health care needs of the of the region’s residents. We are innovative professionals collaborating to serve our communities and achieve national recognition for exceptional outcomes.”

**Expanded Description of Mission, Vision and Value Statement:**

Shore Health System will be the provider of “first choice” among patients and physicians of the four Mid-Shore Counties.

Shore Health System’s employees, leadership, and Medical Staff will deliver care through a common culture, adhere to a professional code, and work cohesively as a patient-centered team to ensure the highest favorable outcomes for all the patients we serve.

Shore Health System will continue to develop its clinical services. Ambulatory care services will extend outward into the region from the inpatient facilities, creating a clinical service model that is operationally efficient and provides maximum potential for market growth. This clinical service model will continuously identify the most appropriate geographic distribution of both inpatient and ambulatory services within the Mid-Shore area.

Recognizing that our patient and physician customers have options in choosing where they go for health care services, the System will develop innovative patient-friendly approaches to improve service accessibility and service excellence. The System will develop patient-centered approaches to care and create a healing environment within our facilities. Clinical care pathways will be initiated throughout the organization to ensure

the highest quality standards. Physicians will be supported in ways they value and that compliments delivering care to our patients.

Shore Health System will be significantly integrated within our communities, active in partnerships with local Health Departments, physicians, community health centers, teaching institutions, and regional employers. The System will be more proactive in educating and seeking resources from the philanthropic community. This community integration will be beneficial in allowing our organization to best utilize our limited capital resources to meet our communities' health care needs.

As a non-profit healthcare organization, Shore Health System will have measurements in place to demonstrate its successes in fully meeting its mission of providing exceptional care.

**Appendix 4: Attach a copy of the hospital's mission, vision, and value statements. See attached document labeled Appendix 4.**

Shore Health System has a strategic plan and mission statement, which are tied to community benefits. The 2010 strategic plan is developed involving physicians, board members, Senior Leadership staff, management staff and other SHS employees.

## Administrative Policy and Procedure

---

**TITLE OF POLICY: PATIENT FINANCIAL SERVICES - FINANCIAL ASSISTANCE PROGRAM**

### **PURPOSE**

To establish a standardized policy, in compliance with and to determine the method by which individuals and families will be approved for financial assistance for their medical bills.

### **1.0 POLICY**

- 1.1 Shore Health System will provide uncompensated care to those individuals and families who exhibit the need for uncompensated care, provide adequate evidence on such need and providing that there are no other means of compensation (including the ability to receive care at another facility at which there would be compensation available).
- 1.2 Uncompensated care will be considered for patients that are residents of Caroline, Dorchester, Kent, Queen Anne's and Talbot Counties. Financial Assistance will be offered at 100% for individuals at or below 200% of the Federal Poverty Guidelines. A sliding scale of up to 300% for a reduction in costs will also be offered to residents of these counties.
- 1.3 Individuals who are non-residents of the five counties should seek uncompensated care at the facility that services their locale. Financial Assistance will not be considered until the patient provides Shore Health System with a Medicaid Denial letter and a denial letter from their locale healthcare facility. Financial assistance will only be offered at 100% for those individuals at or below 150% of the Federal Poverty Guidelines. Financial assistance will only be offered on a "one time account" basis for non-residents.
- 1.4 Financial Assistance will not be offered for non-residents of Maryland unless approved by Senior Management. Individuals who are non residents, but are residing with residents of the five counties for an extended period of time, may supply a notarized statement from the individual they are residing with, that details their circumstances. Financial Assistance will only be offered on a "one time account" basis for non-residents.
- 1.5 Uncompensated care will be available regardless of race, disability, religion, age, sex, national origin or creed.
- 1.6 Shore Health System will provide patients seeking services at Dorchester General Hospital coverage under the Hill/Burton Program, as long as patients are not covered by another federal program as their primary insurance (i.e., Medicare.)
- 1.7 Shore Health System will provide patients seeking services at all other locations coverage under the Financial Assistance Program. This program will offer full

---

discounts and sliding fee scale discounts for all uninsured and underinsured patients within the residential areas defined above.

- 1.8 Shore Health System may require patients to apply for State funded programs, such as Medical Assistance, prior to being considered for Financial Assistance should we believe patient may qualify. Financial Assistance will not be considered unless a Medical Assistance denial is received.
- 1.9 Financial Assistance coverage may be discontinued if the patient is asked to complete a Medical Assistance application by Shore Health System, and the patient refuses to cooperate.
- 1.10 Patients are **NOT ELIGIBLE** for charity care if they do not comply with their insurance coverage requirements and restrictions. This includes services that should have been performed at another provider location, but the patient chooses to have services rendered at Shore Health System. **Patient will be fully liable for services that are not covered due to non-compliance with insurance requirements.**
- 1.11 Services covered under the Veterans Administration but not authorized by them, will not be covered by Financial Assistance. Patients must seek services or authorization of services from the Veterans Administration. Senior Management approval is required to waive this requirement based on specific patient needs.
- 1.12 Financial Assistance will not cover elective or non-emergent services, such as cosmetic surgery, dental procedures, and other services as deemed non-covered by Shore Health System.
- 1.13 Financial Assistance will not cover any accounts that have been referred for legal action.
