SCHEDULE H, PART I, LINE 3C - CRITERIA FOR FREE OR DISCOUNTED CARE	SHS IS COMMITTED TO PROVIDING FINANCIAL ASSISTANCE TO PERSONS WHO HAVE HEALTH CARE NEEDS AND ARE UNINSURED, UNDERINSURED, INELIGIBLE FOR A GOVERNMENT PROGRAM, OR OTHERWISE UNABLE TO PAY, FOR MEDICALLY NECESSARY CARE BASED ON THEIR INDIVIDUAL FINANCIAL SITUATION. IN ADDITION TO FPG, THE INCOME LEVELS DEFINED BY THE MARYLAND STATE DEPARTMENT OF HEALTH AND MENTAL HYGIENE (MD DHMH) ARE USED TO DETERMINE ELIGIBILITY FOR FINANCIAL ASSISTANCE. THE MD DHMH INCOME LEVELS ARE MORE GENEROUS THAN THE FPG INCOME LEVELS. THE FAP ALSO USES A FINANCIAL HARDSHIP THRESHOLD WHEN DETERMINING ELIGIBILITY. A PATIENT WITH MEDICAL DEBT EXCEEDING 25% OF FAMILY ANNUAL HOUSEHOLD INCOME MAY BE ELIGIBLE FOR FINANCIAL ASSISTANCE.
SCHEDULE H, PART I, LINE 6B - RELATED ORGANIZATION REPORT	THE ORGANIZATION ANNUALLY FILES A COMMUNITY BENEFIT REPORT AS REQUIRED BY THE MARYLAND HSCRC. THE REPORT CAN BE FOUND AT HTTPS://HSCRC.MARYLAND.GOV/PAGES/DEFAULT.ASPX
SCHEDULE H, PART I, LINE 7 - EXPLANATION OF COSTING METHODOLOGY USED FOR CALCULATING LINE 7 TABLE	MARYLAND'S REGULATORY SYSTEM CREATES A UNIQUE PROCESS FOR HOSPITAL PAYMENT THAT DIFFERS FROM THE REST OF THE NATION. THE HEALTH SERVICES COST REVIEW COMMISSION, (HSCRC) DETERMINES PAYMENT THROUGH A RATE SETTING PROCESS AND ALL PAYORS, INCLUDING GOVERNMENTAL PAYORS, PAY THE SAME AMOUNT FOR THE SAME SERVICES DELIVERED AT THE SAME HOSPITAL. MARYLAND'S UNIQUE ALL PAYOR SYSTEM INCLUDES A METHOD FOR REFERENCING UNCOMPENSATED CARE IN EACH PAYORS' RATES, WHICH DOES NOT ENABLE MARYLAND HOSPITALS TO BREAKOUT ANY OFFSETTING REVENUE RELATED TO UNCOMPENSATED CARE. COMMUNITY BENEFIT EXPENSES ARE EQUAL TO MEDICAID REVENUES IN MARYLAND, AS SUCH, THE NET EFFECT IS ZERO. ADDITIONALLY, NET REVENUES FOR MEDICAID SHOULD REFLECT THE FULL IMPACT ON THE HOSPITAL OF ITS SHARE OF THE MEDICAID ASSESSMENT.

SCHEDULE H, PART III, LINE 2 - METHODOLOGY USED TO ESTIMATE BAD DEBT	<p>THE HEALTH SERVICES COST REVIEW COMMISSION (HSCRC) STARTED SETTING HOSPITAL RATES IN 1974. AT THAT TIME, THE HSCRC APPROVED RATES APPLIED ONLY TO COMMERCIAL INSURERS. IN 1977, THE HSCRC NEGOTIATED A WAIVER FROM MEDICARE HOSPITAL PAYMENT RULES FOR MARYLAND HOSPITALS TO BRING THE FEDERAL MEDICARE PAYMENTS UNDER HSCRC CONTROL.</p> <p>IN 2014, MARYLAND'S WAIVER WITH MEDICARE WAS RENEGOTIATED AND UPDATED TO REFLECT THE CURRENT HEALTHCARE ENVIRONMENT. UNDER THIS NEW WAIVER, SEVERAL CRITERIA WERE ESTABLISHED TO MONITOR THE SUCCESS OF THE SYSTEM IN CONTROLLING HEALTHCARE COSTS AND THE CONTINUANCE OF THE WAIVER ITSELF:</p> <ol style="list-style-type: none"> 1. REVENUE GROWTH PER CAPITA 2. MEDICARE HOSPITAL REVENUE PER BENEFICIARY 3. MEDICARE ALL PROVIDER REVENUE GROWTH PER BENEFICIARY 4. MEDICARE READMISSION RATES 5. HOSPITAL ACQUIRED CONDITION RATE
SCHEDULE H, PART III, LINE 3 - FAP ELIGIBLE PATIENT BAD DEBT CALCULATION METHODOLOGY	BECAUSE OF THE UNIQUE PAYMENT SYSTEM DESCRIBED ON LINE 2 (ABOVE), THE HOSPITAL IS UNABLE TO ESTIMATE HOW MUCH OF THE AMOUNT REPORTED IN LINE 2 IS ATTRIBUTED TO PATIENTS WHO WOULD APPLY UNDER THE FAP.
SCHEDULE H, PART III, LINE 4 - FOOTNOTE IN ORGANIZATION'S FINANCIAL STATEMENTS DESCRIBING BAD DEBT	<p>THE CORPORATION RECORDS REVENUES AND ACCOUNTS RECEIVABLE FROM PATIENTS AND THIRD-PARTY PAYORS AT THEIR ESTIMATED NET REALIZABLE VALUE. REVENUE IS REDUCED FOR ANTICIPATED DISCOUNTS UNDER CONTRACTUAL ARRANGEMENTS AND FOR CHARITY CARE. AN ESTIMATED PROVISION FOR BAD DEBTS IS RECORDED IN THE PERIOD THE RELATED SERVICES ARE PROVIDED BASED UPON ANTICIPATED UNCOMPENSATED CARE, AND IS ADJUSTED AS ADDITIONAL INFORMATION BECOMES AVAILABLE.</p> <p>THE PROVISION FOR BAD DEBTS IS BASED UPON MANAGEMENT'S ASSESSMENT OF HISTORICAL AND EXPECTED NET COLLECTIONS CONSIDERING HISTORICAL BUSINESS AND ECONOMIC CONDITIONS, TRENDS IN HEALTHCARE COVERAGE, AND OTHER COLLECTION INDICATORS. PERIODICALLY THROUGHOUT THE YEAR, MANAGEMENT ASSESSES THE ADEQUACY OF THE ALLOWANCE FOR UNCOLLECTIBLE ACCOUNTS BASED UPON HISTORICAL WRITE-OFF EXPERIENCE BY PAYOR CATEGORY. THE RESULTS OF THIS REVIEW ARE THEN USED TO MAKE MODIFICATIONS TO THE PROVISION FOR BAD DEBTS AND TO ESTABLISH AN ALLOWANCE FOR UNCOLLECTIBLE RECEIVABLES. AFTER COLLECTION OF AMOUNTS DUE FROM INSURERS, THE CORPORATION FOLLOWS INTERNAL GUIDELINES FOR PLACING CERTAIN PAST DUE BALANCES WITH COLLECTION AGENCIES.</p> <p>FOR RECEIVABLES ASSOCIATED WITH SERVICES PROVIDED TO PATIENTS WHO HAVE THIRD-PARTY COVERAGE, THE CORPORATION ANALYZES CONTRACTUALLY DUE AMOUNTS AND PROVIDES AN ALLOWANCE FOR BAD DEBTS, ALLOWANCE FOR CONTRACTUAL ADJUSTMENTS, PROVISION FOR BAD DEBTS, AND CONTRACTUAL ADJUSTMENTS ON ACCOUNTS FOR WHICH THE THIRD-PARTY PAYOR HAS NOT YET PAID OR FOR PAYORS WHO ARE KNOWN TO BE HAVING FINANCIAL DIFFICULTIES THAT MAKE THE REALIZATION OF AMOUNTS DUE UNLIKELY. FOR RECEIVABLES ASSOCIATED WITH SELF-PAY PATIENTS OR WITH BALANCES REMAINING AFTER THE THIRD-PARTY COVERAGE HAD ALREADY PAID, THE CORPORATION RECORDS A SIGNIFICANT PROVISION FOR BAD DEBTS IN THE PERIOD OF SERVICE ON THE BASIS OF ITS HISTORICAL COLLECTIONS, WHICH INDICATES THAT MANY PATIENTS ULTIMATELY DO NOT PAY THE PORTION OF THEIR BILL FOR WHICH THEY ARE FINANCIALLY RESPONSIBLE. THE DIFFERENCE BETWEEN THE DISCOUNTED RATES AND THE AMOUNTS COLLECTED AFTER ALL REASONABLE COLLECTION EFFORTS HAVE BEEN EXHAUSTED IS CHARGED AGAINST THE ALLOWANCE FOR DOUBTFUL ACCOUNTS.</p>

TALBOT COUNTY HAS A 27.2% RATE FOR THIS AGE GROUP AND KENT COUNTY HAS 25.3% OF ITS RESIDENTS AGE 65 YEARS OR OLDER. THESE RATES ARE 65% HIGHER THAN MARYLAND'S AVERAGE PERCENTAGES, AND HIGHER THAN OTHER RURAL AREAS IN THE STATE BY ALMOST A QUARTER. Report of Independent Auditors

The Board of Directors
University of Maryland Medical System Corporation

Opinion

We have audited the consolidated financial statements of University of Maryland Medical System Corporation and Subsidiaries (the Corporation), which comprise the consolidated balance sheets as of June 30, 2024 and 2023, and the related consolidated statements of operations, changes in net assets, and cash flows for the years then ended, and the related notes (collectively referred to as the “financial statements”).

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Corporation at June 30, 2024 and 2023, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Corporation and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Corporation’s ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free of material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Corporation's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Corporation's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying supplementary consolidating and combining/combined information is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the financial statements as a whole.

1. Organization and Summary of Significant Accounting Policies

Organization

The University of Maryland Medical System Corporation (the Corporation or UMMS) is a private, not-for-profit corporation, providing comprehensive healthcare services through an integrated regional network of hospitals and related clinical enterprises. UMMS was created in 1984 when its founding hospital was privatized by the State of Maryland. Prior to that time, the founding hospital was state-owned, operated and financed as part of the University of Maryland, now a part of the University System. As part of the privatization process, the Maryland General Assembly and the University of Maryland's Board of Regents adopted legislation (the Governance Legislation) separating the major health care delivery components from the University System to UMMS. This Governance Legislation provides for a certain level of oversight by the State of Maryland to ensure UMMS' founding purposes are consistently set forth in its functions and operating practices.

Over its history, UMMS evolved into a multi-hospital system with academic, community and specialty service missions reaching across Maryland. In continuing partnership with the University of Maryland School of Medicine, UMMS operates healthcare programs that improve the physical and mental health of thousands of people each day.

The accompanying consolidated financial statements include the accounts of the Corporation, its wholly owned subsidiaries, and entities controlled by the Corporation. In addition, the Corporation maintains equity interests in various unconsolidated joint ventures, which are described in Note 4.

The significant operating divisions of the Corporation are described in further detail below.

All material intercompany balances and transactions have been eliminated in consolidation.

University of Maryland Medical Center (Medical Center)

The Medical Center, which is a major component of UMMS, is a 710-bed academic medical center located in Baltimore. The Medical Center has served as the teaching hospital of the School of Medicine of the University System of Maryland, Baltimore since 1823. As part of the privatization in 1984, only clinical faculty members of the School of Medicine may serve as medical staff of the Medical Center.

1. Organization and Summary of Significant Accounting Policies (continued)

The Medical Center is comprised of two operating divisions: University Hospital, which includes the Greenebaum Cancer Center, and Shock Trauma Center. University Hospital, which generates approximately 85% of the Medical Center's admissions and patient days, is a tertiary teaching hospital providing over 70 clinical services and programs. The Greenebaum Cancer Center specializes in the treatment of cancer patients and is a site for clinical cancer research. The Shock Trauma Center, which specializes in emergency treatment of patients suffering severe trauma, generates approximately 15% of admissions and patient days. The Medical Center also operates 36 South Paca Street, LLC, a wholly owned subsidiary that operates a residential apartment building.

The Corporation has certain agreements with various departments of the University of Maryland School of Medicine concerning the provision of professional and administrative services to the Corporation and its patients. Total expense under these agreements in the years ended June 30, 2024 and 2023 was approximately \$212,707 and \$201,509, respectively.

University of Maryland Rehabilitation and Orthopaedic Institute (ROI)

ROI is comprised of a medical/surgical and rehabilitation hospital in Baltimore with 138 licensed beds, which includes rehabilitation beds, chronic care beds, medical/surgical beds, and off-site physical therapy facilities.

A related corporation, The James Lawrence Kernan Endowment Fund, Inc. (Kernan Endowment), is governed by a separate, independent board of directors and is required to hold investments and income derived therefrom for the exclusive benefit of ROI. Accordingly, the accompanying consolidated financial statements reflect an economic interest in the net assets of the Kernan Endowment.

1. Organization and Summary of Significant Accounting Policies (continued)

Basis of Presentation

The consolidated financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Cash and Cash Equivalents

Cash and cash equivalents, excluding amounts shown within investments and assets limited as to use, consist of cash and interest-bearing deposits with maturities of three months or less from the date of purchase. Cash and cash equivalent balances may exceed amounts insured by federal agencies and, therefore, bear a risk of loss. The Corporation has not experienced such losses on these funds.

Investments and Assets Limited as to Use

The Corporation's investment portfolios, except alternative investments, are classified as trading and are reported in the consolidated balance sheets as long-term assets at June 30, 2024 and 2023. Investment income earnings on cash and short-term investments associated with business operations are recorded in other operating revenues. Unrealized holding gains and losses on trading securities with readily determinable market values, as well as alternative investments, are included in nonoperating income. Investment income related to long-term investments, including realized gains and losses, is included in nonoperating income in the accompanying consolidated statements of operations and changes in net assets.

Assets limited as to use include investments set aside for the replacement or acquisition of property and equipment, investments held by trustees under bond indenture agreements and self-insurance trust arrangements, and assets whose use is restricted by donors. Restricted investments are recorded in net assets with donor restrictions unless otherwise required by the donor or state law. UMMS serves as the Paymaster for the Maryland Health Services Cost Review Commission (HSCRC)'s Episode Quality Improvement Program, whereby UMMS receives and disburses awards earned under the Program. At June 30, 2024, the Corporation held \$81,024 of funds that are pending disbursement to Program beneficiaries, an amount that is included in current portion of assets limited as to use (Note 2) with an equal and offsetting liability recorded in other current liabilities. Assets limited as to use also includes the Corporation's economic interests in financially interrelated organizations (Note 11).

1. Organization and Summary of Significant Accounting Policies (continued)

Investments are exposed to certain risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, changes in the value of investment securities could occur in the near term, and these changes could materially differ from the amounts reported in the accompanying consolidated financial statements.

Fair Value Measurements

The following methods and assumptions were used by the Corporation in estimating the fair value of its financial instruments:

Cash and cash equivalents, accounts receivable, assets limited as to use, investments, trade accounts payable, accrued payroll and benefits, other accrued expenses, and advances from third-party payors – The carrying amounts reported in the consolidated balance sheets approximate the related fair values. Assets limited as to use and investments include managed funds, which include hedge funds, hedge fund-of-funds, multi-strategy commingled funds, private equity investments and other investments (collectively “alternative investments”) which do not have readily ascertainable fair values and may be subject to withdrawal restrictions. The Corporation applies Accounting Standards Update 2009-12, *Fair Value Measurements and Disclosures (Topic 820): Investments in Certain Entities That Calculate Net Asset per Share (or Its Equivalent)*, to its alternative investments and pension plan assets. The guidance permits, as a practical expedient, fair value of investments within its scope to be estimated using the net asset value (NAV) or its equivalent. The alternative investments classified within the fair value hierarchy have been recorded using the NAV. These amounts are not required to be categorized in the fair value hierarchy. Fair value is based on the proportionate share of the NAV based on the most recent statements received for the fund managers.

The Corporation discloses its financial assets, financial liabilities, and fair value measurements of nonfinancial items according to the fair value hierarchy required by accounting principles generally accepted in the United States of America that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted

University of Maryland Medical System Corporation and Subsidiaries

Notes to Consolidated Financial Statements (continued) (In Thousands)

1. Organization and Summary of Significant Accounting Policies (continued)

quoted market prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

- Level 1 inputs are quoted market prices (unadjusted) in active markets for identical assets or liabilities that the Corporation has the ability to access at the measurement date.
- Level 2 inputs are inputs other than quoted market prices including within Level 1 that are observable for the asset or liability, either directly or indirectly. If the asset or liability has a specified (contractual) term, a Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 inputs are unobservable inputs for the asset or liability.

Assets and liabilities classified as Level 1 are valued using unadjusted quoted market prices for identical assets or liabilities in active markets. The Corporation uses techniques consistent with the market approach and the income approach for measuring fair value of its Level 2 and Level 3 assets and liabilities. The market approach is a valuation technique that uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities. The income approach generally converts future amounts (cash flows or earnings) to a single present value amount (discounted).

The level in the fair value hierarchy within which a fair value measurement in its entirety falls is based on the lowest level of input that is significant to the fair value measurement in its entirety.

As of June 30, 2024 and 2023, the Level 2 assets and liabilities listed in the fair value hierarchy tables presented in Notes 2 and 10 utilize the following valuation techniques and inputs:

U.S. Government and agency securities

The fair value of investments in U.S. Government, state, and municipal obligations is primarily determined using techniques consistent with the income approach. Significant observable inputs to the income approach include data points for benchmark constant maturity curves and spreads. U.S. Government and agency securities also include treasury notes that are based on quoted market prices in active markets.

University of Maryland Medical System Corporation and Subsidiaries

Notes to Consolidated Financial Statements (continued) (In Thousands)

1. Organization and Summary of Significant Accounting Policies (continued)

Corporate obligations

The fair value of investments in U.S. and international corporate bonds is primarily determined using techniques that are consistent with the market approach. Significant observable inputs include benchmark yields, reported trades, observable broker-dealer quotes, issuer spreads, and security specific characteristics, such as early redemption options. The fair value of collateralized corporate obligations is primarily determined using techniques consistent with the income approach, such as a discounted cash flow model. Significant observable inputs include prepayment speeds and spreads, benchmark yield curves, volatility measures, and quotes. Corporate obligations also include commercial paper that is based on quoted market prices in active markets.

Derivative liabilities

The fair value of derivative contracts is primarily determined using techniques consistent with the market approach. Derivative contracts include interest rate, credit default, and total return swaps. Significant observable inputs to valuation models include interest rates, treasury yields, volatilities, credit spreads, maturity, and recovery rates.

Net Patient Service Revenue and Patient Accounts Receivable

In accordance with Accounting Standards Codification (ASC) 606, *Revenue from Contracts with Customers*, net patient service revenue, which includes hospital inpatient services, hospital outpatient services, physician services, and other patient services revenue, is recorded at the transaction price estimated by the Corporation to reflect the total consideration due from patients and third-party payors (including commercial payors and government programs) and others. Revenue is recognized over time as performance obligations are satisfied in exchange for providing goods and services in patient care. Revenue is recorded as these goods and services are provided. The services provided to a patient during an inpatient stay or outpatient visit represent a bundle of goods and services that are distinct and accounted for as a single performance obligation.

University of Maryland Medical System Corporation and Subsidiaries

Notes to Consolidated Financial Statements (continued)

(In Thousands)

1. Organization and Summary of Significant Accounting Policies (continued)

The Corporation's estimate of the transaction price includes the Corporation's standard charges for the goods and services provided, with a reduction recorded related to explicit price concessions for such items as contractual allowances, charity care, adjustments that may arise from payment and other reviews, and implicit price concessions, such as uncollectible amounts. The price concessions are determined using the portfolio approach as a practical expedient to account for patient contracts as collective groups rather than individually. Based on historical experience, a significant portion of the self-pay population will be unable or unwilling to pay for services and only the amount anticipated to be collected is recognized in the transactions price. Subsequent changes to the estimate of the transaction price are generally recorded as adjustments to net patient service revenue in the period of change. Subsequent changes that are determined to be the result of an adverse change in the payor's or patient's ability to pay are considered bad debt expense and recorded within operating expenses in the Consolidated Statements of Operations and Changes in Net Assets and was not material for the years ended June 30, 2024 and 2023. Estimates for uncollectible amounts are based on the historical collections experience for similar payors and patients, current market conditions, and other relevant factors. The Corporation recognizes a significant amount of patient service revenue even though it does not assess the patient's ability to pay.

The standard charges for goods and services for the Medical Center, ROI, Midtown, Baltimore Washington, Shore Regional, Charles Regional, St. Joseph, Upper Chesapeake, and Capital Region reflects actual charges to patients based on rates regulated by the State of Maryland Health Services Cost Review Commission (HSCRC) in effect during the period in which the services are rendered. See Note 17 for further discussion on the HSCRC and regulated rates.

Patient accounts receivable consist primarily of amounts owed by various governmental agencies, insurance companies and patients and are recorded at the net realizable value based on certain assumptions determined by each payor. The Corporation reports patient accounts receivable at an amount equal to the consideration it expects to receive in exchange for providing healthcare services to its patients, which is estimated using contractual provisions associated with specific payors, historical reimbursement rates and analysis of past experience to estimate potential adjustments.

University of Maryland Medical System Corporation and Subsidiaries

Notes to Consolidated Financial Statements (continued) (In Thousands)

1. Organization and Summary of Significant Accounting Policies (continued)

The Corporation has elected to apply the optional exemption in ASC 606-10-50-14a, as all performance obligations relate to contracts with a duration of less than one year. Under this exemption, the Corporation was not required to disclose the aggregate amount of the transaction price allocated to performance obligations that are unsatisfied or partially unsatisfied at the end of the reporting period. Any unsatisfied or partially unsatisfied performance obligations at the end of the year are completed within days or weeks of the end of the year.

Net patient service revenue by line of business is as follows:

	Year Ended June 30	
	2024	2023
Hospital inpatient and outpatient services	\$ 4,520,934	\$ 4,367,049
Physician services	326,722	305,467
Other	15,823	9,827
Net patient service revenue	<u>\$ 4,863,479</u>	<u>\$ 4,682,343</u>

Other Accounts Receivable

Other accounts receivable primarily includes receivables related to the hospital outpatient pharmacies, pharmacy rebate accruals, grants, and third-party contracts.

Inventories

Inventories, consisting primarily of drugs and medical/surgical supplies, are carried at the lower of cost or net realizable value.

Economic Interests in Financially Interrelated Organizations

The Corporation recognizes its rights to assets held by recipient organizations, which accept cash or other financial assets from a donor and agree to use those assets on behalf of or transfer those assets, the return on investment of those assets, or both, to the Corporation. Changes in the Corporation's economic interests in these financially interrelated organizations are recognized in the accompanying consolidated statements of changes in net assets.

University of Maryland Medical System Corporation and Subsidiaries

Notes to Consolidated Financial Statements (continued) (In Thousands)

1. Organization and Summary of Significant Accounting Policies (continued)

Property and Equipment

Property and equipment are stated at cost or estimated fair value at date of contribution, less accumulated depreciation. Depreciation is provided on a straight-line basis over the estimated useful lives of the depreciable assets. The estimated useful lives of the assets are as follows:

Buildings	20 to 40 years
Building and leasehold improvements	5 to 15 years
Equipment	3 to 15 years

Interest costs incurred on borrowed funds less interest income earned on the unexpended bond proceeds during the period of construction are capitalized as a component of the cost of acquiring those assets.

Gifts of long-lived assets, such as land, buildings, or equipment, are reported as unrestricted support unless explicit donor stipulations specify how the donated assets must be used. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used and gifts of cash or other assets that must be used to acquire long-lived assets are reported as restricted support. Absent explicit donor stipulations about how long those long-lived assets must be maintained; expirations of donor restrictions are reported when the donated or acquired long-lived assets are placed in service.

Impairment of Long-Lived Assets

Long-lived assets, such as property, plant, and equipment, and purchased intangibles subject to amortization, are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by comparing the carrying amount of an asset to estimated undiscounted future cash flows expected to be generated by the asset. If the carrying amount of an asset exceeds its estimated future cash flows, an impairment charge is recognized in the amount by which the carrying amount of the asset exceeds the fair value of the asset. Assets to be disposed of would be separately presented in the consolidated balance sheets and reported at the lower of the carrying amount or fair value less costs to sell and are no longer depreciated. The assets and liabilities of a disposed group classified as held for sale would be presented separately in the appropriate asset and liability sections of the consolidated balance sheets.

Investments in Joint Ventures

When the Corporation does not have controlling interest over the operating and financial policies of the investee, but has significant influence over an entity, the Corporation applies the equity method of accounting, and operating results flow through equity in net income of joint ventures in the nonoperating income and expenses, net section of the consolidated Statement of Operations and Changes in Net Assets. Dividends received are recorded as a reduction in the carrying amount of the investment. Investments in joint ventures are reviewed for impairment whenever events or changes in circumstances indicate the carrying amount of the investment might not be recoverable.

Other Assets

Other Assets primarily includes reinsurance receivables (Note 15), Operating lease right of use (ROU) assets (Note 5), prepaid expenses, retirement plan assets and intangible assets, net of accumulated amortization.

Accrued Vacation

The Corporation's employees earn vacation days at varying rates depending on years of service. Vacation time accumulates up to certain limits, at which time no additional vacation hours can be earned. The Corporation records a liability within accrued payroll and benefits in the Consolidated Balance Sheets for amounts due to employees for future absences which are attributable to services performed in the current and prior periods.

Advances From Third-Party Payors

The Corporation receives advances from some of its third-party payors so that those payors can receive the stated prompt pay discount allowed for hospitals in the State of Maryland. Advances are recorded as a current liability in the consolidated balance sheets

Deferred Financing Costs

Costs incurred related to the issuance of long-term debt, which are included in long-term debt, are deferred and are amortized over the life of the related debt agreements or the related letter of credit agreements using the effective-interest method.

Notes to Consolidated Financial Statements (continued)

1. Organization and Summary of Significant Accounting Policies (continued)

Derivative Financial Instruments

The Corporation records derivative and hedging activities on the consolidated balance sheets at their respective fair values.

The Corporation utilizes derivative financial instruments to manage its interest rate risks associated with long-term debt. The Corporation does not hold or issue derivative financial instruments for trading purposes.

The Corporation's specific goals for its derivative financial instruments are to: (a) manage interest rate sensitivity by modifying the repricing or maturity characteristics of some of its debt, and (b) lower unrealized appreciation or depreciation in the market value of the Corporation's fixed-rate debt when that market value is compared with the cost of the borrowed funds. The effect of this unrealized appreciation or depreciation in market value; however, will generally be offset by the income or loss on the derivative instruments that are linked to the debt.

All derivative instruments are reported as interest rate swap liabilities or other assets in the consolidated balance sheets and measured at fair value. Currently, the Corporation is accounting for its interest rate swaps as economic hedges at fair value, with changes in the fair value recognized in other nonoperating income and expenses.

Self-Insurance

Under the Corporation's self-insurance programs (general and professional liability, workers' compensation, and employee health and long-term disability benefits), incurred claims are estimated primarily based upon actuarial methods which include incurred but not reported claims analysis and reported claims the severity of incidents and the expected timing of claim payments. These estimates are continually reviewed and adjusted as necessary based on experience. These adjustments are recorded within the current period operating income.

Net Assets

The Corporation classifies net assets based on the existence or absence of donor-imposed restrictions. Net assets without donor restrictions represent contributions, gifts, and grants, which have no donor-imposed restrictions or which arise as a result of operations. Net assets with donor restrictions are subject to donor-imposed restrictions that must or will be met either by satisfying a specific purpose and/or passage of time. Generally, the donors of these assets permit the use of all or part of the income earned on related investments for specific purposes. The restrictions associated with these net assets generally pertain to patient care, specific capital projects, and funding of specific hospital operations and community outreach programs.

Donor-Restricted Gifts

Unconditional promises to give cash and other assets to the Corporation are reported at fair value at the date the promise is received. Conditional promises to give and indications of intentions to give are reported at fair value at the date the promise becomes unconditional. Contributions are reported as net assets with donor restrictions if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction is satisfied, net assets with donor restrictions are reclassified as net assets without donor restrictions and reported in the consolidated statements of operations and changes in net assets as net assets released from restrictions. Such amounts are classified as other revenue or transfers and additions to property and equipment. Donor-restricted contributions whose restrictions are met within the same year as received are reported as unrestricted contributions on the accompanying consolidated statements of operations and changes in net assets. Contributed nonfinancial assets received from donors are subsequently monetized. Net assets also include endowments that are subject to donor-imposed restrictions that are to be maintained permanently by the Corporation.

Contributions to be received after one year are discounted at a fixed discount rate commensurate with the risks involved. An allowance for uncollectible contributions receivable is provided based upon management's judgment, including such factors as prior collection history, type of contributions, and nature of fund-raising activity.

Charity Care

The Corporation is committed to providing quality healthcare to all, regardless of one's ability to pay. Patients who meet the criteria of the Corporation's charity care policy receive services without charge or at amounts less than its established rates. The criteria for charity care consider the household income in relation to the federal poverty guidelines. The Corporation provides services at no charge for patients with adjusted gross income equal to or less than 200% of the federal poverty guidelines. For uninsured patients with adjusted gross income greater than 200% of the federal poverty guidelines, a sliding scale discount is applied. Income and asset information obtained from patient credit reporting data are used to determine patients' ability to pay. The Corporation maintains records to identify and monitor the level of charity care it furnished under its charity care policy.

The amounts reported as charity care represent the cost of rendering such services. Costs incurred are estimated based on the cost to charge ratio for each hospital and applied to charity care charges. The Corporation estimates the total direct and indirect costs to provide charity care were approximately \$52,818 and \$51,325 for the years ended June 30, 2024 and 2023, respectively.

Other Operating Revenue

Other operating revenue consists of pharmacy prescription sales, cafeteria sales, grant revenues, net assets released from restriction, and other non-patient service revenue.

Nonoperating Income and Expenses, Net

Other activities that are only indirectly related to the Corporation's primary business of delivering healthcare services are recorded as nonoperating income and expenses, and include income earned on long-term investments, equity in the net income of joint ventures, general donations and fund-raising activities, changes in fair value of investments, changes in fair value of undesignated interest rate swaps, and settlement payments on interest rate swaps that do not qualify for hedge accounting treatment.

Excess of Revenue over Expenses

The accompanying consolidated statements of operations and changes in net assets include a performance indicator, excess of revenues over expenses. Changes in net assets without donor restrictions that are excluded from the performance indicator, consistent with industry practice, include contributions of long-lived assets (including assets acquired using contributions, which, by donor restrictions, were to be used for the purpose of acquiring such assets), changes in the funded status of defined benefit pension plans, state support for capital, and other items that are required by generally accepted accounting principles to be reported separately.

Income Taxes

The Corporation and most of its subsidiaries are not-for-profit corporations formed under the laws of the State of Maryland, organized for charitable purposes and recognized by the Internal Revenue Service as tax-exempt organizations under Section 501(c)(3) of the Internal Revenue Code (the Code), pursuant to Section 501(a) of the Code. The effect of the taxable status of its for-profit subsidiaries is not material to the consolidated financial statements.

The Corporation follows a threshold of more likely than not for recognition and derecognition of tax positions taken or expected to be taken in a tax return. Management does not believe that there are any unrecognized tax liabilities or benefits that should be recognized.

Commitments and Contingencies

Liabilities for loss contingencies arising from claims, assessments, litigation, fines, penalties, and other sources are recorded when it is probable that a liability has been incurred and the amount can be reasonably estimated. Legal costs incurred in connection with loss contingencies are expensed as incurred.

Going Concern

Management evaluates whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Corporation's ability to continue as a going concern within one year after the date the consolidated financial statements are issued. As of the date of this report, there are no conditions or events that raise substantial doubt about the Corporation's ability to continue as a going concern.

Use of Estimates

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Reclassifications

Certain prior year amounts in the footnotes to the consolidated financial statements have been reclassified to conform to the current year presentation.

New and Recently Adopted Accounting Standards

In June 2016, the Financial Accounting Standards Board issued ASU 2016-13, *Financial Instruments – Credit Losses: Measurement of Credit Losses on Financial Instruments*. The previous standard delays the recognition of a credit loss on a financial asset until the loss is probable of occurring. The new standard removes the requirement that a credit loss be probable of occurring for it to be recognized, and requires entities to use historical experience, current conditions, and reasonable and supportable forecasts to estimate their future expected credit losses. The standard is required to be applied using the modified retrospective approach with a cumulative-effect adjustment to net assets, if any, upon adoption. ASU 2016-13 was effective for the Corporation July 1, 2023. There was no significant impact on the Corporation's consolidated financial statements during the year ended June 30, 2024.

2. Investments and Assets Limited as to Use (continued)

Self-insurance trust funds include amounts held by the Maryland Medicine Comprehensive Insurance Program (MMCIP) for payment of malpractice claims. These assets consist primarily of cash, stocks and fixed-income, corporate obligations, and alternative investments. MMCIP is a funding mechanism for the Corporation's malpractice insurance program. As MMCIP is not an insurance provider, transactions with MMCIP are recorded under the deposit method of accounting. Accordingly, the Corporation accounts for its participation in MMCIP by carrying limited-use assets representing the amount of funds contributed to MMCIP and recording a liability for claims, which is included in other current and other long-term liabilities in the accompanying consolidated balance sheets. These assets include the Corporation's portion of the investment pool shared with University of Maryland Faculty Physicians, Inc., which is part of the University of Maryland School of Medicine.

The related restricted cash and cash equivalents included in investments held for collateral, debt service and reserve funds, construction funds (held by trustee), funds restricted by donors, and other restricted use funds are included in the accompanying consolidated statements of cash flows for the years ended June 30, 2024 and 2023.

5. Leases

The Corporation determines if an arrangement is a lease at inception of the contract. Operating leases are included in other assets, other current liabilities, and other long-term liabilities on the consolidated balance sheets. Finance leases are included in property, plant, and equipment, other current liabilities, and other long-term liabilities on the accompanying consolidated balance sheets. The Corporation's leases primarily consist of real estate leases for medical and administrative office buildings.

University of Maryland Medical System Corporation and Subsidiaries

Notes to Consolidated Financial Statements (continued) (In Thousands)

5. Leases (continued)

Lease liabilities are recognized based on its present value, net of the future minimum lease payments over the lease term using the Corporation's incremental borrowing rate based on the information available at commencement. The ROU asset is derived from the lease liability and also includes any lease payments made and excludes lease incentives and initial direct costs incurred. Certain lease agreements for real estate include payments based on actual common area maintenance expenses, and others include rental payments adjusted periodically for inflation. These variable lease payments are recognized in purchased services, net, but are not included in the ROU asset or liability balances. Lease agreements may include one or more renewal options which are at the Corporation's sole discretion. The Corporation does not consider the renewal options to be reasonably likely to be exercised; therefore, they are not included in ROU assets and lease liabilities. Lease expense for minimum lease payments is recognized on a straight-line basis over the lease term for operating leases.

In accordance with ASC 842, *Leases*, the Corporation has elected to not recognize ROU assets and lease liabilities for short-term leases with a lease term of 12 months or less. The Corporation recognizes the lease payments associated with its short-term leases as an expense on a straight-line basis over the lease term. Variable lease payments associated with these leases are recognized and presented in the same manner as all other leases.

The following table summarizes the components of operating and finance lease assets and liabilities classified as current and noncurrent on the accompanying consolidated balance sheets:

7. Long-Term Debt and Other Borrowings (continued)

Pursuant to an Amended and Restated Master Loan Agreement, dated August 1, 2022 (UMMS Master Loan Agreement), the Corporation and several of its subsidiaries have issued debt through Maryland Health and Higher Educational Facilities Authority (MHHEFA or the Authority). As security for the performance of the bond obligation under the Master Loan Agreement, the The Obligated Group under the UMMS Master Loan Agreement includes the Medical Center, ROI, UM Midtown, UM Baltimore Washington, Shore Health (UM Easton and UM Cambridge), UM Chester River, UM Charles Regional, UM St. Joseph, UM Upper Chesapeake, UM Harford Memorial, UM Capital Region, UM Laurel, UM Bowie, and the UM Medicine Foundation. Each member of the Obligated Group is jointly and severally liable for the repayment of the obligations under the UMMS Master Loan Agreement.

The aggregate annual future maturities of long-term debt including mandatory bond tender, according to the original terms of the Master Loan Agreement and all other loan agreements, are as follows for the years ending June 30:

2025	\$ 125,449
2026	113,408

The Corporation's Series 2008D Bonds are variable rate demand bonds requiring a remarketing agent to purchase and remarket any bonds tendered before the stated maturity date. The reimbursement obligations with respect to the letters of credit are evidenced and secured by the bonds. To provide liquidity support for the timely payment of any bonds that are not successfully remarketed, the Corporation has entered into a letter-of-credit agreement with a banking institution. The agreement has a term that expires in 2027. If the bonds are not successfully

remarketed, the Corporation is required to pay an interest rate specified in the letter-of-credit agreement, and the principal repayment of bonds may be accelerated to require repayment in 48 months from the date of the failed remarketing. The Corporation has reflected the amount of its long-term debt that is subject to these short-term remarketing arrangements within the consolidated balance sheet according to the maturity of the bond's related letter of credit agreements. In the event that bonds are not remarketed, the Corporation maintains available letters of credit and has the ability to access other sources to obtain the necessary liquidity to comply with accelerated repayment terms. All variable rate demand bonds were successfully remarketed as of June 30, 2024 and 2023.

The approximate interest rates on outstanding debt bearing interest at variable rates were as follows:

8. Interest Rate Risk Management (continued)

Swaps #6, #7, #8 and #10 are forward starting swaps, whereas cash settlements do not commence until their effective dates in October and November 2028.

As of July 1, 2023, swap payments based on the 1-month London Interbank Offered Rate (LIBOR) have transitioned to the applicable SOFR fallback rate. For 1-month LIBOR, the fallback rate is calculated as daily SOFR compounded over 30 days plus 0.11448%. UMMS implemented this transition with all of its swap counterparties by adhering to the International Swap and Derivatives Association 2020 LIBOR fallbacks protocol.

The mark-to-market values of the Corporation's interest rate swaps include a valuation adjustment representing the creditworthiness of the counterparties to the swaps.

The Corporation recorded a net nonoperating gain on changes in the fair value of nonqualifying interest rate swaps of \$13,916 and \$35,020 for the years ended June 30, 2024 and 2023, respectively.

The swap agreements are included in the consolidated balance sheets at their fair value of \$55,170 and \$70,350 as of June 30, 2024 and 2023, respectively, an amount that is based on observable inputs other than quoted market prices in active markets for identical liabilities (Level 2 in the fair value hierarchy).

The Corporation is subject to a collateral posting requirement with two of its swap counterparties. Collateral posting requirements are based on the Corporation's long-term debt credit ratings, as well as the net liability position of total interest rate swap agreements outstanding with that counterparty. The amount of such posted collateral was \$4,419 and \$5,667 at June 30, 2024 and 2023, respectively. As of June 30, 2024 and 2023, the Corporation met its collateral posting requirement through the use of collateralized investments and cash equivalents, which were selected and purchased by the Corporation and subsequently transferred to the custody of the swap counterparty. The amount of posted investments that is required to meet the collateral requirement is computed daily and is accounted for as a component of the Corporation's assets limited as to use on the accompanying consolidated balance sheets as of that date. Any excess investment value is considered a component of the Corporation's unrestricted investment portfolio and is included in investments on the accompanying consolidated balance sheets as of that date.

9. Retirement Plans

Employees of the Corporation are included in various retirement plans established by the Corporation, the Medical Center, ROI, Midtown, Baltimore Washington, Shore Regional, Charles Regional, St. Joseph, Upper Chesapeake, and Capital Region. Participation by employees in their specific plan(s) has evolved based upon the organization by which they were first employed and the elections that they made at the times when their original employers became part of the Corporation. The following is a brief description of each of the retirement plans in which employees of the Corporation participate:

Defined Benefit Plans

The Corporation's defined benefit plans include the following:

University of Maryland Medical Center Midtown Campus Retirement Plan for Non-Union Employees (Midtown Plan) – A noncontributory defined benefit plan covering substantially all nonunion employees. In 2006, Midtown froze the defined benefit pension plan.

Civista Health Inc. Retirement Plan and Trust (Charles Regional Plan) – A noncontributory defined benefit pension plan covering employees that have worked at least one thousand hours per year during three or more plan years.

Baltimore Washington Medical Center Pension Plan (Baltimore Washington Plan) – A noncontributory defined benefit pension plan covering full-time employees who have been employed for at least one year and have reached 21 years of age.

On June 30, 2015, the Corporation amended the Baltimore Washington Medical Center Pension Plan to provide for the merger of the Midtown Plan and the Charles Regional Plan into the Baltimore Washington Plan and to change the name of the newly consolidated plan to the University of Maryland Medical System Corporate Pension Plan (the Corporate Plan). All provisions of the respective previous plans shall continue to apply to the respective applicable participants. All of the assets of the three formerly separate plans are now available to pay benefits for all participants under the newly consolidated Corporate Plan. In 2018, Baltimore Washington closed the defined benefit pension plan to new hires.

Effective December 31, 2022, the benefit accruals in both the Baltimore Washington and Charles Regional (non-union only) plans were frozen.

9. Retirement Plans (continued)

Dimensions Health Corporation Pension Plan (Capital Region Pension Plan) – A noncontributory defined benefit pension plan covering substantially all employees. For employees not covered under collective-bargaining agreements and employees who are represented by the 1199 SEIU Health Care Workers East – Health Care Workers union (formerly District 1199E-DC, SEIU union and formerly Local No. 63 union), the Plan operates as a cash balance plan. On December 31, 2007, the Capital Region Pension Plan was frozen. Effective August 30, 2023, all non-union Capital Region Pension Plan participants were spun off into a separate plan. In February 2024, UMMS terminated the non-union Capital Region Pension Plan and incurred a \$11,100 settlement charge recorded in other nonoperating losses on the consolidated statement of operations and changes in net assets.

The Corporation recognizes the funded status (i.e., the difference between the fair value of plan assets and projected benefit obligations) of its defined benefit pension plans as an asset or liability in its consolidated balance sheets. The Corporation recognizes changes in the funded status in the year in which the changes occur as changes in unrestricted net assets. All defined benefit pension plans use a June 30 measurement date.

The investment policies of the Corporation's pension plans incorporate asset allocation and investment strategies designed to earn superior returns on plan assets consistent with reasonable and prudent levels of risk. Investments are diversified across classes, sectors, and manager style to minimize the risk of loss. The Corporation uses investment managers specializing in each asset category, and regularly monitors performance and compliance with investment guidelines. In developing the expected long-term rate of return on assets assumption, the Corporation considers the current level of expected returns on risk-free investments, the historical level of the risk premium associated with the other asset classes in which the portfolio is invested, and the expectations for future returns of each asset class. The expected return for each asset class is then weighted based on the target allocation to develop the expected long-term rate of return on assets assumption for the portfolio.

The Corporation's pension plans' target allocation and weighted average asset allocations at the measurement date of June 30, 2024 and 2023, by asset category, are as follows:

Asset Category	Target Allocation	Percentage of Plan Assets as of June 30

Net assets were released from donor restrictions by expending funds satisfying the restricted purposes or by occurrence of other events specified by donors as follows:

	Year Ended June 30	
	2024	2023

Research, education, uncompensated care, and other	8,435	9,473
	\$ 18,700	\$ 13,421

As required by generally accepted accounting principles, net assets associated with endowment funds are classified and reported based on the existence or absence of donor-imposed restrictions.

The Board of Directors of the Corporation has interpreted Uniform Prudent Management of Institutional Funds Act (UPMIFA) in the State of Maryland as requiring the preservation of the fair value of the original gift as the gift date of the donor-restricted endowment funds, absent explicit donor stipulations to the contrary. As a result of this interpretation, the Corporation classifies as net assets with donor restrictions (a) the original value of gifts donated to the

The accrued liabilities for these programs were as follows:

15. Insurance (continued)

The Corporation provides for and funds the present value of the costs for professional and general liability claims and insurance coverage related to the projected liability from asserted and unasserted incidents, which the Corporation believes may ultimately result in a loss. In management's opinion, these accruals provide an adequate and appropriate loss reserve. The professional and general malpractice liabilities presented above include \$321,739 and \$297,272 as of June 30, 2024 and 2023, respectively, for which related insurance receivables have been recorded within other assets on the accompanying consolidated balance sheets.

The Corporation and each of its affiliates are self-insured for professional and general liability claims up to the limits of \$1,000 on individual claims and \$3,000 in the aggregate on an annual basis. For amounts in excess of these limits, the risk of loss has been transferred to Terrapin, an unconsolidated joint venture. Terrapin provides insurance for claims in excess of \$1,000 individually and \$3,000 in the aggregate up to \$164,000 individually and \$227,000 in the aggregate under claims made policies between the Corporation and Terrapin. For claims in excess of Terrapin's coverage limits, if any, the Corporation retains the risk of loss.

As discussed in Note 4, Terrapin is a joint venture corporation in which a 50% equity interest is owned by the Corporation and a 50% equity interest is owned by University of Maryland Faculty Physicians, Inc.

Total malpractice insurance expense, net of investment return on self-insurance trust funds, for the Corporation during the years ended June 30, 2024 and 2023, was approximately \$44,492 and \$63,970, respectively.

16. Business and Credit Concentrations

The Corporation provides healthcare services through its inpatient and outpatient care facilities, located in the State of Maryland. The Corporation generally does not require collateral or other security in extending credit; however, it routinely obtains assignment of (or is otherwise entitled to receive) patients' benefits receivable under their health insurance programs, plans, or policies (e.g., Medicare, Medicaid, Blue Cross, workers' compensation, health maintenance organizations (HMOs), and commercial insurance policies).

Notes to Consolidated Financial Statements (continued) (In Thousands)

16. Business and Credit Concentrations (continued)

The Corporation maintains cash accounts with highly rated financial institutions, which generally exceed federally insured limits. The Corporation has not experienced any losses from maintaining cash accounts in excess of federally insured limits and, as such, management does not believe the Corporation is subject to any significant credit risks related to this practice.

The Corporation had receivables from patients and third-party payors as follows:

	June 30	
	2024	2023
Medicare	32%	29%
Medicaid	26	29
Commercial insurance and HMOs	32	33
Self-pay and others	10	9
	100%	100%

The Corporation recorded net patient service revenues from patients and third-party payors as follows:

	Year Ended June 30	
	2024	2023
Medicare	42%	42%
Medicaid	23	23
Commercial insurance and HMOs	31	30

17. Certain Significant Risks and Uncertainties

The Corporation provides general acute healthcare services in the state of Maryland. The Corporation and other healthcare providers in Maryland are subject to certain inherent risks, including the following:

- Dependence on revenues derived from reimbursement by the federal Medicare and state Medicaid programs;
- Regulation of hospital rates by the State of Maryland HSCRC;
- Government regulation, government budgetary constraints, and proposed legislative and regulatory changes; and
- Lawsuits alleging malpractice and related claims.

Such inherent risks require the use of certain management estimates in the preparation of the Corporation's consolidated financial statements, and it is reasonably possible that a change in such estimates may occur.

The Medicare and state Medicaid reimbursement programs represent a substantial portion of the Corporation's revenues, and the Corporation's operations are subject to a variety of other federal, state, and local regulatory requirements. Failure to maintain required regulatory approvals and licenses and/or changes in such regulatory requirements could have a significant adverse effect on the Corporation.

Changes in federal and state reimbursement funding mechanisms and related government budgetary constraints could have a significant adverse effect on the Corporation.

The healthcare industry is subject to numerous laws and regulations from federal, state, and local governments. The Corporation's compliance with these laws and regulations can be subject to periodic governmental review and interpretation, which can result in regulatory action unknown or unasserted at this time. Management is aware of certain asserted and unasserted legal claims and regulatory matters arising in the ordinary course of business, none of which, in the opinion of management, are expected to result in losses in excess of insurance limits or have a materially adverse effect on the Corporation's financial position.

17. Certain Significant Risks and Uncertainties (continued)

The federal government and many states have aggressively increased enforcement under Medicare and Medicaid antifraud and abuse laws and physician self-referral laws (STARK law and regulation). Recent federal initiatives have prompted a national review of federally funded healthcare programs. In addition, the federal government and many states have implemented programs to audit and recover potential overpayments to providers from the Medicare and Medicaid programs. The Corporation has implemented a compliance program to monitor conformance with applicable laws and regulations, but the possibility of future government review and enforcement action exists.

The Corporation recognizes the increasing importance of cybersecurity in today's digital landscape. As a result, the Corporation has implemented various measures to mitigate the risk of cyber threats and protect our systems and data as well as monitor the risks that our vendors have. However, we understand that no system is completely immune to cyberattacks, and there is a possibility that an unauthorized access, data breach, or other cybersecurity incident may occur at either one of our systems or at one of vendors' systems. In the event of a significant cyber incident, there could be a significant impact to the Corporation's future operating results, financial condition, or liquidity. However, to mitigate the potential impact to the Corporation if such an event were to occur, the Corporation maintains cyber insurance coverage. While we believe our cybersecurity measures and our vendors' measures are robust, there can be no assurance that they will prevent all cyber threats or that there will not be a cyber incident in the future that may not have a significant adverse effect on our financial condition, liquidity, or results of operations.

In February 2024, one of the Corporation's vendors, Change Healthcare, experienced a cybersecurity event. Change Healthcare provides billing process assistance to the Corporation. Upon learning of this event, the Corporation immediately ceased all digital communications and connections with Change Healthcare, which hindered the Corporation's ability to transmit billing information to its patients and relevant third-party payors. Consequently, this disruption led to an increase in the Corporation's accounts receivables and a decline in cash flows.

To mitigate the impact on operational cash flows, the Corporation accessed its revolving line of credit periodically during the disruption, ensuring that all disbursements were made in a timely manner. As of June 30, 2024, no outstanding balances remained on the revolving line of credit. The Corporation has included provisions for the financial impact of these events in its consolidated financial statements and, while the Corporation incurred operational interruptions associated with the event, it believes that the resolution of this matter, based on the facts available to us at this

time, will not have a material adverse effect on the consolidated financial statements. This disclosure does not account for any potential future developments, such as fines, claims, or other unforeseen issues related to this event.

18. Maryland Health Services Cost Review Commission

Effective July 1, 2013, the Health System and the HSCRC agreed to implement the Global Budget Revenue (GBR) methodology for the following hospitals: Medical Center, ROI, UM Midtown, UM Baltimore Washington, UM Charles Regional, UM St. Joseph, UM Easton, UM Cambridge, UM Chester River, Shore Emergency Center, UM Upper Chesapeake, UM Harford Memorial, UM Upper Chesapeake Medical Center Aberdeen, UM Capital Region, UM Laurel, and UM Bowie. The agreements will continue each year and on July 1 of each year thereafter; the agreements will renew for a one-year period unless they are canceled by the HSCRC or by the Corporation. The agreements were in place for the years ended June 30, 2024 and 2023. The GBR model is a revenue constraint and quality improvement system designed by the HSCRC to provide hospitals with strong financial incentives to manage their resources efficiently and effectively in order to slow the rate of increase in healthcare costs and improve healthcare delivery processes and outcomes. The GBR model is consistent with the Corporation's mission to provide the highest value of care possible to its patients and the communities it serves.

The GBR agreements establish a prospective, fixed revenue base "GBR cap" for the upcoming year. This includes both inpatient and outpatient regulated services. Under GBR, a hospital's revenue for all HSCRC regulated services is predetermined for the upcoming year, regardless of changes in volume, service mix intensity, or mix of inpatient or outpatient services that occurred during the year. The GBR agreement allows the Corporation to adjust unit rates, within certain limits, to achieve the overall revenue base for the Corporation at year-end. Any overcharge or undercharge versus the GBR cap is prospectively subtracted from the subsequent year's GBR cap. Although the GBR cap is fixed each year, it does not adjust for changes in volume or service mix. The GBR cap is also adjusted annually for inflation, and for changes in payor mix and uncompensated care. The Corporation will receive an annual adjustment to its cap for the change in population in the Corporation's service areas. GBR is designed to encourage hospitals to operate efficiently by reducing excess utilization and managing patients in the appropriate care delivery setting. The HSCRC also may impose various other revenue adjustments, which could be significant in the future.
