

**SUPPLEMENTAL SCHEDULE 7**

**Meritus Medical Center**

**For The Fiscal Year Ended June 30, 2019**

Name of Outpatient Service	Description of Services Provided	Physical Location/Address	Regulated/Unregulated
Ambulatory Services/PICC	Care of patients with medical conditions that do not require hospital admission and can be managed w/o admission to the hospital.	11116 Medical Campus Road Hagerstown, MD 21742	Regulated
Emergency Psych Services	Individuals currently under the care of another mental health provider may use Emergency Psychiatric Services if required when their own counselors are unavailable. All patients are seen by an Emergency Department physician and a master's-prepared mental health professional to assess both the patient's physical and mental stress. Patients are always referred to the least restrictive environment. They usually return home and are referred back to their own counselors or referred to the appropriate level of care.	11116 Medical Campus Road Hagerstown, MD 21742	Regulated
Cardiac Rehab	The Cardiac Rehabilitation Program is a lifestyle modification and rehabilitation program for patients recovering from a heart attack, coronary bypass surgery or balloon angioplasty. Our program is nationally certified by the American Association of Cardiovascular and Pulmonary Rehabilitation (AACVPR).	11116 Medical Campus Road Hagerstown, MD 21742	Regulated
IV Therapy/Infusion Center	At Meritus Medical Center, the Infusion Center addresses the medical needs of those in our community who have complex medication, hydration, or transfusion needs. As the premier infusion service in our region, the Infusion Center offers the administration of blood, blood products, hydration, intravenous specialty medications, and injections. The center also maintains implanted vein devices.	11116 Medical Campus Road Hagerstown, MD 21742	Regulated
Ostomy/Wound Clinic	The Wound Center team specializes in the following: Diabetic foot ulcers and leg ulcers, bone infections, preparation and preservation of skin grafts or flaps in compromised tissue, crush injuries, and thermal burns. Our staff addresses the medical aspects of ostomy care by treating any skin problems, helping patients choose the pouching accessories most appropriate for them, and by ensuring that the ostomy accessories are working properly. Our staff also teaches patients how to manage skin problems themselves, where to buy supplies, and how to navigate everyday life or even travel with an ostomy.	11116 Medical Campus Road Hagerstown, MD 21742	Regulated
Behavioral Health Services	Behavioral Health Services of Meritus Medical Center is an easy-to-access, comprehensive resource for wellness education, mental health and addictions treatment in the quad - state region. Services span a continuum of care that encompasses normal life transitions and stress reactions through conditions requiring acute inpatient treatment.	11116 Medical Campus Road Hagerstown, MD 21742	Regulated
Same Day Surgery	Outpatient surgery that does not require an overnight hospital stay.	11116 Medical Campus Road Hagerstown, MD 21742	Regulated
Laboratory	Performs various laboratory tests on outpatients seen at the hospital.	11116 Medical Campus Road Hagerstown, MD 21742	Regulated
Emergency Services	Performs minor care to advanced trauma care to any patient presenting at the Emergency Department.	11116 Medical Campus Road Hagerstown, MD 21742	Regulated
Labor & Delivery	Provides outpatient monitoring and observation services to obstetrical patients with pregnancy complications prior to labor.	11116 Medical Campus Road Hagerstown, MD 21742	Regulated
Operating Room	Performs various outpatient surgical procedures including Bariatric, Cysto, Dental, General Surgery, Neurosurgery, OB-GYN, Ophthalmology, Oral, Orthopedics, Plastic, Podiatry, Urology, Vascular and Thoracic procedures.	11116 Medical Campus Road Hagerstown, MD 21742	Regulated
Anesthesia	Provides anesthesia services to patients who are going to undergo outpatient surgery.	11116 Medical Campus Road Hagerstown, MD 21742	Regulated
ECG	Performs Electrocardiography procedures for patients not requiring admission to the hospital.	11116 Medical Campus Road Hagerstown, MD 21742	Regulated
Cardiac Cath Lab	In Meritus Medical Center's cath lab, cardiologists perform diagnostic heart catheterizations and angioplasties to stop heart attacks and to prevent them from happening. The cath lab is staffed by a team of cardiac nurses and interventional cardiologists from Hagerstown Heart, CardioCare, and Robinwood Heart, who are on call at all hours of the day and night to provide life-saving care for patients who would have previously been transferred to another medical center for treatment.	11116 Medical Campus Road Hagerstown, MD 21742	Regulated
Invasive Radiology	Interventional Radiology is a subspecialty of the radiology department in which minimally invasive procedures are performed using image guidance. Some of these procedures are done for diagnostic purposes and others are done for treatment purposes. Examples of interventional procedures include angiograms, angioplasties, catheter placements and biopsies. Interventional procedures can be performed using the various imaging modalities. These include fluoroscopy, Computed Tomography (CT), Ultrasound (US), and Magnetic Resonance Imaging (MRI).	11116 Medical Campus Road Hagerstown, MD 21742	Regulated
Radiology	Provides routine tests to complex diagnostic and treatment tools to those patients not requiring admission to the hospital.	11116 Medical Campus Road Hagerstown, MD 21742	Regulated

Name of Outpatient Service	Description of Services Provided	Physical Location/Address	Regulated/Unregulated
CT Scan	Provides our patients with access to one of the fastest, most advanced computed tomography (CT) scanners on the market.	11116 Medical Campus Road Hagerstown, MD 21742	Regulated
MRI	Provides Magnetic Resonance Imaging to outpatients which visualizes the internal structure & function of the body.	11116 Medical Campus Road Hagerstown, MD 21742	Regulated
Lithotripsy	Provides outpatient Lithotripsy procedures to those patients not requiring admission to the hospital.	11116 Medical Campus Road Hagerstown, MD 21742	Regulated
Radiation Therapy	An outpatient service that uses ionized radiation as part of cancer treatment to control malignant cells.	11116 Medical Campus Road Hagerstown, MD 21742	Regulated
Nuclear Medicine	A branch of medical imaging that uses radioactive isotopes and relies on the process of radioactive decay in the diagnosis and treatment of disease.	11116 Medical Campus Road Hagerstown, MD 21742	Regulated
Respiratory Care	Provide specialized diagnostic and therapeutic services for patients with acute and chronic conditions that affect the respiratory system.	11116 Medical Campus Road Hagerstown, MD 21742	Regulated
Pulmonary Function	Provide specialized diagnostic and therapeutic services for patients with acute and chronic conditions that affect the respiratory system.	11116 Medical Campus Road Hagerstown, MD 21742	Regulated
EEG	Performs Electroencephalography procedures for patients not requiring admission to the hospital.	11116 Medical Campus Road Hagerstown, MD 21742	Regulated
Hyperbaric HBO	Hyperbaric oxygen therapy is increasingly being used to treat chronic foot wounds, other slow-healing wounds, and diseased tissues. A treatment plan is tailored to each patient and the number of treatments will be based on individual needs. Therapy is supervised by a specially-trained physician, while a technician remains in the room and monitors the treatments.	11116 Medical Campus Road Hagerstown, MD 21742	Regulated
Speech Therapy	Therapists work closely with patients and families to develop a personalized treatment plan to facilitate recovery and help patients improve or regain speaking ability. Speech therapists work with the individual to improve comprehension and memory skills, problem solving, the ability to swallow, and the ability to speak clearly. They also help patients to improve or regain functional language, communication, cognition, and/or swallowing skills so as to be more successful in the home, classroom or work, and the community.	11116 Medical Campus Road Hagerstown, MD 21742	Regulated
Physical Therapy	Our therapists work closely with patients and families to develop a personalized treatment plan to rebuild strength and coordination, and help patients return to activities they enjoy. Physical therapists help patients to improve motor skills, strength, endurance, balance, and independence.	11116 Medical Campus Road Hagerstown, MD 21742	Regulated
Occupational Therapy	Occupational therapists will work to improve self-care skills, cognitive skill, upper body strength, endurance, independence, personal safety, and to promote lifestyle management. Our occupational therapists work closely with patients and families to develop a personalized treatment plan.	11116 Medical Campus Road Hagerstown, MD 21742	Regulated
John R. Marsh Cancer Center	The John R. Marsh Cancer Center is where hope begins for many patients who are battling cancer. Our mission is to heal our patients while helping them continue to live their lives to the fullest. When it comes to treating cancer, we have some of the most advanced treatments and technology available. From nationally renowned oncology specialists to an infusion solarium and meditation garden, our center is the place where patients and families come to find healing, compassion, and comfort. To help patients gain access to care, the John R. Marsh Cancer Center uses nurse navigators to assist patients at all stages of cancer care, from screening and diagnosis to treatment and survivorship.	11110 Medical Campus Rd, Ste 129 Hagerstown, MD 21742	Regulated
Home Health Care	We offer a variety of in-home services and resources to help clients remain independent and safe in the comfort of their own homes. Home Health care also helps patients find the resources that insurance plans, Medicare, and other agencies will cover.	1799 Howell Rd Hagerstown, MD 21740	Unregulated

Meritus Digestive Health Specialists	At Meritus Digestive Health Specialists, we believe that a team approach is the best way to provide our patients with superior medical care to treat problems within the digestive tract—the esophagus, stomach, liver, bile ducts, intestines, pancreas, and gall bladder. While the digestive tract is sometimes evaluated as an independent organ, it is viewed in relation to the body's other systems. For this reason, the gastroenterologists are board certified in both internal medicine and gastroenterology. They specialize in the diagnosis and treatment of medical conditions within any part of the digestive system. In addition to diagnosis and treatment, our practice performs screening tests like colonoscopies and endoscopies.	11110 Medical Campus Road Suite 246 Hagerstown, MD 21742	Unregulated
Meritus Family Medicine - Robinwood	The physicians of Meritus Family Medicine provide primary care services to patients of all ages.
