

DRAFT Hospital-specific PSA Plus Maps 6/28/17

Please note that these are NOT FINAL geographies but represent current geographic analyses as of 6/28/17.

Description: Each page in this document contains a map displaying the hospital's draft PSA Plus service area. The areas shaded in green represent PSAs selected by the hospital in GBR agreements. The areas shaded in yellow represent zip codes assigned to the hospital through the plurality of equivalent case-mix adjusted discharges (ECMADs) in zip codes unclaimed by any hospital's PSA. Drive time analyses to limit the distant plurality-assigned zip codes are underway. To see an example of a service area PSA Plus approach that may work without additional adjustments, see Medstar St Marys on pg. 26. To see examples of some distant plurality-assigned zip codes that may not make sense, see University of MD on pg 46.
