Meeting Recap

Dr. Cheng opened the meeting and reminded the Task Force members that the Task Force will have to submit an interim progress report after the November Task Force meeting. Laura Goodman (Medicaid) and Drs. Samit Desai and Sheena Patel (CRISP) then presented on the work that their respective agencies are doing around maternal and child health. The Task Force spent a majority of the meeting discussing the Medicaid and CRISP presentations and asking the presenters questions. With the 15 minutes remaining after the presentations, the Task Force members reviewed the work of the subgroups and identified priorities for the next meeting.
