SCHEDULE H, PART I, LINE 3C - CRITERIA FOR FREE OR DISCOUNTED CARE	UM CAPITAL REGION IS COMMITTED TO PROVIDING FINANCIAL ASSISTANCE TO PERSONS WHO HAVE HEALTH CARE NEEDS AND ARE UNINSURED, UNDERINSURED, INELIGIBLE FOR A GOVERNMENT PROGRAM, OR OTHERWISE UNABLE TO PAY, FOR MEDICALLY NECESSARY CARE BASED ON THEIR INDIVIDUAL FINANCIAL SITUATION. IN ADDITION TO FPG, THE INCOME LEVELS DEFINED BY THE MARYLAND STATE DEPARTMENT OF HEALTH AND MENTAL HYGIENE (MD DHMH) ARE USED TO DETERMINE ELIGIBILITY FOR FINANCIAL ASSISTANCE. THE MD DHMH INCOME LEVELS ARE MORE GENEROUS THAN THE FPG INCOME LEVELS. THE FAP ALSO USES A FINANCIAL HARDSHIP THRESHOLD WHEN DETERMINING ELIGIBILITY. A PATIENT WITH MEDICAL DEBT EXCEEDING 25% OF FAMILY ANNUAL HOUSEHOLD INCOME MAY BE ELIGIBLE FOR FINANCIAL ASSISTANCE.
SCHEDULE H, PART I, LINE 5A - BUDGET FOR CHARITY CARE	THE ORGANIZATION DOESN'T BUDGET A PRESET PERCENTAGE FOR CHARITY CARE. THE HEALTH SERVICES COST REVIEW COMMISSION, (HSCRC) DETERMINES PAYMENT THROUGH A RATE SETTING PROCESS AND ALL PAYORS, INCLUDING GOVERNMENTAL PAYORS, PAY THE SAME AMOUNT FOR THE SAME SERVICES DELIVERED AT THE SAME HOSPITAL. MARYLAND'S UNIQUE ALL PAYOR SYSTEM INCLUDES A METHOD FOR REFERENCING UNCOMPENSATED CARE IN EACH PAYORS' RATES, WHICH DOES NOT ENABLE MARYLAND HOSPITALS TO BREAKOUT ANY OFFSETTING REVENUE RELATED TO UNCOMPENSATED CARE. COMMUNITY BENEFIT EXPENSES ARE EQUAL TO MEDICAID REVENUES IN MARYLAND, AS SUCH, THE NET EFFECT IS ZERO. ADDITIONALLY, NET REVENUES FOR MEDICAID SHOULD REFLECT THE FULL IMPACT ON THE HOSPITAL OF ITS SHARE OF THE MEDICAID ASSESSMENT.

<p>SCHEDULE H, PART III, LINE 4 - FOOTNOTE IN ORGANIZATION'S FINANCIAL STATEMENTS DESCRIBING BAD DEBT</p>	<p>THE CORPORATION RECORDS REVENUES AND ACCOUNTS RECEIVABLE FROM PATIENTS AND THIRD-PARTY PAYORS AT THEIR ESTIMATED NET REALIZABLE VALUE. REVENUE IS REDUCED FOR ANTICIPATED DISCOUNTS UNDER CONTRACTUAL ARRANGEMENTS AND FOR CHARITY CARE. AN ESTIMATED PROVISION FOR BAD DEBTS IS RECORDED IN THE PERIOD THE RELATED SERVICES ARE PROVIDED BASED UPON ANTICIPATED UNCOMPENSATED CARE, AND IS ADJUSTED AS ADDITIONAL INFORMATION BECOMES AVAILABLE.</p> <p>THE PROVISION FOR BAD DEBTS IS BASED UPON MANAGEMENT'S ASSESSMENT OF HISTORICAL AND EXPECTED NET COLLECTIONS CONSIDERING HISTORICAL BUSINESS AND ECONOMIC CONDITIONS, TRENDS IN HEALTHCARE COVERAGE, AND OTHER COLLECTION INDICATORS. PERIODICALLY THROUGHOUT THE YEAR, MANAGEMENT ASSESSES THE ADEQUACY OF THE ALLOWANCE FOR UNCOLLECTIBLE ACCOUNTS BASED UPON HISTORICAL WRITE-OFF EXPERIENCE BY PAYOR CATEGORY. THE RESULTS OF THIS REVIEW ARE THEN USED TO MAKE MODIFICATIONS TO THE PROVISION FOR BAD DEBTS AND TO ESTABLISH AN ALLOWANCE FOR UNCOLLECTIBLE RECEIVABLES. AFTER COLLECTION OF AMOUNTS DUE FROM INSURERS, THE CORPORATION FOLLOWS INTERNAL GUIDELINES FOR PLACING CERTAIN PAST DUE BALANCES WITH COLLECTION AGENCIES.</p> <p>FOR RECEIVABLES ASSOCIATED WITH SERVICES PROVIDED TO PATIENTS WHO HAVE THIRD-PARTY COVERAGE, THE CORPORATION ANALYZES CONTRACTUALLY DUE AMOUNTS AND PROVIDES AN ALLOWANCE FOR BAD DEBTS, ALLOWANCE FOR CONTRACTUAL ADJUSTMENTS, PROVISION FOR BAD DEBTS, AND CONTRACTUAL ADJUSTMENTS ON ACCOUNTS FOR WHICH THE THIRD-PARTY PAYOR HAS NOT YET PAID OR FOR PAYORS WHO ARE KNOWN TO BE HAVING FINANCIAL DIFFICULTIES THAT MAKE THE REALIZATION OF AMOUNTS DUE UNLIKELY. FOR RECEIVABLES ASSOCIATED WITH SELF-PAY PATIENTS OR WITH BALANCES REMAINING AFTER THE THIRD-PARTY COVERAGE HAD ALREADY PAID, THE CORPORATION RECORDS A SIGNIFICANT PROVISION FOR BAD DEBTS IN THE PERIOD OF SERVICE ON THE BASIS OF ITS HISTORICAL COLLECTIONS, WHICH INDICATES THAT MANY PATIENTS ULTIMATELY DO NOT PAY THE PORTION OF THEIR BILL FOR WHICH THEY ARE FINANCIALLY RESPONSIBLE. THE DIFFERENCE BETWEEN THE DISCOUNTED RATES AND THE AMOUNTS COLLECTED AFTER ALL REASONABLE COLLECTION EFFORTS HAVE BEEN EXHAUSTED IS CHARGED AGAINST THE ALLOWANCE FOR DOUBTFUL ACCOUNTS.</p>
<p>SCHEDULE H, PART III, LINE 8 - DESCRIBE EXTENT ANY SHORTFALL FROM LINE 7 TREATED AS COMMUNITY BENEFIT AND COSTING METHOD USED</p>	<p>THE ORGANIZATION FILES ANNUALLY A COMMUNITY BENEFIT REPORT WITH THE STATE OF MARYLAND'S HEALTH SERVICES COST REVIEW COMMISSION (HSCRC). THE HSCRC, WHICH OPERATES UNDER A MEDICARE WAIVER, DOES NOT CONSIDER MEDICARE SHORTFALL AS COMMUNITY BENEFIT. THE COSTING METHODOLOGY USED BY THE ORGANIZATION IS A COST-TO-CHARGE RATIO.</p>
<p>SCHEDULE H, PART III, LINE 9B - DID COLLECTION POLICY CONTAIN PROVISIONS ON COLLECTION PRACTICES FOR PATIENTS WHO ARE KNOWN TO QUALIFY FOR ASSISTANCE</p>	<p>THE ORGANIZATION EXPECTS PAYMENT AT THE TIME THE SERVICE IS PROVIDED. EMERGENCY SERVICES WILL BE PROVIDED TO ALL PATIENTS REGARDLESS OF ABILITY TO PAY. FINANCIAL ASSISTANCE IS AVAILABLE FOR PATIENTS BASED ON FINANCIAL NEED AS DEFINED IN THE FINANCIAL ASSISTANCE POLICY. THE ORGANIZATION DOES NOT DISCRIMINATE ON THE BASIS OF AGE, RACE, CREED, SEX OR ABILITY TO PAY.</p> <p>PATIENTS WHO ARE UNABLE TO PAY MAY REQUEST A FINANCIAL ASSISTANCE APPLICATION AT ANY TIME PRIOR TO SERVICE OR DURING THE BILLING AND COLLECTION PROCESS, EVEN IN EXCESS OF 240 DAYS FOLLOWING THE FIRST POST-DISCHARGE BILLING STATEMENT. THE ORGANIZATION MAY REQUEST THE PATIENT TO APPLY FOR MEDICAL ASSISTANCE PRIOR TO APPLYING FOR FINANCIAL ASSISTANCE. THE ACCOUNT WILL NOT BE FORWARDED FOR COLLECTION DURING THE MEDICAL ASSISTANCE APPLICATION PROCESS OR THE FINANCIAL ASSISTANCE APPLICATION PROCESS. NO EXTRAORDINARY COLLECTION ACTIONS (ECAS) WILL OCCUR EARLIER THAN 120 DAYS FROM SUBMISSION OF FIRST BILL TO THE PATIENT AND WILL BE PRECEDED BY NOTICE 30 DAYS PRIOR TO COMMENCEMENT OF THE ACTION. AVAILABILITY OF FINANCIAL ASSISTANCE WILL BE COMMUNICATED TO THE PATIENT AND A PRESUMPTIVE ELIGIBILITY REVIEW WILL OCCUR PRIOR TO ANY ACTION BEING TAKEN. IF A PATIENT IS DETERMINED TO BE ELIGIBLE FOR FINANCIAL ASSISTANCE AFTER AN ECA IS INITIATED, THE ORGANIZATION WILL TAKE REASONABLE MEASURES TO REVERSE THE ECAS AGAINST THE PATIENT ACCOUNT.</p>
<p>SCHEDULE H, PART VI, LINE 2 - NEEDS ASSESSMENT</p>	<p>THE JOINT CHNA PROCESS WAS DEVELOPED TO 1) MAXIMIZE COMMUNITY INPUT, 2) LEARN FROM THE COMMUNITY EXPERTS, 3) UTILIZE EXISTING DATA, AND 4) ENSURE A COMPREHENSIVE PRIORITIZATION PROCESS. THE ASSESSMENT UTILIZED A ROBUST AND IN-DEPTH EXTRACTION OF QUANTITATIVE AND QUALITATIVE DATA, AS AVAILABLE. THE JOINT COUNTY-WIDE CHNA PROVIDES THE REQUIRED DATA AND INFORMATION FOR THE HOSPITALS TO USE. EACH HOSPITAL USED THE DATA COLLECTED IN THE CHNA PROCESS TO 1) IDENTIFY THEIR GEOGRAPHICAL PRIORITY ISSUES; 2) DEVELOP AND IMPLEMENT STRATEGIES AND ACTION PLANS FOR EACH PRIORITY ISSUE, AND 3) ESTABLISH ACCOUNTABILITY TO ENSURE MEASURABLE HEALTH IMPROVEMENT.</p> <p>IN ADDITION TO THE CHNA PROCESS, UM CAPITAL ASSEMBLED A COMMUNITY BENEFIT STEERING COMMITTEE TO REVIEW THE RESULTS OF THE COMMUNITY HEALTH NEEDS ASSESSMENT AND COLLABORATIVELY AND STRATEGICALLY FURTHER ASSESS THE COMMUNITY HEALTH NEEDS SPECIFIC TO OUR COMMUNITY BENEFIT SERVICE AREAS. Report of Independent Auditors

The Board of Directors
University of Maryland Medical System Corporation

We have audited the accompanying consolidated financial statements of the University of Maryland Medical System Corporation and Subsidiaries (the Corporation), which comprise the consolidated balance sheet as of June 30, 2020, and the related consolidated statement of operations and changes in net assets, and cash flows for the year then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in conformity with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

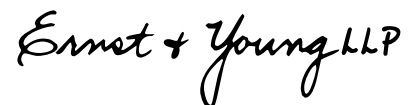

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of the University of Maryland Medical System Corporation and Subsidiaries as of June 30, 2020, and the consolidated results of their operations, changes in net assets and their cash flows for the year then ended in conformity with U.S. generally accepted accounting principles.

Adoption of New Accounting Pronouncement

As discussed in Note 1(y) to the consolidated financial statements, the Corporation changed its method of accounting for leases as a result of the adoption of the amendments to the Financial Accounting Standards Board Accounting Standards Codification resulting from Accounting Standards Update No. 2016-02, *Leases*, effective July 1, 2019. Our opinion is not modified with respect to this matter.

Report of Other Auditors on June 30, 2019 Financial Statements

The consolidated financial statements of the University of Maryland Medical System Corporation and Subsidiaries for the year ended June 30, 2019, were audited by other auditors who expressed an unmodified opinion on those statements on October 28, 2019.

(1) Organization and Summary of Significant Accounting Policies

(a) Organization

The University of Maryland Medical System Corporation (the Corporation or UMMS) is a private, not-for-profit corporation providing comprehensive healthcare services through an integrated regional network of hospitals and related clinical enterprises. UMMS was created in 1984 when its founding hospital was privatized by the State of Maryland. Prior to that time, the founding hospital was state-owned, operated and financed as part of the University of Maryland, now a part of the University System. As part of the privatization process, the Maryland General Assembly and the University of Maryland's Board of Regents adopted legislation (the Governance Legislation) separating the major health care delivery components from the University System to UMMS. This Governance Legislation provides for certain level of oversight by the State of Maryland to ensure UMMS' founding purposes are consistently set forth in its functions and operating practices.

Over its 35-year history, UMMS evolved into a multi-hospital system with academic, community and specialty service missions reaching primarily across Maryland. In continuing partnership with the University of Maryland School of Medicine, UMMS operates healthcare programs that improve the physical and mental health of thousands of people each day.

The accompanying consolidated financial statements include the accounts of the Corporation, its wholly owned subsidiaries, and entities controlled by the Corporation. In addition, the Corporation maintains equity interests in various unconsolidated joint ventures, which are described in Note 5. The significant operating divisions of the Corporation are described in further detail below.

All material intercompany balances and transactions have been eliminated in consolidation.

(1) Organization and Summary of Significant Accounting Policies (continued)

(i) Recent Acquisitions and Divestitures

During the year ended June 30, 2020, the Corporation signed a letter of intent to sell the assets and liabilities of UM Health Plans. The sale, which will include both the Medicaid Plan and Medicare Advantage Plan, is expected to be completed within the next 12 months. Based on the criteria in Accounting Standards Codification (ASC) 205, *Discontinued Operations*, it was determined that the pending sale met the criteria for discontinued operations treatment. The carrying amount of the assets and liabilities held for sale are stated at their net realizable value as of June 30, 2020 and any gain or loss on the sale is considered to be immaterial to the consolidated financial statements of the Corporation. As of June 30, 2020 and 2019, assets held for sale were approximately \$149,600 and \$116,800 and liabilities held for sale were approximately \$65,500 and \$60,800, respectively. For the years ended June 30, 2020 and 2019, operating revenues from discontinued operations were approximately \$361,618 and \$379,630, respectively. For the years ended June 30, 2020 and 2019, operating and nonoperating expenses from discontinued operations were approximately \$342,019 and \$405,477, respectively.

Effective March 1, 2020, the Corporation purchased the full interest in nine urgent care sites from ChoiceOne, which is a subsidiary of Fresenius Medical Care. Previously the urgent care sites were operated under a joint venture agreement between ChoiceOne and three affiliates: UM St. Joseph Medical Center, UM Shore Regional Health and UM Upper Chesapeake Health. Upon becoming a wholly-owned subsidiary of the Corporation, the nine sites were moved under one Company, University of Maryland Ambulatory Care, LLC (UM Ambulatory Care).

(ii) University of Maryland Medical Center (Medical Center)

The Medical Center, which is a major component of UMMS, is a 806-bed academic medical center located in Baltimore. The Medical Center has served as the teaching hospital of the School of Medicine of the University System of Maryland, Baltimore since 1823. As part of the privatization in 1984, only clinical faculty members of the School of Medicine may serve as medical staff of the Medical Center.

(1) Organization and Summary of Significant Accounting Policies (continued)

The Medical Center is comprised of two operating divisions: University Hospital, which includes the Greenebaum Cancer Center, and Shock Trauma Center. University Hospital, which generates approximately 80% of the Medical Center's admissions and patient days, is a tertiary teaching hospital providing over 70 clinical services and programs. The Greenebaum Cancer Center specializes in the treatment of cancer patients and is a site for clinical cancer research. The Shock Trauma Center, which specializes in emergency treatment of patients suffering severe trauma, generates approximately 20% of admissions and patient days.

The Medical Center's operations include UniversityCARE, LLC (UCARE), a physician hospital organization of which the Corporation owns a majority ownership interest and therefore consolidates, and 36 South Paca Street, LLC, a wholly owned subsidiary of the Corporation that operates a residential apartment building.

The Corporation has certain agreements with various departments of the University of Maryland School of Medicine concerning the provision of professional and administrative services to the Corporation and its patients. Total expense under these agreements in the years ended June 30, 2020 and 2019 was approximately \$168,438 and \$159,043, respectively.

(b) Basis of Presentation

The consolidated financial statements are prepared on the accrual basis of accounting in accordance with U.S. generally accepted accounting principles.

(c) Cash and Cash Equivalents

Cash and cash equivalents, excluding amounts shown within investments and assets limited as to use, consist of cash and interest-bearing deposits with maturities of three months or less from the date of purchase. Cash and cash equivalent balances may exceed amounts insured by federal agencies and, therefore, bear a risk of loss. The Corporation has not experienced such losses on these funds.

(d) Investments and Assets Limited as to Use

The Corporation's investment portfolios are classified as trading and are reported in the consolidated balance sheets, as long-term assets, at their fair value, based on quoted market prices, at June 30, 2020 and 2019. Unrealized holding gains and losses on trading securities with readily determinable market values are included in nonoperating income. Investment income, including realized gains and losses, is included in nonoperating income in the accompanying consolidated statements of operations and changes in net assets.

(1) Organization and Summary of Significant Accounting Policies (continued)

Assets limited as to use include investments set aside at the discretion of the board of directors for the replacement or acquisition of property and equipment, investments held by trustees under bond indenture agreements and self-insurance trust arrangements, and assets whose use is restricted by donors. Such investments are stated at fair value. Amounts required to meet current liabilities have been included in current assets in the consolidated balance sheets. Changes in fair values of donor-restricted investments are recorded in net assets with donor restrictions unless otherwise required by the donor or state law.

Assets limited as to use also include the Corporation's economic interests in financially interrelated organizations (Note 13).

Alternative investments, which the Corporation defines to include multi-strategy commingled funds, hedge funds, hedge fund-of-funds, and private equity investments, are recorded under the equity method of accounting. Underlying securities of these alternative investments may include certain debt and equity securities that are not readily marketable. Because certain investments are not readily marketable, their fair value is subject to additional uncertainty, and therefore, values realized upon disposition may vary significantly from current reported values.

Investments are exposed to certain risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, changes in the value of investment securities could occur in the near term, and these changes could materially differ from the amounts reported in the accompanying consolidated financial statements.

(e) Inventories

Inventories, consisting primarily of drugs and medical/surgical supplies, are carried at the lower of cost or market, on a first-in, first-out basis.

(f) Economic Interests in Financially Interrelated Organizations

The Corporation recognizes its rights to assets held by recipient organizations, which accept cash or other financial assets from a donor and agree to use those assets on behalf of or transfer those assets, the return on investment of those assets, or both, to the Corporation. Changes in the Corporation's economic interests in these financially interrelated organizations are recognized in the accompanying consolidated statements of changes in net assets.

(g) Property and Equipment

Property and equipment are stated at cost or estimated fair value at date of contribution, less accumulated depreciation. Depreciation is provided on a straight-line basis over the estimated useful lives of the depreciable assets using the half-year convention. The estimated useful lives of the assets are as follows:

Buildings	20 to 40 years
Building and leasehold improvements	5 to 15 years
Equipment	3 to 15 years

Interest costs incurred on borrowed funds less interest income earned on the unexpended bond proceeds during the period of construction are capitalized as a component of the cost of acquiring those assets.

Gifts of long-lived assets, such as land, buildings, or equipment are reported as unrestricted support unless explicit donor stipulations specify how the donated assets must be used. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used and gifts of cash or other assets that must be used to acquire long-lived assets are reported as restricted support. Absent explicit donor stipulations about how long those long-lived assets must be maintained, expirations of donor restrictions are reported when the donated or acquired long-lived assets are placed in service.

(h) Deferred Financing Costs

Costs incurred related to the issuance of long-term debt, which are included in long-term debt, are deferred and are amortized over the life of the related debt agreements or the related letter of credit agreements using the effective-interest method.

(i) Intangible Assets and Goodwill

Intangible assets include amounts recognized in connection with acquisitions. Intangible assets are initially valued at fair market value using generally accepted valuation methods. Amortization is recognized on a straight-line basis over the estimated useful life of the intangible assets. Intangible assets with definite and indefinite lives are reviewed for impairment if indicators of impairment arise.

University of Maryland Medical System Corporation and Subsidiaries

Notes to Consolidated Financial Statements (continued) (In Thousands)

(1) Organization and Summary of Significant Accounting Policies (continued)

Goodwill is an asset representing the future economic benefits arising from other assets acquired in a business combination that are not individually identified and separately recognized. The carrying value of goodwill is evaluated at least annually for impairment.

The Corporation has one reporting unit within continuing operations.

There was no impairment loss recognized for the year ended June 30, 2020 and 2019.

The changes in the carrying amount of goodwill are as follows:

	Health Care Delivery
Goodwill at June 30, 2018	\$ 48,810
Acquisitions	—
Write-downs	—
Goodwill at June 30, 2019	48,810
Acquisitions	—
Write-downs	—
Goodwill at June 30, 2020	<u>\$ 48,810</u>

(j) Impairment of Long-Lived Assets

Long-lived assets, such as property, plant, and equipment, and purchased intangibles subject to amortization, are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by comparing the carrying amount of an asset to estimated undiscounted future cash flows expected to be generated by the asset. If the carrying amount of an asset exceeds its estimated future cash flows, an impairment charge is recognized in the amount by which the carrying amount of the asset exceeds the fair value of the asset. Assets to be disposed of would be separately presented in the consolidated balance sheets and reported at the lower of the carrying amount or fair value less costs to sell, and are no longer depreciated. The assets and liabilities of a disposed group classified as held for sale would be presented separately in the appropriate asset and liability sections of the consolidated balance sheets.

No impairment losses were recorded for the years ended June 30, 2020 or 2019.

(k) Investments in Joint Ventures

When the Corporation does not have a controlling interest in an entity where less than 50% of the voting common stock is owned or does not exert a significant influence over the entity, the Corporation applies the equity method of accounting.

(l) Self-Insurance

Under the Corporation's self-insurance programs (general and professional liability, workers' compensation, and employee health and long-term disability benefits), incurred claims are estimated primarily based upon actuarial methods which include incurred but not reported claims analysis and reported claims the severity of incidents and the expected timing of claim payments. These estimates are continually reviewed and adjusted as necessary based on experience. These adjustments are recorded within the current period operating income.

(m) Net Assets

The Corporation classifies net assets based on the existence or absence of donor-imposed restrictions. Net assets without donor restrictions represent contributions, gifts, and grants, which have no donor-imposed restrictions or which arise as a result of operations. Net assets with donor restrictions are subject to donor-imposed restrictions that must or will be met either by satisfying a specific purpose and/or passage of time. Generally, the donors of these assets permit the use of all or part of the income earned on related investments for specific purposes. The restrictions associated with these net assets generally pertain to patient care, specific capital projects, and funding of specific hospital operations and community outreach programs.

(n) Net Patient Service Revenue and Patient Accounts Receivable

In accordance with ASC 606, *Revenue from Contracts with Customers*, net patient service revenue, which includes hospital inpatient services, hospital outpatient services, physician services, and other patient services revenue, is recorded at the transaction price estimated by the Corporation to reflect the total consideration due from patients and third-party payors (including commercial payers and government programs) and others. Revenue is recognized over time as performance obligations are satisfied in exchange for providing goods and services in patient care. Revenue is

(1) Organization and Summary of Significant Accounting Policies (continued)

recorded as these goods and services are provided. The services provided to a patient during an inpatient stay or outpatient visit represent a bundle of goods and services that are distinct and accounted for as a single performance obligation.

The Corporation's estimate of the transaction price includes the Corporation's standard charges for the goods and services provided with a reduction recorded related to explicit price concessions for such items as contractual allowances, charity care, potential adjustments that may arise from payment and other reviews, and implicit price concessions such as uncollectible amounts. The price concessions are determined using the portfolio approach as a practical expedient to account for patient contracts as collective groups rather than individually. Based on historical experience, a significant portion of the self-pay population will be unable or unwilling to pay for services and only the amount anticipated to be collected is recognized the transactions price. Subsequent changes to the estimate of the transaction price are generally recorded as adjustment to net patient service revenue in the period of change. Subsequent changes that are determined to be the result of an adverse change in the payor's or patient's ability to pay are considered bad debt expense and recorded within operating expenses. Estimates for uncollectible amounts are based on the historical collections experience for similar payors and patients, current market conditions, and other relevant factors. The Corporation recognizes a significant amount of patient service revenue even though they do not assess the patient's ability to pay.

The standard charges for goods and services for the Medical Center, ROI, Midtown, Baltimore Washington, Shore Regional, Charles Regional, St. Joseph, Upper Chesapeake, and Capital Region reflects actual charges to patients based on rates established by the state of Maryland Health Services Cost Review Commission (HSCRC) in effect during the period in which the services are rendered. See Note 20 for further discussion on the HSCRC and regulated rates.

Patient accounts are recorded at the net realizable value based on certain assumptions determined by each payor. For third-party payors including Medicare, Medicaid, and commercial insurance, the net realizable value is based on the estimated contractual adjustments which is based on approved discounts on charges as permitted by the HSCRC. For self-pay accounts, which includes patients who are uninsured and the patient responsibility portion for patients with insurance, the net realizable value is determined using estimates of historical collection experience.

(1) Organization and Summary of Significant Accounting Policies (continued)

The Corporation has elected to apply the optional exemption in ASC 606-10-50-14a as all performance obligations relate to contracts with duration of less than one year. Under this exemption, the Corporation was not required to disclose the aggregate amount of the transaction price allocated to performance obligations that are unsatisfied or partially unsatisfied at the end of the reporting period. Any unsatisfied or partially unsatisfied performance obligations at the end of the year are completed within days or weeks of the end of the year.

Net patient service revenue by line of business are as follows:

	Year Ended June 30	
	2020	2019
Hospital inpatient and outpatient services	\$ 3,658,694	\$ 3,734,201
Physician services	238,498	245,150
Other	18,739	37,703
Net patient service revenue	<u>\$ 3,915,931</u>	<u>\$ 4,017,054</u>

(o) Charity Care

The Corporation is committed to providing quality healthcare to all, regardless of one's ability to pay. Patients who meet the criteria of its charity care policy receive services without charge or at amounts less than its established rates. The criteria for charity care consider the household income in relation to the federal poverty guidelines. The Corporation provides services at no charge for patients with adjusted gross income equal to or less than 200% of the federal poverty guidelines. For uninsured patients with adjusted gross income greater than 200% of the federal poverty guidelines, a sliding scale discount is applied. Income and asset information obtained from patient credit reporting data are used to determine patients' ability to pay. The Corporation maintains records to identify and monitor the level of charity care it furnished under its charity care policy.

University of Maryland Medical System Corporation and Subsidiaries

Notes to Consolidated Financial Statements (continued)

(1) Organization and Summary of Significant Accounting Policies (continued)

Due to the complexity of the eligibility process, the Corporation provides eligibility services to patients free of charge to assist in the qualification process. These eligibility services include, but are not limited to, the following:

- Financial assistance brochures and other information are posted at each point of service. When patients have questions or concerns, they are encouraged to call a toll-free number to reach customer service representatives during the business day. Financial assistance programs are published on the Corporation's Web site and included on the statements provided to patients.
- The Corporation offers assistance to patients in completing the applications for Medicaid or other government payment assistance programs, or applying for care under the Corporation's charity care policy, if applicable. The Corporation also employs an external firm to assist in the eligibility process.
- Any patient, whether covered by insurance or not, may meet with a UMMS representative and receive financial counseling from UMMS' dedicated financial assistance unit.

The Corporation recognizes that a large number of uninsured and insured patients meet the charity care guidelines but do not respond to the Corporation's attempts to obtain necessary financial information. In these instances, the Corporation uses credit reporting data to properly classify these unpaid balances as charity care as opposed to bad debt expense. Utilization of income and asset information and credit reporting data indicate the vast majority of amounts reported as uncollectible (implicit price concessions) represent amounts due from patients that would otherwise qualify for charity benefits but do not respond to the Corporation's attempts to obtain the necessary financial information. In these cases, reasonable collection efforts are pursued, but yield few collections. Amounts determined to meet the criteria under the charity care policy or determined to be uncollectible from patients are reported as reductions to net patient service revenue.

The amounts reported as charity care represent the cost of rendering such services. Costs incurred are estimated based on the cost-to-charge ratio for each hospital and applied to charity care charges. The Corporation estimates the total direct and indirect costs to provide charity care were \$48,254 and \$48,821 for the years ended June 30, 2020 and 2019, respectively.

(p) Nonoperating Income and Expenses, Net

Other activities that are only indirectly related to the Corporation's primary business of delivering healthcare services are recorded as nonoperating income and expenses, and include investment income, equity in the net income of joint ventures, general donations and fund-raising activities, inherent contributions, changes in fair value of investments, changes in fair value of undesignated interest rate swaps, and settlement payments on interest rate swaps that do not qualify for hedge accounting treatment. Settlement payments on interest rate swaps were approximately \$18,444 and \$15,124 for the years ended June 30, 2020 and 2019, respectively, and are reported within other nonoperating losses, net.

(q) Derivative Financial Instruments

The Corporation records derivative and hedging activities on the consolidated balance sheets at their respective fair values.

The Corporation utilizes derivative financial instruments to manage its interest rate risks associated with long-term tax-exempt debt. The Corporation does not hold or issue derivative financial instruments for trading purposes.

The Corporation's specific goals are to (a) manage interest rate sensitivity by modifying the reprising or maturity characteristics of some of its tax-exempt debt, and (b) lower unrealized appreciation or depreciation in the market value of the Corporation's fixed-rate tax-exempt debt when that market value is compared with the cost of the borrowed funds. The effect of this unrealized appreciation or depreciation in market value; however, will generally be offset by the income or loss on the derivative instruments that are linked to the debt.

All derivative instruments are reported as other assets or interest rate swap liabilities in the consolidated balance sheets and measured at fair value. Currently, the Corporation is accounting for its interest rate swaps as economic hedges at fair value with changes in the fair value recognized in other nonoperating income and expenses.

(r) Excess of Revenue over Expenses from Continuing Operations

The accompanying consolidated statements of operations and changes in net assets includes a performance indicator, excess of revenues over expenses from continuing operations. Changes in net assets without donor restrictions that are excluded from the performance indicator, consistent with industry practice, include contributions of long-lived assets (including assets acquired using contributions, which, by donor restrictions, were to be used for the purpose of acquiring such assets), changes in the funded status of defined benefit pension plans, and other items that are required by generally accepted accounting principles to be reported separately.

(s) Income Taxes

The Corporation and most of its subsidiaries are not-for-profit corporations formed under the laws of the State of Maryland, organized for charitable purposes and recognized by the Internal Revenue Service as tax-exempt organizations under Section 501(c)(3) of the Internal Revenue Code (the Code) pursuant to Section 501(a) of the Code. The effect of the taxable status of its for-profit subsidiaries is not material to the consolidated financial statements.

The Corporation follows a threshold of more likely than not for recognition and derecognition of tax positions taken or expected to be taken in a tax return. Management does not believe that there are any unrecognized tax liabilities or benefits that should be recognized.

(t) Donor-Restricted Gifts

Unconditional promises to give cash and other assets to the Corporation are reported at fair value at the date the promise is received. Conditional promises to give and indications of intentions to give are reported at fair value at the date the promise becomes unconditional. Contributions are reported as net assets with donor restrictions if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction is satisfied, net assets with donor restrictions are reclassified as net assets without donor restrictions and reported in the consolidated statements of operations and changes in net assets as net assets released from restrictions. Such amounts are classified as other revenue or transfers and additions to property and equipment. Donor-restricted contributions whose restrictions are met within the same year as received are reported as unrestricted contributions on the accompanying consolidated statements of operations.

Contributions to be received after one year are discounted at a fixed discount rate commensurate with the risks involved. An allowance for uncollectible contributions receivable is provided based upon management's judgment including such factors as prior collection history, type of contributions, and nature of fund-raising activity.

(u) Fair Value Measurements

The following methods and assumptions were used by the Corporation in estimating the fair value of its financial instruments:

Cash and cash equivalents, accounts receivable, assets limited as to use, investments, trade accounts payable, accrued payroll and benefits, other accrued expenses, and advances from third-party payors – The carrying amounts reported in the consolidated balance sheets approximate the related fair values.

Pension plan assets – The Corporation applies Accounting Standards Update (ASU) 2009-12, *Fair Value Measurements and Disclosures (Topic 820): Investments in Certain Entities That Calculate Net Asset per Share (or Its Equivalent)*, to its pension plan assets. The guidance permits, as a practical expedient, fair value of investments within its scope to be estimated using the net asset value (NAV) or its equivalent. The alternative investments classified within the fair value hierarchy have been recorded using the NAV.

The Corporation discloses its financial assets, financial liabilities, and fair value measurements of nonfinancial items according to the fair value hierarchy required by generally accepted accounting principles that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

- Level 1 inputs are quoted market prices (unadjusted) in active markets for identical assets or liabilities that the Corporation has the ability to access at the measurement date.

University of Maryland Medical System Corporation and Subsidiaries

Notes to Consolidated Financial Statements (continued)

(In Thousands)

(1) Organization and Summary of Significant Accounting Policies (continued)

- Level 2 inputs are inputs other than quoted market prices including within Level 1 that are observable for the asset or liability, either directly or indirectly. If the asset or liability has a specified (contractual) term, a Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 inputs are unobservable inputs for the asset or liability.

Assets and liabilities classified as Level 1 are valued using unadjusted quoted market prices for identical assets or liabilities in active markets. The Corporation uses techniques consistent with the market approach and the income approach for measuring fair value of its Level 2 and Level 3 assets and liabilities. The market approach is a valuation technique that uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities. The income approach generally converts future amounts (cash flows or earnings) to a single present value amount (discounted).

The level in the fair value hierarchy within which a fair value measurement in its entirety falls is based on the lowest level input that is significant to the fair value measurement in its entirety.

As of June 30, 2020, and 2019, the Level 2 assets and liabilities listed in the fair value hierarchy tables presented in Notes 3 and 11 utilize the following valuation techniques and inputs:

Cash Equivalents

The fair value of investments in cash equivalent securities, with maturities within three months of the date of purchase, is determined using techniques that are consistent with the market approach. Significant observable inputs include reported trades and observable broker-dealer quotes.

U.S. Government and Agency Securities

The fair value of investments in U.S. government, state, and municipal obligations is primarily determined using techniques consistent with the income approach. Significant observable inputs to the income approach include data points for benchmark constant maturity curves and spreads.

University of Maryland Medical System Corporation and Subsidiaries

Notes to Consolidated Financial Statements (continued)

(In Thousands)

(1) Organization and Summary of Significant Accounting Policies (continued)

Corporate Obligations

The fair value of investments in U.S. and international corporate bonds, including commingled funds that invest primarily in such bonds and foreign government bonds, is primarily determined using techniques that are consistent with the market approach. Significant observable inputs include benchmark yields, reported trades, observable broker-dealer quotes, issuer spreads, and security specific characteristics, such as early redemption options. The fair value of collateralized corporate obligations is primarily determined using techniques consistent with the income approach, such as a discounted cash flow model. Significant observable inputs include prepayment speeds and spreads, benchmark yield curves, volatility measures, and quotes.

Derivative Liabilities

The fair value of derivative contracts is primarily determined using techniques consistent with the market approach. Derivative contracts include interest rate, credit default, and total return swaps. Significant observable inputs to valuation models include interest rates, treasury yields, volatilities, credit spreads, maturity, and recovery rates.

(v) Commitments and Contingencies

Liabilities for loss contingencies arising from claims, assessments, litigation, fines, penalties, and other sources are recorded when it is probable that a liability has been incurred and the amount can be reasonably estimated. Legal costs incurred in connection with loss contingencies are expensed as incurred.

(w) Going Concern

Management evaluates whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Corporation's ability to continue as a going concern within one year after the date the financial statements are issued. As of the date of this report, there are no conditions or events that raise substantial doubt about the Corporation's ability to continue as a going concern.

(x) Use of Estimates

The preparation of consolidated financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

(y) New Accounting Pronouncements

The Corporation adopted ASU 2016-02, *Leases (ASC Topic 842)*, on July 1, 2019. ASC Topic 842 required the recognition of right-of-use assets (ROU) and lease liabilities on the accompanying consolidated balance sheet and the disclosure of qualitative and quantitative information about leasing arrangements. The guidance was adopted using a modified retrospective approach without restating prior comparative periods. The Corporation elected to utilize the transition practical expedient to not reassess whether a contract is or contains a lease, the lease classification and initial direct costs. Additionally, the Corporation also elected the practical expedient which allows the System to treat the lease and non-lease components of a contract as a single component and account for as a lease. The Corporation recognized operating ROU assets and corresponding operating lease liabilities of approximately \$99,000 in the accompanying consolidated balance sheet at July 1, 2019. See further discussion in Note 6.

Effective January 1, 2019, the Corporation adopted ASU 2016-18, *Statement of Cash Flows (Topic 320): Restricted Cash*, which requires that the statement of cash flows explain the change during the period in total cash, cash equivalents, and amounts generally described as restricted cash or restricted cash equivalents. Therefore, amounts generally described as restricted cash and restricted cash equivalents should be included with cash and cash equivalents when reconciling the beginning-of-period and end-of-period total amounts shown on the statement of cash flows. See further discussion in Note 3.

(2) COVID-19 Pandemic and the Coronavirus Aid, Relief, and Economic Security (CARES) Act of 2020

Maryland Governor Larry Hogan began preparing the State for the COVID-19 pandemic on January 29, 2020 by raising the State's emergency operations center threat to "enhanced." As a result of close monitoring of the pandemic's impact data, on March 5, 2020, Governor Hogan declared a State of Emergency in Maryland, an action that was succeeded by several others intended to limit the spread of COVID-19 in Maryland and ensure residents who required medical care were able to obtain it safely and efficiently. Notably, Governor Hogan issued an executive order on March 16, 2020 restricting elective procedures. As a result, volume in the months of March and April declined significantly and based on the State of Maryland's phased resumption of certain elective procedures in May and June, volumes increased compared to April 2020.

In response to COVID-19, the Coronavirus Aid, Relief and Economic Security (CARES) Act, was signed into law on March 27, 2020. The CARES Act authorizes funding to hospitals and other healthcare providers to be distributed through the Public Health and Social Services Emergency Fund (Relief Fund). Payments from the Relief Fund are to be used to prevent, prepare for, and respond to coronavirus, and shall reimburse the recipient for health care related expenses or lost revenues attributable to coronavirus and not required to be repaid, provided the recipients attest to and comply with the terms and conditions.

The U.S. Department of Health and Human Services' distributions from the Relief Fund include general distribution and targeted distributions to support hospitals in high impact areas and rural providers. For the year ended June 30, 2020, the Corporation received and recognized as other operating revenue, approximately \$199,600 in relief funding. Amounts recognized as revenue could change in the future based on evolving compliance guidance provided by HHS, among other factors, as discussed further in Note 21.

In April 2020, the Corporation requested Medicare advanced payments under the Centers for Medicare and Medicaid Services' Accelerated and Advanced Payment Program designed to increase cash flow to Medicare providers and suppliers impacted by COVID-19. The Medicare advanced payment program allows eligible health care facilities to request up to six months of advance Medicare payments for acute care hospitals or up to three months of advance Medicare payments for other health care providers. The Corporation received approximately \$641,300 of advanced payments with repayment to occur based upon the terms and conditions of the program. Amounts received represent contract liabilities under Topic 606 and are recorded in advances from third party payors within the accompanying consolidated balance sheet as of June 30, 2020.

Self-insurance trust funds include amounts held by the Maryland Medicine Comprehensive Insurance Program (MMCIP) for payment of malpractice claims. These assets consist primarily of cash, stocks and fixed-income and corporate obligations. MMCIP is a funding mechanism for the Corporation's malpractice insurance program. As MMCIP is not an insurance provider, transactions with MMCIP are recorded under the deposit method of accounting. Accordingly, the Corporation accounts for its participation in MMCIP by carrying limited-use assets representing the amount of funds contributed to MMCIP and recording a liability for claims, which is included in other current and other long-term liabilities in the accompanying consolidated balance sheets. These assets include the Corporation's portion of the investment pool shared with University of Maryland Faculty Physician, Inc., which is part of the University of Maryland School of Medicine.

(6) Leases

The Corporation determines if an arrangement is a lease at inception. Finance leases are included in property, plant and equipment, other current liabilities, and other long-term liabilities on the accompanying consolidated balance sheet.

(6) Leases (continued)

The Corporation's leases primarily consist of real estate leases for medical and administrative office buildings and the Corporation determines if an arrangement is a lease at inception of the contract. Operating leases are included in other assets, other current liabilities, and other long-term liabilities on the consolidated balance sheet. Finance leases are included in property, plant and equipment, other current liabilities, and other long-term liabilities on the accompanying consolidated balance sheet.

Lease liabilities are recognized based on the present value, net of the future minimum lease payments over the lease term using the Corporation's incremental borrowing rate based on the information available at commencement. The ROU asset is derived from the lease liability and also includes any lease payments made and excludes lease incentives and initial direct costs incurred. Certain lease agreements for real estate include payments based on actual common area maintenance expenses and others include rental payments adjusted periodically for inflation. These variable lease payments are recognized in other operating expenses, net, but are not included in the right-of-use asset or liability balances. Lease agreements may include one or more renewal options which are at the Corporation's sole discretion. The Corporation does not consider the renewal options to be reasonably likely to be exercised, therefore they are not included in ROU assets and lease liabilities. Lease expense for minimum lease payments is recognized on a straight-line basis over the lease term for operating leases.

In accordance with ASC 842, the Corporation has elected to not recognize ROU assets and lease liabilities for short-term leases with a lease term of 12 months or less. The Corporation recognizes the lease payments associated with its short-term leases as an expense on a straight-line basis over the lease term. Variable lease payments associated with these leases are recognized and presented in the same manner as all other leases.

(7) Line of Credit

For the fiscal years ended June 30, 2020 and 2019, the Corporation had a \$250,000 revolving line of credit outstanding with a syndicate of banking partners. The line of credit is annually renewing and the current expiration date is August 25, 2021. Interest is calculated based on an optional base rate or percentage of 1-month LIBOR plus a credit spread. As of June 30, 2020 and 2019, the amount outstanding on the line of credit was \$193,500 and \$161,300, respectively. The calculated interest rates as of June 30, 2020 and 2019 was a range from 0.89% to 3.25%.

For the fiscal year ended June 30, 2020, the Corporation had \$225,000 in additional lines of credit consisting of separate agreements with three banking partners. The borrowing facilities were put in place to provide additional access to liquidity in the event it would be needed during the COVID-19 pandemic, and each of the facilities expires no later than May 2021. All three borrowing facilities call for interest to be calculated on the drawn amount based on a percentage of one-month LIBOR, subject to a percentage floor, plus a credit spread. As of June 30, 2020, there were \$0 outstanding on these lines of credit, and the calculated interest rate on that date would have been within a range of 1.69% to 2.25% across the three facilities.

(8) Long-Term Debt and Other Borrowings (continued)

Pursuant to an Amended and Restated Master Loan Agreement dated December 1, 2017 (UMMS Master Loan Agreement), the Corporation and several of its subsidiaries have issued debt through Maryland Health and Higher Educational Facilities Authority (MHHEFA or the Authority). As security for the performance of the bond obligation under the Master Loan Agreement, the Authority maintains a security interest in the revenue of the obligors. The UMMS Master Loan Agreement contains certain restrictive covenants. These covenants require that rates and charges be set at certain levels, limit incurrence of additional debt, require compliance with certain operating ratios and restrict the disposition of assets.

The Obligated Group under the UMMS Master Loan Agreement includes the Medical Center, ROI, UM Midtown, UM Baltimore Washington, Shore Health (UM Memorial and UM Dorchester), UM Chester River, UM Charles Regional, UM St. Joseph, UM Upper Chesapeake, UM Harford Memorial, UM Laurel, UM Prince George's, Bowie Health Center (Bowie), and the UMMS Foundation. Each member of the Obligated Group is jointly and severally liable for the repayment of the obligations under the UMMS Master Loan Agreement.

Under the terms of the UMMS Master Loan Agreement and other loan agreements, certain funds are required to be maintained on deposit with the Master Trustee to provide for repayment of the obligations of the Obligated Group (Note 3).

The Corporation has a term loan in the amount of \$150,000 related to the acquisition of Upper Chesapeake, which expires on March 1, 2021. The Corporation intends to obtain long term financing prior to its maturity date, and has classified this obligation as a short-term financing at June 30, 2020 and 2019, in the consolidated balance sheets. See further discussion in Subsequent Events (Note 21).

In December 2018, MHHEFA issued \$145,265 of tax-exempt Revenue Bonds, Series 2017D, and \$44,700 taxable Revenue Bonds, Series 2017E. These proceeds are to be used for the purpose of financing a portion of the costs of acquisition, construction and equipping of certain capital projects related to Capital Region, including (a) construction of a new regional medical center and an adjacent new ambulatory care center and (b) construction of a new freestanding medical facility.

(8) Long-Term Debt and Other Borrowings (continued)

The aggregate annual future maturities of long-term debt according to the original terms of the Master Loan Agreement and all other loan agreements are as follows for the years ending June 30:

2021	\$ 219,262

2024	196,073

Thereafter	851,468
	<u>\$ 1,637,683</u>

The Corporation's Series 2007A and 2008D-E Bonds are variable rate demand bonds requiring remarketing agents to purchase and remarket any bonds tendered before the stated maturity date. The reimbursement obligations with respect to the letters of credit are evidenced and secured by the respective bonds. To provide liquidity support for the timely payment of any bonds that are not successfully remarketed, the Corporation has entered into letter-of-credit agreements with three banking institutions. These agreements have terms that expire in 2021 through 2022. If the bonds are not successfully remarketed, the Corporation is required to pay an interest rate specified in the letter-of-credit agreement, and the principal repayment of bonds may be accelerated to require repayment in periods ranging from 20 to 60 months from the date of the failed remarketing. The Corporation has reflected the amount of its long-term debt that is subject to these short-term remarketing arrangements as a separate component of current liabilities in its consolidated balance sheets. In the event that bonds are not remarketed, the Corporation maintains available letters of credit and has the ability to access other sources to obtain the necessary liquidity to comply with accelerated repayment terms. All variable rate demand bonds were successfully remarketed as of June 30, 2020 and 2019.

The mark-to-market values of the Corporation's interest rate swaps include a valuation adjustment representing the creditworthiness of the counterparties to the swaps.

The Corporation recorded a net nonoperating loss on changes in the fair value of nonqualifying interest rate swaps of \$75,811 and \$47,995 for the years ended June 30, 2020 and 2019, respectively.

The swap agreements are included in the consolidated balance sheets at their fair value of \$270,430 and \$196,174 as of June 30, 2020 and 2019, respectively, an amount that is based on observable inputs other than quoted market prices in active markets for identical liabilities (Level 2 in the fair value hierarchy).

The Corporation is subject to a collateral posting requirement with two of its swap counterparties. Collateral posting requirements are based on the Corporation's long-term debt credit ratings, as well as the net liability position of total interest rate swap agreements outstanding with that counterparty. The amount of such posted collateral was \$165,848 and \$109,934 at June 30, 2020 and 2019, respectively. As of June 30, 2020 and 2019, the Corporation met its collateral posting requirement through the use of collateralized investments and cash equivalents, which were selected and purchased by the Corporation and subsequently transferred to the custody of the swap counterparty. The amount of posted investments that is required to meet the collateral requirement is computed daily and is accounted for as a component of the Corporation's assets limited as to use on the accompanying consolidated balance sheets as of that date. Any excess investment value is considered a component of the Corporation's unrestricted investment portfolio and is included in investments on the accompanying consolidated balance sheets as of that date.

(11) Retirement Plans

Employees of the Corporation are included in various retirement plans established by the Corporation, the Medical Center, ROI, Midtown, Baltimore Washington, Shore Regional, Charles Regional, St. Joseph, Upper Chesapeake, and Capital Region. Participation by employees in their specific plan(s) has evolved based upon the organization by which they were first employed and the elections that they made at the times when their original employers became part of the Corporation. The following is a brief description of each of the retirement plans in which employees of the Corporation participate:

(a) Defined Benefit Plans

University of Maryland Medical Center Midtown Campus Retirement Plan for Non-Union Employees (Midtown Plan) – A noncontributory defined benefit plan covering substantially all nonunion employees. The benefits are based on years of service and compensation. Contributions

to this plan are made to satisfy the minimum funding requirements of ERISA. In 2006, Midtown froze the defined benefit pension plan.

Baltimore Washington Medical Center Pension Plan (Baltimore Washington Plan) – A noncontributory defined benefit pension plan covering full-time employees who have been employed for at least one year and have reached 21 years of age. In 2018, Baltimore Washington closed the defined benefit pension plan to new hires.

Baltimore Washington Medical Center Supplemental Executive Retirement Plan – A noncontributory defined benefit pension plan for senior management level employees. In 2018, Baltimore Washington terminated the defined benefit pension plan and liquidation of its remaining benefit obligation using its plan assets was completed on December 29, 2017.

On June 30, 2015, the Corporation amended the Baltimore Washington Medical Center Pension Plan to provide for the merger of the Midtown Plan and the Charles Regional Plan into the Baltimore Washington Plan and to change the name of the newly consolidated plan to the University of Maryland Medical System Corporate Pension Plan (the Corporate Plan). All provisions of the respective previous plans shall continue to apply to the respective applicable participants. All of the assets of the three formerly separate plans are now available to pay benefits for all participants under the newly consolidated Corporate Plan.

Chester River Health System, Inc. Pension Plan and Trust – A noncontributory defined benefit pension plan covering substantially all CRHC employees as well as employees of a subsidiary. The benefits are paid to retirees based upon age at retirement, years of service, and average compensation. Chester River's funding policy is to satisfy the minimum funding requirements of ERISA. Effective June 30, 2008, Chester River froze the defined-benefit pension plan. On March 31, 2018, Chester River terminated the defined benefit pension plan and liquidation of its remaining benefit obligation using its plan assets was completed as of June 30, 2019.

Civista Health Inc. Retirement Plan and Trust (Charles Regional Plan) – A noncontributory defined benefit pension plan covering employees that have worked at least one thousand hours per year during three or more plan years. Upper Chesapeake Health System, Inc. Pension Plan and Trust – A noncontributory defined benefit pension plan covering substantially all employees of the various affiliates of Upper Chesapeake who have completed six months of employment and attained the age of twenty and a half years. On December 31, 2005, Upper Chesapeake froze the defined benefit pension plan. On June 30, 2015, Upper Chesapeake terminated the defined benefit pension plan and liquidation of its remaining benefit obligation using its plan assets was completed by September 30, 2017.

Dimensions Health Corporation Pension Plan (Capital Region Pension Plan) – A noncontributory defined benefit pension plan covering substantially all employees. For employees not covered under collective-bargaining agreements and employees who are represented by the 1199 SEIU Health Care Workers East – Health Care Workers union (formerly District 1199E-DC, SEIU union and formerly Local No. 63 union), the Plan operates as a cash balance plan. The annual contribution by the Corporation is allocated to individual employee accounts based on years of service and the individual's retirement account. For employees represented by the 1199 SEIU Health Care Workers East – Registered Nurses Chapter union (formerly Professional Staff Nurses Association union), benefits are based on years of service and average final compensation. On December 31, 2007, the Capital Region Pension Plan was frozen. No further benefit accruals will be made to the Plan. The Plan freeze substantially reduces annual funding obligations beginning with Plan year 2008. The Corporation's funding policy is to contribute such actuarially determined amounts as necessary to provide assets sufficient to meet the benefits to be paid to the Plan participants and to meet the funding requirements of the Employees Retirement Income Security Act of 1974 (ERISA).

The plan is contributory for those who retired prior to July 1, 1995, with retiree contributions adjusted annually. Employees who retired on July 1, 1995 and later are eligible to participate in the plan by paying 100% of the premiums without corporate contributions. The Corporation's policy has been to fund this plan on an as needed basis.

(11) Retirement Plans (continued)

A defined postretirement life insurance plan is a noncontributory plan for all eligible retirees prior to July 1, 2001. For employees represented by the 1199 SEIU Health Care Workers East – Registered Nurses Chapter union, the plan was no longer offered to new retirees as of July 1, 1999. Effective July 1, 2001, the plan was modified to become contributory for the nonunion employees and employees represented by the 1199 SEIU Health Care Workers East – Health Care Workers union who retired prior to July 1, 2001 and for the employees represented by the 1199 SEIU Health Care Workers East – Registered Nurses Chapter union who retired prior to July 1, 1999. The Corporation's policy has been to fund its share of these benefits as they are incurred.

The Corporation recognizes the funded status (i.e., the difference between the fair value of plan assets and projected benefit obligations) of its defined benefit pension plans as an asset or liability in its consolidated balance sheets. The Corporation recognizes changes in the funded status in the year in which the changes occur as changes in unrestricted net assets. All defined benefit pension plans use a June 30 measurement date.

The investment policies of the Corporation's pension plans incorporate asset allocation and investment strategies designed to earn superior returns on plan assets consistent with reasonable and prudent levels of risk. Investments are diversified across classes, sectors, and manager style to minimize the risk of loss. The Corporation uses investment managers specializing in each asset category, and regularly monitors performance and compliance with investment guidelines. In developing the expected long-term rate of return on assets assumption, the Corporation considers the current level of expected returns on risk-free investments, the historical level of the risk premium associated with the other asset classes in which the portfolio is invested, and the expectations for future returns of each asset class. The expected return for each asset class is then weighted based on the target allocation to develop the expected long-term rate of return on assets assumption for the portfolio.

The Corporation's pension plans' target allocation and weighted average asset allocations at the measurement date of June 30, 2020 and 2019, by asset category, are as follows:

Asset Category	Target Allocation	Percentage of Plan Assets as of June 30

(12) Net Assets with Donor Restrictions (continued)

Net assets were released from donor restrictions by expending funds satisfying the restricted purposes or by occurrence of other events specified by donors as follows:

	Year Ended June 30	
	2020	2019
Purchases of equipment and construction costs	\$ 18,791	\$ 14,130
Research, education, uncompensated care, and other	6,307	4,279
	<u>\$ 25,098</u>	<u>\$ 18,409</u>

The Corporation's endowments consist of donor-restricted funds established for a variety of purposes. Net assets associated with endowment funds are classified and reported based on the existence or absence of donor-imposed restrictions.

(a) Interpretation of Relevant Law

The Corporation has interpreted the Maryland Uniform Prudent Management of Institutional Funds Act (MUPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, the Corporation classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund are classified in net assets with donor restrictions until those amounts are appropriated for expenditure by the organization in a manner consistent with the standard of prudence prescribed by MUPMIFA. In accordance with MUPMIFA, the Corporation considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

1. The duration and preservation of the fund
2. The purposes of the Corporation and the donor-restricted endowment fund
3. General economic conditions

(12) Net Assets with Donor Restrictions (continued)

4. The possible effect of inflation and deflation
5. The expected total return from income and the appreciation of investments
6. Other resources of the Corporation
7. The investment policies of the Corporation.

Endowment net assets are as follows:

	Without Donor Restrictions	With Donor Restrictions	Total
June 30, 2020			
Donor-restricted endowment funds	\$ 43	\$ 67,165	\$ 67,208
June 30, 2019			
Donor-restricted endowment funds	\$ 39	\$ 65,433	\$ 65,472

Donor restricted endowment funds within net assets with donor restrictions whose use is restricted in perpetuity were \$50,243 and \$48,826 as of June 30, 2020 and 2019, respectively.

Funds with Deficiencies

From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level that the donor or MUPMIFA requires the Corporation to retain as a fund of perpetual duration. The Corporation does not have any donor-restricted endowment funds that are below the level that the donor or MUPMIFA requires.

Investment Strategies

The Corporation has adopted policies for corporate investments, including endowment assets that seek to maximize risk-adjusted returns with preservation of principal. Endowment assets include those assets of donor-restricted funds that the Corporation must hold in perpetuity or for a donor-specified period(s). The endowment assets are invested in a manner that is intended to hold a mix of investment assets designed to meet the objectives of the account. The Corporation expects its endowment funds, over time, to provide an average rate of return that generates earnings to achieve the endowment purpose.

To satisfy its long-term rate-of-return objectives, the Corporation relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The Corporation employs a diversified asset allocation structure to achieve its long-term return objectives within prudent risk constraints.

The Corporation monitors the endowment funds' returns and appropriates average returns for use. In establishing this practice, the Corporation considered the long-term expected return on its endowment. This is consistent with the Corporation's objective to maintain the purchasing power of the endowment assets held in perpetuity or for a specified term, as well as to provide additional real growth through new gifts and investment return.

(17) Insurance

The Corporation maintains self-insurance programs for professional and general liability risks, employee health, employee long-term disability, and workers' compensation. The accrued liabilities for these programs were as follows:

	June 30	
	2020	2019
Professional and general malpractice liabilities	\$ 351,441	\$ 313,136
Employee health	27,201	33,556
Employee long-term disability	4,751	5,577
Workers' compensation	23,430	20,977
Total self-insured liabilities	406,823	373,246
Less current portion	(64,550)	(70,368)
	\$ 342,273	\$ 302,878

The Corporation provides for and funds the present value of the costs for professional and general liability claims and insurance coverage related to the projected liability from asserted and unasserted incidents, which the Corporation believes may ultimately result in a loss. In management's opinion, these accruals provide an adequate and appropriate loss reserve. The professional and general malpractice liabilities presented above include \$243,143 and \$202,779 as of June 30, 2020 and 2019, respectively, for which related insurance receivables have been recorded within other assets on the accompanying consolidated balance sheets.

The Corporation and each of its affiliates are self-insured for professional and general liability claims up to the limits of \$1,000 on individual claims and \$3,000 in the aggregate on an annual basis. For amounts in excess of these limits, the risk of loss has been transferred to Terrapin, an unconsolidated joint venture. Terrapin provides insurance for claims in excess of \$1,000 individually and \$3,000 in the aggregate up to \$155,000 individually and \$160,000 in the aggregate under claims made policies between the Corporation and Terrapin. For claims in excess of Terrapin's coverage limits, if any, the Corporation retains the risk of loss.

As discussed in Note 5, Terrapin is a joint venture corporation in which a 50% equity interest is owned by the Corporation and a 50% equity interest is owned by Faculty Physicians, Inc.

Total malpractice insurance expense for the Corporation during the years ended June 30, 2020 and 2019 was approximately \$69,374 and \$60,654, respectively.

(18) Business and Credit Concentrations

The Corporation provides healthcare services through its inpatient and outpatient care facilities located in the State of Maryland. The Corporation generally does not require collateral or other security in extending credit; however, it routinely obtains assignment of (or is otherwise entitled to receive) patients' benefits receivable under their health insurance programs, plans, or policies (e.g., Medicare, Medicaid, Blue Cross, workers' compensation, health maintenance organizations (HMOs), and commercial insurance policies).

The Corporation maintains cash accounts with highly rated financial institutions, which generally exceed federally insured limits. The Corporation has not experienced any losses from maintaining cash accounts in excess of federally insured limits, and as such, management does not believe the Corporation is subject to any significant credit risks related to this practice.

The Corporation had receivables from patients and third-party payors as follows at June 30, 2020:

Medicare	27%
Medicaid	32
Commercial insurance and HMOs	20
Blue Cross	14
Self-pay and others	7
	100%

The Corporation recorded net patient service revenues from patients and third-party payors as follows:

	Year Ended June 30	
	2020	2019
Medicare	37%	37%
Medicaid	24	24
Commercial insurance and HMOs	24	24
Blue Cross	10	10

(19) Certain Significant Risks and Uncertainties

The Corporation provides general acute healthcare services in the state of Maryland. The Corporation and other healthcare providers in Maryland are subject to certain inherent risks, including the following:

- Dependence on revenues derived from reimbursement by the federal Medicare and state Medicaid programs;
- Regulation of hospital rates by the State of Maryland Health Services Cost Review Commission;
- Government regulation, government budgetary constraints, and proposed legislative and regulatory changes; and
- Lawsuits alleging malpractice and related claims.

Such inherent risks require the use of certain management estimates in the preparation of the Corporation's consolidated financial statements, and it is reasonably possible that a change in such estimates may occur.

The Medicare and state Medicaid reimbursement programs represent a substantial portion of the Corporation's revenues, and the Corporation's operations are subject to a variety of other federal, state, and local regulatory requirements. Failure to maintain required regulatory approvals and licenses and/or changes in such regulatory requirements could have a significant adverse effect on the Corporation.

Changes in federal and state reimbursement funding mechanisms and related government budgetary constraints could have a significant adverse effect on the Corporation.

The healthcare industry is subject to numerous laws and regulations from federal, state, and local governments. The Corporation's compliance with these laws and regulations can be subject to periodic governmental review and interpretation, which can result in regulatory action unknown or unasserted at this time. Management is aware of certain asserted and unasserted legal claims and regulatory matters arising in the ordinary course of business, none of which, in the opinion of management, are expected to result in losses in excess of insurance limits or have a materially adverse effect on the Corporation's financial position.

(19) Certain Significant Risks and Uncertainties (continued)

The federal government and many states have aggressively increased enforcement under Medicare and Medicaid antifraud and abuse laws and physician self-referral laws (STARK law and regulation). Recent federal initiatives have prompted a national review of federally funded healthcare programs. In addition, the federal government and many states have implemented programs to audit and recover potential overpayments to providers from the Medicare and Medicaid programs. The Corporation has implemented a compliance program to monitor conformance with applicable laws and regulations, but the possibility of future government review and enforcement action exists.

(20) Maryland Health Services Cost Review Commission

Effective July 1, 2013, the Health System and the Health Services Cost Review Commission (HSCRC) agreed to implement the Global Budget Revenue (GBR) methodology for the following hospitals: Medical Center, ROI, UM Midtown, UM Baltimore Washington, UM Charles Regional, UM St. Joseph, UM Memorial, UM Dorchester, UM Chester River, Shore Emergency Center, UM Upper Chesapeake, UM Harford Memorial, UM Prince George's, and UM Laurel. The agreements will continue each year and on July 1 of each year thereafter; the agreements will renew for a one-year period unless it is canceled by the HSCRC or by the Corporation. The agreements were in place for the years ended June 30, 2020 and 2019. The GBR model is a revenue constraint and quality improvement system designed by the HSCRC to provide hospitals with strong financial incentives to manage their resources efficiently and effectively in order to slow the rate of increase in healthcare costs and improve healthcare delivery processes and outcomes. The GBR model is consistent with the Corporation's mission to provide the highest value of care possible to its patients and the communities it serves.

The GBR agreements establish a prospective, fixed revenue base "GBR cap" for the upcoming year. This includes both inpatient and outpatient regulated services. Under GBR, a hospital's revenue for all HSCRC regulated services is predetermined for the upcoming year, regardless of changes in volume, service mix intensity, or mix of inpatient or outpatient services that occurred during the year. The GBR agreement allows the Corporation to adjust unit rates, within certain limits, to achieve the overall revenue base for the Corporation at year-end. Any overcharge or undercharge versus the GBR cap is prospectively subtracted from the subsequent year's GBR cap. Although the GBR cap is fixed each year, it does not adjust for changes in volume or service mix. The GBR cap is also adjusted annually for inflation, and for changes in payor mix and uncompensated care. The Corporation will receive an annual adjustment to its cap for the change

in population in the Corporation's service areas. GBR is designed to encourage hospitals to operate efficiently by reducing excess utilization and managing patients in the appropriate care delivery setting. The HSCRC also may impose various other revenue adjustments, which could be significant in the future.

(21) Subsequent Events

The Corporation evaluated all events and transactions that occurred after June 30, 2020 and through October 28, 2020, the date the consolidated financial statements were issued. Other than described below, the Corporation did not have any material subsequent events during the period.

During the month of July 2020, the Corporation issued \$752.7 million in debt in the form of Maryland Health and Higher Educational Facilities Authority (MHHEFA) Revenue Bonds – Series 2020B/D. The proceeds were used to advance refund \$13,500 of UMMS' Series 2008F Revenue Bonds, \$31,500 of UMMS Series 2010 Revenue Bonds, and \$218,200 of UMMS Series 2013A Revenue Bonds. In addition, \$150,000 of the proceeds were used to refund a term loan. The remaining proceeds of \$339,500 will be used for various capital projects.

During the month of July and August 2020, the Corporation received additional CARES Act Relief Funds of approximately \$109,000 and \$8,800 respectively. These funds were not recognized as Other Revenue for the year ended June 30, 2020.

On October 1, 2020, a new law was signed that included modifications to the CMS Accelerated and Advance Payment Program. These modifications included an extension to the previous terms discussed within Note 2. The changes in payments terms are considered a non-recognized subsequent event in accordance with ASC 855.
