The top three key health issues of concern to the community were drug and alcohol use, overweight/obesity, and mental health/suicide. The most commonly reported chronic condition in the survey was high blood pressure, affecting 58.3% of respondents. There were also 22.3% of respondents that reported having anxiety disorder and 19.5% of respondents that reported having depressive disorder in the community survey. While the focus group responses varied between groups, there were common themes. Many participants identified a lack of transportation, mental health resources, access/education regarding healthy foods, elder care, and general issues with access to care and lack of awareness of resources as barriers to a healthier community. A key takeaway was that resources exist in the county, but they are often scarce, and many do not know what or where they are, as well as how to access them. A key theme was participants felt that there was a need to create a sense of community and family stability.</p> <p>Secondary Data: Behavioral Health (Mental Health/Substance Use): The state's Behavioral Risk Factor Surveillance System (BRFSS) reported that 18.8% of adults in Harford County were diagnosed with depressive disorder in 2019. From 2017-2020, the hospitalization rate for depression was 90 per 1,000 residents. In addition, the 2019 suicide rate of 11.4 per 100,000 in Harford County was higher than the state average of 10.1 per 100,000. Studies have shown that Adverse Childhood Experiences (ACEs) can be a key health indicator associated with a significant increase in risk for mental illness and chronic disease in adulthood. ACEs are described as traumatic events experienced during childhood such as living with a parent/caregiver with mental illness, physical, sexual, and/or emotional abuse, and an incarcerated household member. The greater the number of ACEs on a scale of 0 to 10, the higher the risk, with 4 ACEs or more being the turning point for significant risk. The BRFSS reported that 13.4% of Harford County adults experience 4 or more ACEs.</p> <p>From 2013 to 2017, there was a steady increase in total drug and alcohol-related intoxication deaths in both Harford County and Maryland. This trend was reversed in 2018, and since then there has been a 17% decrease in total drug and alcohol-intoxication related deaths in Harford County. While there has been an overall decline, the overdose problem remains a concern for the county with rates over twice as high as they were a decade ago.</p> <p>In 2020, 84 lives were lost due to drugs or alcohol, and as a community we are working to reduce that number as low as possible. During COVID-19, food insecurity issues increased by 40% across Harford County. As part of its response to the pandemic, UMUH alongside, Healthy Harford, convened a Harford County Food Access Workgroup with more than 25 community organizations. In FY22, UMMS donated \$1.2 million statewide to help alleviate critical food insecurity. Of those funds, \$64,262 was allotted to Harford County via the Maryland Food Bank (MFB). The MFB is a primary provider of food pantry staples for our community, but through this grant, additional food pantries were created and additional access points in high need communities were established. This consisted of five additional food distribution sites in the communities of Edgewood and Aberdeen. UM Upper Chesapeake Health and Healthy Harford supported these food distribution sites through community promotion, spreading the word of their availability, as well as providing onsite services such as blood pressure checks, information on community health resources, and navigation to link residents to services. In addition to supporting food access through the MFB, funds were also used to purchase 80 medically tailored meals through Moveable Feast, Inc. and well as additional prepared meals via Meals on Wheels. *United Way Partnership Board - is composed of local volunteers who advise and inform UWCM on issues specific to Harford County. <p>SCHEDULE H, PART III, LINE 2 - METHODOLOGY USED TO ESTIMATE BAD DEBT</p>	<p>THE HEALTH SERVICES COST REVIEW COMMISSION (HSCRC) STARTED SETTING HOSPITAL RATES IN 1974. AT THAT TIME, THE HSCRC APPROVED RATES APPLIED ONLY TO COMMERCIAL INSURERS. IN 1977, THE HSCRC NEGOTIATED A WAIVER FROM MEDICARE HOSPITAL PAYMENT RULES FOR MARYLAND HOSPITALS TO BRING THE FEDERAL MEDICARE PAYMENTS UNDER HSCRC CONTROL.</p> <p>IN 2014, MARYLAND'S WAIVER WITH MEDICARE WAS RENEGOTIATED AND UPDATED TO REFLECT THE CURRENT HEALTHCARE ENVIRONMENT. UNDER THIS NEW WAIVER, SEVERAL CRITERIA WERE ESTABLISHED TO MONITOR THE SUCCESS OF THE SYSTEM IN CONTROLLING HEALTHCARE COSTS AND THE CONTINUANCE OF THE WAIVER ITSELF:</p> <ol style="list-style-type: none"> 1. <p>SCHEDULE H, PART III, LINE 4 - FOOTNOTE IN ORGANIZATION'S FINANCIAL STATEMENTS DESCRIBING BAD DEBT</p>	<p>THE CORPORATION RECORDS REVENUES AND ACCOUNTS RECEIVABLE FROM PATIENTS AND THIRD-PARTY PAYORS AT THEIR ESTIMATED NET REALIZABLE VALUE. REVENUE IS REDUCED FOR ANTICIPATED DISCOUNTS UNDER CONTRACTUAL ARRANGEMENTS AND FOR CHARITY CARE. AN ESTIMATED PROVISION FOR BAD DEBTS IS RECORDED IN THE PERIOD THE RELATED SERVICES ARE PROVIDED BASED UPON ANTICIPATED UNCOMPENSATED CARE, AND IS ADJUSTED AS ADDITIONAL INFORMATION BECOMES AVAILABLE.</p> <p>THE PROVISION FOR BAD DEBTS IS BASED UPON MANAGEMENT'S ASSESSMENT OF HISTORICAL AND EXPECTED NET COLLECTIONS CONSIDERING HISTORICAL BUSINESS AND ECONOMIC CONDITIONS, TRENDS IN HEALTHCARE COVERAGE, AND OTHER COLLECTION INDICATORS. PERIODICALLY THROUGHOUT THE YEAR, MANAGEMENT ASSESSES THE ADEQUACY OF THE ALLOWANCE FOR UNCOLLECTIBLE ACCOUNTS BASED UPON HISTORICAL WRITE-OFF EXPERIENCE BY PAYOR CATEGORY. THE RESULTS OF THIS REVIEW ARE THEN USED TO MAKE MODIFICATIONS TO THE PROVISION FOR BAD DEBTS AND TO ESTABLISH AN ALLOWANCE FOR UNCOLLECTIBLE RECEIVABLES. AFTER COLLECTION OF AMOUNTS DUE FROM INSURERS, THE CORPORATION FOLLOWS INTERNAL GUIDELINES FOR PLACING CERTAIN PAST DUE BALANCES WITH COLLECTION AGENCIES.</p> <p>FOR RECEIVABLES ASSOCIATED WITH SERVICES PROVIDED TO PATIENTS WHO HAVE THIRD-PARTY COVERAGE, THE CORPORATION ANALYZES CONTRACTUALLY DUE AMOUNTS AND PROVIDES AN ALLOWANCE FOR BAD DEBTS, ALLOWANCE FOR CONTRACTUAL ADJUSTMENTS, PROVISION FOR BAD DEBTS, AND CONTRACTUAL ADJUSTMENTS ON ACCOUNTS FOR WHICH THE THIRD-PARTY PAYOR HAS NOT YET PAID OR FOR PAYORS WHO ARE KNOWN TO BE HAVING FINANCIAL DIFFICULTIES THAT MAKE THE REALIZATION OF AMOUNTS DUE UNLIKELY. FOR RECEIVABLES ASSOCIATED WITH SELF-PAY PATIENTS OR WITH BALANCES REMAINING AFTER THE THIRD-PARTY COVERAGE HAD ALREADY PAID, THE CORPORATION RECORDS A SIGNIFICANT PROVISION FOR BAD DEBTS IN THE PERIOD OF SERVICE ON THE BASIS OF ITS HISTORICAL COLLECTIONS, WHICH INDICATES THAT MANY PATIENTS ULTIMATELY DO NOT PAY THE PORTION OF THEIR BILL FOR WHICH THEY ARE FINANCIALLY RESPONSIBLE. THE DIFFERENCE BETWEEN THE DISCOUNTED RATES AND THE AMOUNTS COLLECTED AFTER ALL REASONABLE COLLECTION EFFORTS HAVE BEEN EXHAUSTED IS CHARGED AGAINST THE ALLOWANCE FOR DOUBTFUL ACCOUNTS.</p>

THERE WAS SOME VARIATION OF RESPONSES THROUGHOUT THE PAST 3 YEARS, BUT AN AVERAGE FROM 2017-2019 SHOWED 18.1% OF RESIDENTS REPORTED THEIR HEALTH WAS EXCELLENT, 38.3% REPORTED VERY GOOD, 29.9% REPORTED GOOD, 9.7% REPORTED FAIR, AND 3.7% REPORTED POOR.</p> <p>LEADING CAUSES OF DEATH AND HOSPITALIZATION</p> <p>IN THE 2021 COUNTY HEALTH RANKINGS, HARFORD COUNTY WAS RANKED 10TH OUT OF 24 JURISDICTIONS FOR HEALTH OUTCOMES. YEARS OF POTENTIAL LIFE LOST (YPLL) IS USED TO MEASURE PREMATURE MORTALITY (BEFORE AGE 75) RATHER THAN OVERALL MORTALITY IN ORDER TO FOCUS ON DEATHS THAT COULD HAVE BEEN PREVENTED. BASED ON 2017-2019 DATA, THE YPLL RATE WAS 6,900 PER 100,000 FOR ALL DEATHS IN HARFORD COUNTY AND 7,200 PER 100,000 IN MARYLAND. THIS RATE WAS ALSO SIGNIFICANTLY HIGHER FOR AFRICAN AMERICANS IN HARFORD WITH THE YPLL BEING 8,400 PER 100,000 DEATHS (COUNTY HEALTH RANKINGS AND ROADMAPS, 2021)</p> <p>ACCORDING TO THE MARYLAND VITAL STATISTICS ADMINISTRATION, THERE WERE 2,209 TOTAL DEATHS IN HARFORD COUNTY IN 2019 AND THE TOP 3 CAUSES OF DEATH WERE HEART DISEASE, CANCER, AND CEREBROVASCULAR DISEASE (STROKE) IN BOTH HARFORD COUNTY AND MARYLAND. CHRONIC OBSTRUCTIVE PULMONARY DISEASE (COPD) FALLS CLOSELY BEHIND STROKE AS THE 4TH LEADING CAUSE OF DEATH IN HARFORD COUNTY. IF THE TOP CAUSES OF DEATH REMAIN CONSISTENT FOR THE 2020 MARYLAND VITAL STATISTICS ANNUAL REPORT, COVID-19 WOULD LIKELY BE THE 3RD LEADING CAUSE OF DEATH IN HARFORD COUNTY AS THERE WERE 167 COVID-19 DEATHS IN 2020. THE AGE-ADJUSTED MORTALITY RATE FROM 2017-2019 FOR ALL CAUSES WAS 738.8 PER 100,000 DEATHS IN HARFORD COUNTY AND 713 PER 100,000 DEATHS IN MARYLAND. THE TRENDS OF MORTALITY RATES FOR SPECIFIC DISEASES ARE OUTLINED BELOW (MARYLAND DEPARTMENT OF HEALTH VITAL STATISTICS REPORT, 2019).</p> <p>EMERGENCY DEPARTMENT VISITS</p> <p>THE ED VISIT RATE FOR HARFORD FROM 2017-2019 WAS 919 PER 1,000 COMPARED TO THE STATE RATE OF 1,107 PER 1,000. THE HIGHEST RATES OF ED VISITS IN THE COUNTY WERE FOR RESIDENTS OF ABERDEEN (1607.6 PER 1,000) FOLLOWED BY EDGEWOOD (1459.62 PER 1,000) AND HAVRE DE GRACE (1378.80 PER 1,000) (CHESAPEAKE REGIONAL INFORMATION SYSTEM FOR OUR PATIENTS, 2020).</p> <p>THE CRISP REPORTING SYSTEM (CRS) REPORTED THAT THE TOP THREE CONDITIONS ASSOCIATED WITH AN ED VISIT WERE HYPERTENSION, SUBSTANCE USE DISORDER, AND MENTAL HEALTH CONDITIONS IN HARFORD COUNTY (CHESAPEAKE REGIONAL INFORMATION SYSTEM FOR OUR PATIENTS, 2020). THE STATE AS A WHOLE ALSO HAD THE SAME TOP 3 CONDITIONS, HOWEVER, THE STATE HAD A HIGHER PERCENTAGE OF ANY MENTAL HEALTH CONDITION VISITS COMPARED TO SUBSTANCE USE DISORDER. THIS MAY SUGGEST THAT THESE CONDITIONS WERE NOT BEING TREATED AS SUCCESSFULLY IN AN OUTPATIENT SETTING.</p> <p>CHRONIC AND COMMUNICABLE DISEASES</p> <p>WHILE THERE HAS BEEN A SLIGHT DECREASE IN MORTALITY RATES FOR HEART DISEASE IN HARFORD COUNTY, IT REMAINS THE LEADING MORTALITY RATE IN THE COUNTY. FOR 2017-2019 THE RATE WAS 163 PER 100,000 IN HARFORD AND 162 PER 100,000 IN MARYLAND (MARYLAND DEPARTMENT OF HEALTH VITAL STATISTICS REPORT, 2019).</p> <p>CANCER MORTALITY RATES ARE WORSE IN HARFORD COUNTY THAN FOR THE STATE OF MARYLAND. HOWEVER, THE CANCER MORTALITY RATES HAVE DECREASED OVER THE YEARS FOR BOTH HARFORD COUNTY AND MARYLAND (MARYLAND DEPARTMENT OF HEALTH VITAL STATISTICS REPORT, 2019). CANCERS OF THE LUNG, TRACHEA, AND BRONCHUS HAVE THE HIGHEST MORTALITY OF ALL CANCERS IN HARFORD COUNTY (45 PER 100,000) AND MARYLAND (38.8 PER 100,000). WHEN BREAKING DOWN THE INCIDENCE BY CANCER TYPE, BREAST AND PROSTATE CANCER HAD THE TOP 2 INCIDENCE RATES IN BOTH HARFORD AND THE STATE OF MARYLAND (U.S. CANCER STATISTICS WORKING GROUP, 2020).</p> <p>WHEN BROKEN DOWN BY RACE BY TYPE OF CANCER IN HARFORD COUNTY, THE INCIDENCE RATE FOR PROSTATE CANCER IN AFRICAN AMERICANS (239.9 PER 100,000) WAS ABOUT 2 TIMES THE INCIDENCE IN WHITES (119.6 PER 100,000) (U.S CANCER STATISTICS WORKING GROUP, 2020).</p> <p>CEREBROVASCULAR DISEASE (STROKE) CONTINUES TO BE ONE OF THE TOP CAUSES OF MORTALITY IN HARFORD COUNTY. IN 2017-2019 THE MORTALITY RATE WAS 38 PER 100,000 DEATHS AND HAS SLOWLY BEEN INCREASING OVER THE YEARS (MARYLAND DEPARTMENT OF HEALTH VITAL STATISTICS REPORT, 2019).</p> <p>THE BEHAVIORAL RISK FACTOR SURVEILLANCE SYSTEM (BRFSS) REPORTED THE PERCENTAGE OF ADULTS THAT WERE EVER TOLD THEY HAVE A CERTAIN CHRONIC CONDITION, OUTLINED IN THE CHART BELOW. IT IS ESTIMATED THAT ABOUT A THIRD OF ADULTS HAVE BEEN DIAGNOSED WITH HYPERTENSION (HIGH BLOOD PRESSURE), WHICH INCREASES THE RISK FOR HEART DISEASE AND STROKE (CDC). HYPERTENSION ALSO USUALLY PRESENTS NO SYMPTOMS, MAKING IT MORE CRITICAL TO MONITOR AND TAKE STEPS TO LOWER THE RISK. WHILE THE DIABETES OVERALL ESTIMATED DIAGNOSES IS 9.3% OF HARFORD ADULTS, THIS RATE IS SIGNIFICANTLY HIGHER IN AFRICAN AMERICANS (19%) VERSUS WHITE (8.3) RESIDENTS (MARYLAND DEPARTMENT OF HEALTH BEHAVIORAL RISK SURVEILLANCE SYSTEM, 2011-2019).</p> <p>A NOTIFIABLE DISEASE IS ANY CONDITION THAT, WHEN IDENTIFIED IN A PATIENT, IS REQUIRED TO BE REPORTED TO THE GOVERNMENT SO THAT ITS INCIDENCE CAN BE MONITORED FOR POTENTIAL OUTBREAKS AND CLUSTERING. THE NOTIFIABLE DISEASES ARE THEN REPORTED TO THE CENTERS FOR</p>

HARFORD COUNTY'S LYME DISEASE RATE WAS MORE THAN DOUBLE THE STATE RATE (54.8 PER 100,000 COMPARED TO 23.5 PER 100,000) (MARYLAND DEPARTMENT OF HEALTH CASES OF SELECTED NOTIFIABLE CONDITIONS, 2019).</p> <p>MATERNAL AND CHILD HEALTH</p> <p>MATERNAL CHARACTERISTICS AND BIRTH OUTCOMES IN HARFORD COUNTY VARY BY RACE, INDICATING HEALTH DISPARITIES EXIST FOR MOTHERS AND BABIES FOR RACIAL AND ETHNIC MINORITIES. A MOTHER'S WELLBEING BEFORE, DURING, AND AFTER PREGNANCY CAN AFFECT THE HEALTH OF A CHILD FROM INFANCY TO ADULTHOOD. INFANT'S WITH LOW BIRTH WEIGHT, ARE MORE LIKELY TO DIE BEFORE THEIR FIRST BIRTHDAY OR HAVE CHRONIC CONDITIONS WHEN THEY GET OLDER SUCH AS DIABETES, HEART DISEASE, OR HIGH BLOOD PRESSURE. IN 2019, THERE WERE 2,686 LIVE BIRTHS IN HARFORD COUNTY. AMONG ALL OF THE LIVE BIRTHS IN HARFORD COUNTY, 80.4% RECEIVED FIRST TRIMESTER CARE AND 4.8% RECEIVED LATE OR NO CARE DURING PREGNANCY (MARYLAND DEPARTMENT OF HEALTH VITAL STATISTICS REPORT, 2019)</p> <p>LIVE BIRTHS TO UNMARRIED MOTHERS WERE 34% OF ALL LIVE BIRTHS AND LIVE BIRTHS TO MOTHERS UNDER 20 YEARS OLD WAS JUST 2.3% OF ALL LIVE BIRTHS. THE RATES FOR LIVE BIRTHS WERE ESPECIALLY HIGHER IN NON-HISPANIC AFRICAN AMERICAN UNMARRIED MOTHERS (61.2%) AND HISPANIC UNMARRIED MOTHERS (48.4%). THE PERCENT OF MOTHERS IN HARFORD COUNTY WITH A LOW BIRTH WEIGHT CHILD IN 2019 WAS 8%. THIS PERCENTAGE WAS HIGHER IN AFRICAN AMERICAN (14.7%) AND HISPANIC (10%) MOTHERS THAN FOR WHITE MOTHERS (6%) (MARYLAND DEPARTMENT OF HEALTH VITAL STATISTICS REPORT, 2019). LOW BIRTH WEIGHT BABIES CAN LEAD TO POOR OUTCOMES AND HEALTH COMPLICATIONS.</p> <p>IN 2019, THE INFANT MORTALITY RATE IN HARFORD COUNTY WAS 5.6 PER 1,000 LIVE BIRTHS WHICH IS SLIGHTLY BELOW THE STATE AT 5.9 PER 1,000 LIVE BIRTHS. WHILE THIS IS A DROP FROM 2018 (6.5 PER 1,000), THE INFANT MORTALITY RATE IS STILL HIGHER THAN IT HAD BEEN IN PRIOR YEARS, WHILE THE INFANT MORTALITY RATE FOR THE STATE CONTINUES TO DECLINE (MARYLAND DEPARTMENT OF HEALTH VITAL STATISTICS REPORT, 2019). RACIAL DISPARITIES IN INFANT MORTALITY AND LOW BIRTH WEIGHT BIRTHS HAVE PERSISTED IN HARFORD COUNTY FOR THE PAST DECADE. IN FACT, THE RATE OF INFANT MORTALITY FOR BLACK BABIES HAS BEEN MORE THAN 3-4 TIMES HIGHER THAN THAT OF WHITE BABIES IN HARFORD COUNTY FOR MANY YEARS. IN 2018, THE INFANT MORTALITY RATE WAS 10.8 PER 1,000 LIVE BIRTHS FOR NON-HISPANIC BLACKS AND 4.2 PER 1,000 LIVE BIRTHS FOR NON-HISPANIC WHITES. RACISM, INTERGENERATIONAL STRESS, AND STRUCTURAL INEQUALITY CONTINUE TO FUEL MATERNAL AND CHILD HEALTH DISPARITIES IN HARFORD COUNTY.</p> <p>IN ADDITION, THE RATE FOR SUBSTANCE EXPOSED NEWBORNS (SEN) HAS SIGNIFICANTLY INCREASED FROM 2009 TO 2018 AND THE RATE IN HARFORD HAS BEEN HIGHER THAN THE STATE FOR AT LEAST 9 YEARS. IN 2018, THERE WERE 38.1 SEN PER 1,000 NEWBORN DISCHARGES IN HARFORD COUNTY COMPARED TO 31.4 SEN IN MARYLAND (HEALTH SERVICES COST REVIEW COMMISSION, 2018). WHILE RACIAL DATA ON SEN BIRTHS IN HARFORD COUNTY IS LIMITED, THE MOST RECENT DATA INDICATES THAT THE MAJORITY OF SEN BIRTHS ARE TO WHITE WOMEN IN THE COUNTY. WE RECOGNIZE THAT, IN ORDER FOR FAMILIES TO ACHIEVE AND MAINTAIN HEALTH AND RESILIENCY, THEY MUST BE GIVEN A SAFE SPACE TO ACCESS ESSENTIAL RESOURCES AND SUPPORT.</p>

INJURIES ACCOUNTED FOR 109 DEATHS IN 2019 FOR HARFORD COUNTY AND WERE THE 5TH LEADING CAUSE OF MORTALITY. THE SUICIDE RATE FOR HARFORD IN 2017-2019 WAS 11.4 PER 100,000 IN HARFORD WHICH WAS SLIGHTLY ABOVE THE STATE AT 10.1 PER 100,000 (MARYLAND DEPARTMENT OF HEALTH VITAL STATISTICS REPORT, 2019).</p> <p>FALLS IN OLDER ADULTS CAN LEAD TO SERIOUS INJURY, DISABILITY, AND PREVENT A SENIOR FROM BEING INDEPENDENT. THE 2018 BEHAVIORAL RISK SURVEILLANCE SYSTEM (BRFSS) ESTIMATES THAT 22.4% OF RESIDENTS IN HARFORD COUNTY AGES 45+ HAD FALLEN IN THE LAST YEAR. IN ADDITION, 7.2% OF THOSE THAT FELL WERE INJURED BY THE FALL (MARYLAND DEPARTMENT OF HEALTH BEHAVIORAL RISK FACTOR SURVEILLANCE SYSTEM, 2011-2019).</p> <p>BEHAVIORAL HEALTH</p> <p>THE BEHAVIORAL RISK FACTOR SURVEILLANCE SYSTEM (BRFSS) SURVEY ESTIMATED THAT IN 2019, 18.8% OF ADULTS IN HARFORD COUNTY WERE DIAGNOSED WITH DEPRESSIVE DISORDER (INCLUDING DEPRESSION, MAJOR DEPRESSION, DYSTHYMIA, OR MINOR DEPRESSION) (MARYLAND DEPARTMENT OF HEALTH BEHAVIORAL RISK FACTOR SURVEILLANCE SYSTEM, 2011-2019). MENTAL HEALTH CAN HAVE A HUGE IMPACT ON CHILDREN AS WELL. THE GRAPH BELOW REPORTS THE HARFORD COUNTY STUDENTS THAT HAVE FELT SAD OR HOPELESS FROM THE YOUTH RISK BEHAVIOR SURVEY (YRBS). AT LEAST 30% OF STUDENTS 10TH THRU 12TH GRADE FELT SAD OR HOPELESS IN 2018.</p> <p>WHILE PERCENTAGES DROPPED SLIGHTLY IN MIDDLE SCHOOL STUDENTS FROM 2016 TO 2018, A SIGNIFICANT PORTION OF STUDENTS ARE STILL AFFECTED BY MENTAL ILLNESS. THE SURVEY ALSO REPORTED THAT IN 2018, 18% OF HIGH SCHOOL STUDENTS SAID THEY HAD SERIOUSLY CONSIDERED SUICIDE IN THE LAST YEAR (MARYLAND DEPARTMENT OF HEALTH YOUTH RISK BEHAVIOR SURVEY, 2019).</p> <p>THE BRFSS ALSO LOOKS AT ADVERSE CHILDHOOD EXPERIENCES (ACES). THE CDC DESCRIBES ACES AS POTENTIALLY TRAUMATIC EVENTS THAT HAPPEN DURING A PERSON'S CHILDHOOD SUCH AS HOUSEHOLD MENTAL ILLNESS, PHYSICAL, SEXUAL, AND/OR EMOTIONAL ABUSE, AND AN INCARCERATED HOUSEHOLD MEMBER. THE MORE ACES A PERSON HAS EXPERIENCED, THE MORE LIKELY THEY WILL EXPERIENCE CHRONIC HEALTH CONDITIONS, MENTAL OR BEHAVIORAL HEALTH CHALLENGES, OR EARLY DEATH. IN FACT, AT LEAST 5 OF THE TOP LEADING CAUSES OF DEATH HAVE BEEN LINKED TO ACES (CENTERS FOR DISEASE CONTROL AND PREVENTION PREVENTING ACES, 2021). ALSO, EXPERIENCING 4 OR MORE ACES IS ASSOCIATED WITH A SIGNIFICANT INCREASE IN RISK FOR CHRONIC ILLNESS AND/OR SUICIDE. IN 2018, THE BRFSS ESTIMATED THAT 13.4% OF ADULTS EXPERIENCE 4 OR MORE ACES (MARYLAND DEPARTMENT OF HEALTH BEHAVIORAL RISK FACTOR SURVEILLANCE SYSTEM, 2011-2019).</p> <p>THE CRISP REPORTING SYSTEM (CRS) REPORTS HIGHER RATES OF HOSPITALIZATIONS IN HARFORD COUNTY (90 PER 1,000 FOR 2017-2020) FOR DEPRESSION THAN THE STATE (69 PER 1,000 FOR 2017-2020). THE TABLES BELOW OUTLINE THE HOSPITALIZATIONS AND ED VISITS FOR MENTAL HEALTH INDICATORS BY SELECT ZIP CODES. RATES OF DEPRESSION, SCHIZOPHRENIA, AND BIPOLAR DISORDER WERE HIGHER IN THE EDGEWOOD, ABERDEEN, AND HAVRE DE GRACE ZIP CODES THAN THE STATE AVERAGE FOR BOTH TOTAL HOSPITALIZATIONS AND ED VISITS. ALZHEIMER'S HOSPITALIZATIONS WERE PARTICULARLY HIGHER IN HAVRE DE GRACE (47.8 PER 1,000) AND DARLINGTON (48.7 PER 1,000) AND THERE WERE 17.7 PER 1,000 ED VISITS FOR ALZHEIMER'S AS WELL (CHESAPEAKE REGIONAL INFORMATION SYSTEM FOR OUR PATIENTS, 2020). THIS COULD BE DUE TO DARLINGTON AND HAVRE DE GRACE HAVING AN OLDER POPULATION.</p> <p>FROM 2013 TO 2017 THERE WAS A STEADY INCREASE IN TOTAL DRUG AND ALCOHOL-RELATED INTOXICATION DEATHS IN HARFORD COUNTY AND MARYLAND. FROM 2018 TO 2020, THERE WAS ABOUT A 17% DECREASE IN TOTAL DRUG AND ALCOHOL-INTOXICATION RELATED DEATHS IN HARFORD COUNTY (MARYLAND DEPARTMENT OF HEALTH UNINTENTIONAL DRUG AND ALCOHOL-RELATED INTOXICATION DEATHS, 2019). THERE WAS ALSO A 50% DECREASE IN HEROIN DEATHS FROM 2019 TO 2020. OPIOID AND FENTANYL-RELATED DEATHS HAVE REMAINED THE HIGHEST CAUSE OF INTOXICATION DEATH OVER THE PAST FEW YEARS.</p> <p>ACCESS TO HEALTH CARE</p> <p>ACCESS TO HEALTH CARE HAS A SIGNIFICANT INFLUENCE ON A PERSON'S OVERALL HEALTH AND WELLBEING. HEALTH INSURANCE IS A MAJOR CONTRIBUTOR TO ACCESS TO CARE AS WELL AS PHYSICIAN SHORTAGES AND LACK OF TRANSPORTATION.</p> <p>INSURANCE COVERAGE</p> <p>HEALTH INSURANCE ALLOWS MORE PEOPLE TO RECEIVE QUALITY HEALTH CARE AND IMPROVE OVERALL HEALTH AND WELLNESS. PEOPLE WITHOUT HEALTH INSURANCE MAY BE MORE LIKELY TO DELAY OR SKIP RECEIVING HEALTH CARE OR GETTING PREVENTIVE SCREENINGS DUE TO THE COST. THE 2019 BEHAVIORAL RISK FACTOR SURVEILLANCE SYSTEM (BRFSS) ESTIMATED THAT 9.6% OF HARFORD COUNTY RESIDENTS WERE UNABLE TO SEE A DOCTOR DUE TO COST IN THE PAST 12 MONTHS. IN HARFORD COUNTY, 3.4% OF RESIDENTS ARE UNINSURED COMPARED TO 6.1% OF RESIDENTS IN MARYLAND (U.S. CENSUS BUREAU, 2015-2019)</p> <p>WHILE THE UNINSURED RATE FOR THE COUNTY IS RELATIVELY LOW, DISPARITIES IN COVERAGE EXIST. 14.2% OF HISPANIC/LATINO RESIDENTS ARE UNINSURED COMPARED TO 2.6% WHITE RESIDENTS (U.S. CENSUS BUREAU, 2015-2019).</p> <p>WHILE A SMALL ZIP-CODE, PERRYMAN HAS 44.2% OF ITS RESIDENTS UNINSURED. HIGHER RATES OF THOSE UNINSURED WERE IN DARLINGTON (6%), EDGEWOOD (5.2%) AND ABERDEEN (5.1%) WITH THE LOWEST UNINSURED RATE IN MONKTON (0.9%) (U.S. CENSUS BUREAU, 2015-2019).</p> <p>ACCESS TO PRIMARY CARE AND PREVENTIVE SERVICE</p> <p>REGULAR EXAMS AND SCREENING TESTS PLAY A KEY ROLE IN DETECTING DISEASE EARLY WHICH CAN LEAD TO PROPER INTERVENTION. THE 2021 COUNTY HEALTH RANKINGS ESTIMATE THAT THERE ARE 140 PRIMARY CARE PHYSICIANS BASED ON 2018 DATA (COUNTY HEALTH RANKINGS, AND ROADMAPS, 2021).</p> <p>THE RATIO OF THE POPULATION TO PRIMARY CARE PHYSICIANS IN HARFORD COUNTY IS 1,810:1. THIS RATE HAS BEEN GETTING WORSE OVER THE YEARS AND IS WORSE THAN THE STATE RATIO AT 1,130:1 (COUNTY HEALTH RANKINGS AND ROADMAPS, 2021).</p> <p>THE HEALTH RESOURCES AND SERVICES ADMINISTRATION (HRSA) DESIGNATES AND SCORES AREAS IN THE COUNTRY THAT ARE EXPERIENCING A SHORTAGE OF HEALTHCARE FACILITIES. FOR PRIMARY CARE, THE HRSA GAVE THE EDGEWOOD AREA A HEALTH PROFESSIONAL SHORTAGE AREA SCORE OF 10 OUT OF A MAXIMUM OF 26 (HEALTH RESOURCES AND SERVICES ADMINISTRATION, N.D.)</p> <p>ACCESS TO BEHAVIORAL HEALTH</p> <p>MENTAL HEALTH IS JUST AS IMPORTANT AS PHYSICAL HEALTH FOR OVERALL HEALTH AND WELL-BEING. MENTAL ILLNESS CAN ALSO LEAD TO PHYSICAL ILLNESS SUCH AS HEART DISEASE AND TYPE 2 DIABETES. ALTHOUGH THE PANDEMIC HAS MADE MENTAL HEALTH SERVICES EASIER TO ACCESS THROUGH TELEHEALTH, THE RATIO OF THE HARFORD COUNTY POPULATION TO MENTAL HEALTH PROVIDERS WAS 500:1 AND THERE WERE 508 TOTAL MENTAL HEALTH PROVIDERS IN HARFORD COUNTY FOR 2020 (COUNTY HEALTH RANKINGS AND ROADMAPS, 2021). THIS RATIO IS WORSE THAN THE STATE AT 360:1.</p> <p>WHEN LOOKING AT SHORTAGE AREAS IN THE COUNTY FOR MENTAL HEALTH, THE HEALTH RESOURCES AND SERVICES ADMINISTRATION (HRSA) DESIGNATES HARFORD COUNTY AS A WHOLE AS A MENTAL HEALTH SHORTAGE AREA WITH A SCORE OF 5 OUT OF A MAXIMUM OF 26 (HEALTH RESOURCES AND SERVICES ADMINISTRATION, N.D). THERE ARE OPIOID TREATMENT PROGRAMS (OTPS) THAT ARE HOSPITAL AND COMMUNITY BASED THAT PROVIDE MEDICATION ASSISTED TREATMENT (MAT), COUNSELING AND BEHAVIORAL THERAPY TO PEOPLE EXPERIENCING OPIOID USE DISORDERS. HARFORD COUNTY HAS 9 OTP SERVICE PROVIDERS, WHICH IS THE 3RD HIGHEST IN THE STATE. THE COUNTY SERVED 43.2 PER 1,000 MEDICAID ELIGIBLE AT THESE OTPS, COMPARED TO 24.2 PER 1,000 IN THE STATE IN 2019 (MARYLAND DEPARTMENT OF HEALTH BEHAVIORAL HEALTH ADMINISTRATION, 2020).</p>

Report of Independent Auditors

The Board of Directors
University of Maryland Medical System Corporation

Opinion

We have audited the consolidated financial statements of University of Maryland Medical System Corporation and Subsidiaries (the Corporation), which comprise the consolidated balance sheets as of June 30, 2022 and 2021, and the related consolidated statements of operations, changes in net assets, and cash flows for the years then ended, and the related notes (collectively referred to as the “financial statements”).

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Corporation at June 30, 2022 and 2021, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Corporation and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Corporation’s ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Auditor’s Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free of material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

1. Organization and Summary of Significant Accounting Policies

Organization

The University of Maryland Medical System Corporation (the Corporation or UMMS) is a private, not-for-profit corporation, providing comprehensive healthcare services through an integrated regional network of hospitals and related clinical enterprises. UMMS was created in 1984 when its founding hospital was privatized by the State of Maryland. Prior to that time, the founding hospital was state-owned, operated and financed as part of the University of Maryland, now a part of the University System. As part of the privatization process, the Maryland General Assembly and the University of Maryland's Board of Regents adopted legislation (the Governance Legislation) separating the major health care delivery components from the University System to UMMS. This Governance Legislation provides for a certain level of oversight by the State of Maryland to ensure UMMS' founding purposes are consistently set forth in its functions and operating practices.

Over its history, UMMS evolved into a multi-hospital system with academic, community and specialty service missions reaching primarily across Maryland. In continuing partnership with the University of Maryland School of Medicine, UMMS operates healthcare programs that improve the physical and mental health of thousands of people each day.

The accompanying consolidated financial statements include the accounts of the Corporation, its wholly owned subsidiaries, and entities controlled by the Corporation. In addition, the Corporation maintains equity interests in various unconsolidated joint ventures, which are described in Note 5. The significant operating divisions of the Corporation are described in further detail below.

All material intercompany balances and transactions have been eliminated in consolidation.

Recent Acquisitions and Divestitures

During the year ended June 30, 2021, the Corporation signed a letter of intent to sell the assets and liabilities of UM Health Plans, which included both the Medicaid Plan and Medicare Advantage Plan. Based on the criteria in Accounting Standards Codification (ASC) 205, *Discontinued Operations*, it was determined that the pending sale met the criteria for discontinued operations treatment.

1. Organization and Summary of Significant Accounting Policies (continued)

For the years ended June 30, 2022 and 2021, operating revenues from discontinued operations were \$0 and approximately \$117,112, respectively. For the years ended June 30, 2022 and 2021, operating and nonoperating expenses from discontinued operations were \$0 and approximately \$114,375, respectively. The transaction was completed on October 10, 2020, resulting in a loss on sale of \$3,266, which is included in the net loss from discontinued operations of \$529 for the year ended June 30, 2021.

University of Maryland Medical Center (Medical Center)

The Medical Center, which is a major component of UMMS, is a 806-bed academic medical center located in Baltimore. The Medical Center has served as the teaching hospital of the School of Medicine of the University System of Maryland, Baltimore since 1823. As part of the privatization in 1984, only clinical faculty members of the School of Medicine may serve as medical staff of the Medical Center.

The Medical Center is comprised of two operating divisions: University Hospital, which includes the Greenebaum Cancer Center, and Shock Trauma Center. University Hospital, which generates approximately 80% of the Medical Center's admissions and patient days, is a tertiary teaching hospital providing over 70 clinical services and programs. The Greenebaum Cancer Center specializes in the treatment of cancer patients and is a site for clinical cancer research. The Shock Trauma Center, which specializes in emergency treatment of patients suffering severe trauma, generates approximately 20% of admissions and patient days.

The Medical Center's operations include University CARE, LLC (UCARE), a physician hospital organization of which the Corporation owns a majority ownership interest and therefore consolidates, and 36 South Paca Street, LLC, a wholly owned subsidiary of the Corporation that operates a residential apartment building.

The Corporation has certain agreements with various departments of the University of Maryland School of Medicine concerning the provision of professional and administrative services to the Corporation and its patients. Total expense under these agreements in the years ended June 30, 2022 and 2021 was approximately \$201,321 and \$190,417, respectively.

Basis of Presentation

The consolidated financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

University of Maryland Medical System Corporation and Subsidiaries

Notes to Consolidated Financial Statements (continued) (In Thousands)

1. Organization and Summary of Significant Accounting Policies (continued)

Cash and Cash Equivalents

Cash and cash equivalents, excluding amounts shown within investments and assets limited as to use, consist of cash and interest-bearing deposits with maturities of three months or less from the date of purchase. Cash and cash equivalent balances may exceed amounts insured by federal agencies and, therefore, bear a risk of loss. The Corporation has not experienced such losses on these funds.

Investments and Assets Limited as to Use

The Corporation's investment portfolios, except alternative investments, are classified as trading and are reported in the consolidated balance sheets as long-term assets at June 30, 2022 and 2021. Unrealized holding gains and losses on trading securities with readily determinable market values, as well as alternative investments, are included in nonoperating income. Investment income, including realized gains and losses, is included in nonoperating income in the accompanying consolidated statements of operations and changes in net assets.

Assets limited as to use include investments set aside at the discretion of the board of directors for the replacement or acquisition of property and equipment, investments held by trustees under bond indenture agreements and self insurance trust arrangements, and assets whose use is restricted by donors. Restricted investments are recorded in net assets with donor restrictions unless otherwise required by the donor or state law. Assets limited as to use also include the Corporation's economic interests in financially interrelated organizations (Note 13).

Alternative investments, which the Corporation defines to include multi-strategy commingled funds, hedge funds, hedge fund-of-funds, and private equity investments, are recorded under the equity method of accounting. The equity method reflects the Corporation's share of the net asset values, as a practical expedient, which is based on the unit values of the interest as determined by the issuer sponsoring such interest dividing the fund's net assets at fair value by its units outstanding at the valuation dates. Because certain investments are not readily marketable, their fair value is subject to additional uncertainty and, therefore, values realized upon disposition may vary significantly from current reported values.

1. Organization and Summary of Significant Accounting Policies (continued)

Investments are exposed to certain risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, changes in the value of investment securities could occur in the near term, and these changes could materially differ from the amounts reported in the accompanying consolidated financial statements.

Inventories

Inventories, consisting primarily of drugs and medical/surgical supplies, are carried at the lower of cost or market, on a first-in, first-out basis.

Economic Interests in Financially Interrelated Organizations

The Corporation recognizes its rights to assets held by recipient organizations, which accept cash or other financial assets from a donor and agree to use those assets on behalf of or transfer those assets, the return on investment of those assets, or both, to the Corporation. Changes in the Corporation's economic interests in these financially interrelated organizations are recognized in the accompanying consolidated statements of changes in net assets.

Property and Equipment

Property and equipment are stated at cost or estimated fair value at date of contribution, less accumulated depreciation. Depreciation is provided on a straight-line basis over the estimated useful lives of the depreciable assets. The estimated useful lives of the assets are as follows:

Buildings	20 to 40 years
Building and leasehold improvements	5 to 15 years
Equipment	3 to 15 years

Interest costs incurred on borrowed funds less interest income earned on the unexpended bond proceeds during the period of construction are capitalized as a component of the cost of acquiring those assets.

University of Maryland Medical System Corporation and Subsidiaries

Notes to Consolidated Financial Statements (continued) (In Thousands)

1. Organization and Summary of Significant Accounting Policies (continued)

Gifts of long-lived assets, such as land, buildings, or equipment, are reported as unrestricted support unless explicit donor stipulations specify how the donated assets must be used. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used and gifts of cash or other assets that must be used to acquire long-lived assets are reported as restricted support. Absent explicit donor stipulations about how long those long-lived assets must be maintained, expirations of donor restrictions are reported when the donated or acquired long-lived assets are placed in service.

Deferred Financing Costs

Costs incurred related to the issuance of long-term debt, which are included in long-term debt, are deferred and are amortized over the life of the related debt agreements or the related letter of credit agreements using the effective-interest method.

Impairment of Long-Lived Assets

Long-lived assets, such as property, plant, and equipment, and purchased intangibles subject to amortization, are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by comparing the carrying amount of an asset to estimated undiscounted future cash flows expected to be generated by the asset. If the carrying amount of an asset exceeds its estimated future cash flows, an impairment charge is recognized in the amount by which the carrying amount of the asset exceeds the fair value of the asset. Assets to be disposed of would be separately presented in the consolidated balance sheets and reported at the lower of the carrying amount or fair value less costs to sell, and are no longer depreciated. The assets and liabilities of a disposed group classified as held for sale would be presented separately in the appropriate asset and liability sections of the consolidated balance sheets.

Impairment losses of \$2,274 and \$2,900 were recorded for the years ended June 30, 2022 and 2021, respectively.

Investments in Joint Ventures

When the Corporation does not have a controlling interest in an entity where less than 50% of the voting common stock is owned or does not exert a significant influence over the entity, the Corporation applies the equity method of accounting.

University of Maryland Medical System Corporation and Subsidiaries

Notes to Consolidated Financial Statements (continued) (In Thousands)

1. Organization and Summary of Significant Accounting Policies (continued)

Self-Insurance

Under the Corporation's self-insurance programs (general and professional liability, workers' compensation, and employee health and long-term disability benefits), incurred claims are estimated primarily based upon actuarial methods which include incurred but not reported claims analysis and reported claims the severity of incidents and the expected timing of claim payments. These estimates are continually reviewed and adjusted as necessary based on experience. These adjustments are recorded within the current period operating income.

Net Assets

The Corporation classifies net assets based on the existence or absence of donor-imposed restrictions. Net assets without donor restrictions represent contributions, gifts, and grants, which have no donor-imposed restrictions or which arise as a result of operations. Net assets with donor restrictions are subject to donor-imposed restrictions that must or will be met either by satisfying a specific purpose and/or passage of time. Generally, the donors of these assets permit the use of all or part of the income earned on related investments for specific purposes. The restrictions associated with these net assets generally pertain to patient care, specific capital projects, and funding of specific hospital operations and community outreach programs.

Net Patient Service Revenue and Patient Accounts Receivable

In accordance with ASC 606, *Revenue from Contracts with Customers*, net patient service revenue, which includes hospital inpatient services, hospital outpatient services, physician services, and other patient services revenue, is recorded at the transaction price estimated by the Corporation to reflect the total consideration due from patients and third-party payors (including commercial payors and government programs) and others. Revenue is recognized over time as performance obligations are satisfied in exchange for providing goods and services in patient care. Revenue is recorded as these goods and services are provided. The services provided to a patient during an inpatient stay or outpatient visit represent a bundle of goods and services that are distinct and accounted for as a single performance obligation.

1. Organization and Summary of Significant Accounting Policies (continued)

The Corporation's estimate of the transaction price includes the Corporation's standard charges for the goods and services provided, with a reduction recorded related to explicit price concessions for such items as contractual allowances, charity care, potential adjustments that may arise from payment and other reviews, and implicit price concessions, such as uncollectible amounts. The price concessions are determined using the portfolio approach as a practical expedient to account for patient contracts as collective groups rather than individually. Based on historical experience, a significant portion of the self-pay population will be unable or unwilling to pay for services and only the amount anticipated to be collected is recognized in the transactions price. Subsequent changes to the estimate of the transaction price are generally recorded as adjustments to net patient service revenue in the period of change. Subsequent changes that are determined to be the result of an adverse change in the payor's or patient's ability to pay are considered bad debt expense and recorded within operating expenses. Estimates for uncollectible amounts are based on the historical collections experience for similar payors and patients, current market conditions, and other relevant factors. The Corporation recognizes a significant amount of patient service revenue even though it does not assess the patient's ability to pay.

The standard charges for goods and services for the Medical Center, ROI, Midtown, Baltimore Washington, Shore Regional, Charles Regional, St. Joseph, Upper Chesapeake, and Capital Region reflects actual charges to patients based on rates established by the State of Maryland Health Services Cost Review Commission (HSCRC) in effect during the period in which the services are rendered. See Note 20 for further discussion on the HSCRC and regulated rates.

Patient accounts are recorded at the net realizable value based on certain assumptions determined by each payor. For third-party payors, including Medicare, Medicaid, and commercial insurance, the net realizable value is based on the estimated contractual adjustments which are based on approved discounts on charges as permitted by the HSCRC. For self-pay accounts, which include patients who are uninsured and the patient responsibility portion for patients with insurance, the net realizable value is determined using estimates of historical collection experience.

The Corporation has elected to apply the optional exemption in ASC 606-10-50-14a, as all performance obligations relate to contracts with a duration of less than one year. Under this exemption, the Corporation was not required to disclose the aggregate amount of the transaction price allocated to performance obligations that are unsatisfied or partially unsatisfied at the end of the reporting period. Any unsatisfied or partially unsatisfied performance obligations at the end of the year are completed within days or weeks of the end of the year.

Net patient service revenue by line of business is as follows:

	Year Ended June 30	
	2022	2021
Hospital inpatient and outpatient services	\$ 4,233,750	\$ 4,013,287
Physician services	284,410	267,800

Net patient service revenue	\$ 4,523,407	\$ 4,288,842

Charity Care

The Corporation is committed to providing quality healthcare to all, regardless of one's ability to pay. Patients who meet the criteria of the Corporation's charity care policy receive services without charge or at amounts less than its established rates. The criteria for charity care consider the household income in relation to the federal poverty guidelines. The Corporation provides services at no charge for patients with adjusted gross income equal to or less than 200% of the federal poverty guidelines. For uninsured patients with adjusted gross income greater than 200% of the federal poverty guidelines, a sliding scale discount is applied. Income and asset information obtained from patient credit reporting data are used to determine patients' ability to pay. The Corporation maintains records to identify and monitor the level of charity care it furnished under its charity care policy.

Due to the complexity of the eligibility process, the Corporation provides eligibility services to patients free of charge to assist in the qualification process. These eligibility services include, but are not limited to, the following:

- Financial assistance brochures and other information are posted at each point of service. When patients have questions or concerns, they are encouraged to call a toll-free number to reach customer service representatives during the business day. Financial assistance programs are published on the Corporation's website and are included on the statements provided to patients.

1. Organization and Summary of Significant Accounting Policies (continued)

- The Corporation offers assistance to patients in completing the applications for Medicaid or other government payment assistance programs, or applying for care under the Corporation's charity care policy, if applicable. The Corporation also employs an external firm to assist in the eligibility process.
- Any patient, whether covered by insurance or not, may meet with a UMMS representative and receive financial counseling from UMMS' dedicated financial assistance unit.

The Corporation recognizes that a large number of uninsured and insured patients meet the charity care guidelines, but do not respond to the Corporation's attempts to obtain necessary financial information. In these instances, the Corporation uses credit reporting data to properly classify these unpaid balances as charity care as opposed to bad debt expense. Utilization of income and asset information and credit reporting data indicate the vast majority of amounts reported as uncollectible (implicit price concessions) represent amounts due from patients that would otherwise qualify for charity benefits, but do not respond to the Corporation's attempts to obtain the necessary financial information. In these cases, reasonable collection efforts are pursued, but yield few collections. Amounts determined to meet the criteria under the charity care policy or determined to be uncollectible from patients are reported as reductions to net patient service revenue.

The amounts reported as charity care represent the cost of rendering such services. Costs incurred are estimated based on the cost to charge ratio for each hospital and applied to charity care charges. The Corporation estimates the total direct and indirect costs to provide charity care were approximately \$49,429 and \$48,257 for the years ended June 30, 2022 and 2021, respectively.

Nonoperating Income and Expenses, Net

Other activities that are only indirectly related to the Corporation's primary business of delivering healthcare services are recorded as nonoperating income and expenses, and include investment income, equity in the net income of joint ventures, general donations and fund-raising activities, inherent contributions, changes in fair value of investments, changes in fair value of undesignated interest rate swaps, and settlement payments on interest rate swaps that do not qualify for hedge accounting treatment. Settlement payments on interest rate swaps were approximately \$23,661 and \$24,527 for the years ended June 30, 2022 and 2021, respectively, and are reported within other nonoperating losses, net.

Derivative Financial Instruments

The Corporation records derivative and hedging activities on the consolidated balance sheets at their respective fair values.

The Corporation utilizes derivative financial instruments to manage its interest rate risks associated with long-term tax-exempt debt. The Corporation does not hold or issue derivative financial instruments for trading purposes.

The Corporation's specific goals are to: (a) manage interest rate sensitivity by modifying the reprising or maturity characteristics of some of its tax-exempt debt, and (b) lower unrealized appreciation or depreciation in the market value of the Corporation's fixed-rate tax-exempt debt when that market value is compared with the cost of the borrowed funds. The effect of this unrealized appreciation or depreciation in market value; however, will generally be offset by the income or loss on the derivative instruments that are linked to the debt.

All derivative instruments are reported as other assets or interest rate swap liabilities in the consolidated balance sheets and measured at fair value. Currently, the Corporation is accounting for its interest rate swaps as economic hedges at fair value, with changes in the fair value recognized in other nonoperating income and expenses.

(Deficit) Excess of Revenue over Expenses from Continuing Operations

The accompanying consolidated statements of operations and changes in net assets include a performance indicator, (deficit) excess of revenues over expenses from continuing operations. Changes in net assets without donor restrictions that are excluded from the performance indicator, consistent with industry practice, include contributions of long-lived assets (including assets acquired using contributions, which, by donor restrictions, were to be used for the purpose of acquiring such assets), changes in the funded status of defined benefit pension plans, and other items that are required by generally accepted accounting principles to be reported separately.

Income Taxes

The Corporation and most of its subsidiaries are not-for-profit corporations formed under the laws of the State of Maryland, organized for charitable purposes and recognized by the Internal Revenue Service as tax-exempt organizations under Section 501(c)(3) of the Internal Revenue Code (the Code), pursuant to Section 501(a) of the Code. The effect of the taxable status of its for-profit subsidiaries is not material to the consolidated financial statements.

The Corporation follows a threshold of more likely than not for recognition and derecognition of tax positions taken or expected to be taken in a tax return. Management does not believe that there are any unrecognized tax liabilities or benefits that should be recognized.

Donor-Restricted Gifts

Unconditional promises to give cash and other assets to the Corporation are reported at fair value at the date the promise is received. Conditional promises to give and indications of intentions to give are reported at fair value at the date the promise becomes unconditional. Contributions are reported as net assets with donor restrictions if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction is satisfied, net assets with donor restrictions are reclassified as net assets without donor restrictions and reported in the consolidated statements of operations and changes in net assets as net assets released from restrictions. Such amounts are classified as other revenue or transfers and additions to property and equipment. Donor-restricted contributions whose restrictions are met within the same year as received are reported as unrestricted contributions on the accompanying consolidated statements of operations and changes in net assets. Contributed nonfinancial assets received from donors are subsequently monetized.

Contributions to be received after one year are discounted at a fixed discount rate commensurate with the risks involved. An allowance for uncollectible contributions receivable is provided based upon management's judgment, including such factors as prior collection history, type of contributions, and nature of fund-raising activity.

Fair Value Measurements

The following methods and assumptions were used by the Corporation in estimating the fair value of its financial instruments:

Cash and cash equivalents, accounts receivable, assets limited as to use, investments, trade accounts payable, accrued payroll and benefits, other accrued expenses, and advances from third-party payors – The carrying amounts reported in the consolidated balance sheets approximate the related fair values.

Pension plan assets – The Corporation applies Accounting Standards Update 2009-12, *Fair Value Measurements and Disclosures (Topic 820): Investments in Certain Entities That Calculate Net Asset per Share (or Its Equivalent)*, to its pension plan assets. The guidance permits, as a practical expedient, fair value of investments within its scope to be estimated using the net asset value (NAV) or its equivalent. The alternative investments classified within the fair value hierarchy have been recorded using the NAV.

The Corporation discloses its financial assets, financial liabilities, and fair value measurements of nonfinancial items according to the fair value hierarchy required by accounting principles generally accepted in the United States of America that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

- Level 1 inputs are quoted market prices (unadjusted) in active markets for identical assets or liabilities that the Corporation has the ability to access at the measurement date.
- Level 2 inputs are inputs other than quoted market prices including within Level 1 that are observable for the asset or liability, either directly or indirectly. If the asset or liability has a specified (contractual) term, a Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 inputs are unobservable inputs for the asset or liability.

Notes to Consolidated Financial Statements (continued) (In Thousands)

1. Organization and Summary of Significant Accounting Policies (continued)

Assets and liabilities classified as Level 1 are valued using unadjusted quoted market prices for identical assets or liabilities in active markets. The Corporation uses techniques consistent with the market approach and the income approach for measuring fair value of its Level 2 and Level 3 assets and liabilities. The market approach is a valuation technique that uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities. The income approach generally converts future amounts (cash flows or earnings) to a single present value amount (discounted).

The level in the fair value hierarchy within which a fair value measurement in its entirety falls is based on the lowest level of input that is significant to the fair value measurement in its entirety.

As of June 30, 2022 and 2021, the Level 2 assets and liabilities listed in the fair value hierarchy tables presented in Notes 3 and 11 utilize the following valuation techniques and inputs:

Cash Equivalents

The fair value of investments in cash equivalent securities, with maturities within three months of the date of purchase, is determined using techniques that are consistent with the market approach. Significant observable inputs include reported trades and observable broker-dealer quotes.

U.S. Government and Agency Securities

The fair value of investments in U.S. Government, state, and municipal obligations is primarily determined using techniques consistent with the income approach. Significant observable inputs to the income approach include data points for benchmark constant maturity curves and spreads. U.S. Government and agency securities also include treasury notes that are based on quoted market prices in active markets.

Corporate Obligations

The fair value of investments in U.S. and international corporate bonds, including commingled funds that invest primarily in such bonds and foreign government bonds, is primarily determined using techniques that are consistent with the market approach. Significant observable inputs include benchmark yields, reported trades, observable broker-dealer quotes, issuer spreads, and security specific characteristics, such as early redemption options. The fair value of collateralized

1. Organization and Summary of Significant Accounting Policies (continued)

corporate obligations is primarily determined using techniques consistent with the income approach, such as a discounted cash flow model. Significant observable inputs include prepayment speeds and spreads, benchmark yield curves, volatility measures, and quotes. Corporate obligations also include commercial paper that is based on quoted market prices in active markets.

Derivative Liabilities

The fair value of derivative contracts is primarily determined using techniques consistent with the market approach. Derivative contracts include interest rate, credit default, and total return swaps. Significant observable inputs to valuation models include interest rates, treasury yields, volatilities, credit spreads, maturity, and recovery rates.

Alternative Investments

Alternative investments measured at fair value represent funds included on the consolidated balance sheet that are reported using NAV as a practical expedient. These amounts are not required to be categorized in the fair value hierarchy. The fair value of these investments is based on the net asset value information provided by the general partners. Fair value is based on the proportionate share of the NAV based on the most recent partners' capital statements received from the general partners. Certain alternative investments are utilizing NAV to calculate fair value and are included in alternative investments in the fair value hierarchy tables presented in Note 3.

Commitments and Contingencies

Liabilities for loss contingencies arising from claims, assessments, litigation, fines, penalties, and other sources are recorded when it is probable that a liability has been incurred and the amount can be reasonably estimated. Legal costs incurred in connection with loss contingencies are expensed as incurred.

Going Concern

Management evaluates whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Corporation's ability to continue as a going concern within one year after the date the consolidated financial statements are issued. As of the date of this report, there are no conditions or events that raise substantial doubt about the Corporation's ability to continue as a going concern.

Use of Estimates

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

2. COVID-19 Pandemic and the Coronavirus Aid, Relief, and Economic Security (CARES) Act of 2020

In response to COVID-19, the CARES Act was signed into law on March 27, 2020. The CARES Act authorizes funding to hospitals and other healthcare providers to be distributed through the Public Health and Social Services Emergency Fund (Relief Fund). Payments from the Relief Fund are to be used to prevent, prepare for, and respond to COVID-19 and shall reimburse the recipient for health care related expenses or lost revenues attributable to COVID-19. Such amounts are not required to be repaid, provided the recipients attest to and comply with the terms and conditions.

The U.S. Department of Health and Human Services' distributions from the Relief Fund include general distribution and targeted distributions to support hospitals in high impact areas and rural providers. For the years ended June 30, 2022 and 2021, the Corporation received and recognized as other operating revenue approximately \$22,683 and \$155,723, respectively, in relief funding.

In April 2020, the Corporation requested Medicare advanced payments under the Centers for Medicare & Medicaid Services' Accelerated and Advanced Payment Program designed to increase cash flow to Medicare providers and suppliers impacted by COVID-19. The Medicare advanced payment program allows eligible health care facilities to request up to six months of advance Medicare payments for acute care hospitals or up to three months of advance Medicare payments for other health care providers. The Corporation received approximately \$641,300 of advanced payments with repayment to occur based upon the terms and conditions of the program. The remaining balance of \$105,063 as of June 30, 2022 represents contract liabilities under Topic 606 and is recorded in advances from third-party payors within the accompanying consolidated balance sheet as of June 30, 2022.

2. COVID-19 Pandemic and the Coronavirus Aid, Relief, and Economic Security (CARES) Act of 2020 (continued)

At June 30, 2022, the Corporation deferred \$38,331, which is recorded in accrued payroll in the accompanying consolidated balance sheet.

Self-insurance trust funds include amounts held by the Maryland Medicine Comprehensive Insurance Program (MMCIP) for payment of malpractice claims. These assets consist primarily of cash, stocks and fixed-income, corporate obligations, and alternative investments. MMCIP is a funding mechanism for the Corporation's malpractice insurance program. As MMCIP is not an insurance provider, transactions with MMCIP are recorded under the deposit method of accounting. Accordingly, the Corporation accounts for its participation in MMCIP by carrying limited-use assets representing the amount of funds contributed to MMCIP and recording a liability for claims, which is included in other current and other long-term liabilities in the accompanying consolidated balance sheets. These assets include the Corporation's portion of the investment pool shared with University of Maryland Faculty Physicians, Inc., which is part of the University of Maryland School of Medicine.

6. Leases

The Corporation determines if an arrangement is a lease at inception. Operating leases are included in other assets, other current liabilities, and other long-term liabilities on the consolidated balance sheets. Finance leases are included in property, plant, and equipment, other current liabilities, and other long-term liabilities on the accompanying consolidated balance sheets.

The Corporation's leases primarily consist of real estate leases for medical and administrative office buildings and the Corporation determines if an arrangement is a lease at inception of the contract. Operating leases are included in other assets, other current liabilities, and other long-term liabilities on the consolidated balance sheet. Finance leases are included in property, plant, and equipment, other current liabilities, and other long-term liabilities on the accompanying consolidated balance sheets.

6. Leases (continued)

Lease liabilities are recognized based on the present value, net of the future minimum lease payments over the lease term using the Corporation's incremental borrowing rate based on the information available at commencement. The ROU asset is derived from the lease liability and also includes any lease payments made and excludes lease incentives and initial direct costs incurred. Certain lease agreements for real estate include payments based on actual common area maintenance expenses, and others include rental payments adjusted periodically for inflation. These variable lease payments are recognized in purchased services, net, but are not included in the ROU asset or liability balances. Lease agreements may include one or more renewal options which are at the Corporation's sole discretion. The Corporation does not consider the renewal options to be reasonably likely to be exercised; therefore, they are not included in ROU assets and lease liabilities. Lease expense for minimum lease payments is recognized on a straight-line basis over the lease term for operating leases.

In accordance with ASC 842, *Leases*, the Corporation has elected to not recognize ROU assets and lease liabilities for short-term leases with a lease term of 12 months or less. The Corporation recognizes the lease payments associated with its short-term leases as an expense on a straight-line basis over the lease term. Variable lease payments associated with these leases are recognized and presented in the same manner as all other leases.

The following table summarizes the components of operating and finance lease assets and liabilities classified as current and noncurrent on the accompanying consolidated balance sheets:

7. Line of Credit

For the years ended June 30, 2022 and 2021, the Corporation had a \$250,000 revolving line of credit outstanding with a syndicate of banking partners. The line of credit is annually renewing, and the current expiration date is August 25, 2022. Interest is calculated based on an optional base rate or percentage of 1-month London Interbank Offered Rate (LIBOR) plus a credit spread. As of June 30, 2022 and 2021, the amount outstanding on the line of credit was \$81,000 and \$113,000, respectively. The calculated interest rates as of June 30, 2022 and 2021 were a range from 4.75% to 0.89%.

Subsequent to year end (Note 21), on August 23, 2022, the Corporation amended the term and structure of the revolving line of credit facility. The revised facility is certified as a parity obligation under the Medical System's Master Loan Agreement, which is described in Note 8, and its term was extended by three years (expiration date of August 23, 2025). In addition, the interest calculation was amended to replace the percentage of 1-month LIBOR variable rate option, with a variable rate option that is based on the Secured Overnight Financing Rate (SOFR).

8. Long-Term Debt and Other Borrowings (continued)

Pursuant to an Amended and Restated Master Loan Agreement, dated December 1, 2017 (UMMS Master Loan Agreement), the Corporation and several of its subsidiaries have issued debt through Maryland Health and Higher Educational Facilities Authority (MHHEFA or the Authority). As security for the performance of the bond obligation under the Master Loan Agreement, the Authority maintains a security interest in the revenue of the obligors. The UMMS Master Loan Agreement contains certain restrictive covenants. These covenants require that rates and charges be set at certain levels, limit incurrence of additional debt, require compliance with certain operating ratios and restrict the disposition of assets.

The Obligated Group under the UMMS Master Loan Agreement includes the Medical Center, ROI, UM Midtown, UM Baltimore Washington, Shore Health (UM Memorial and UM Dorchester), UM Chester River, UM Charles Regional, UM St. Joseph, UM Upper Chesapeake, UM Harford Memorial, UM Laurel, UM Prince George's, Bowie Health Center (Bowie), and the UM Medicine Foundation. Each member of the Obligated Group is jointly and severally liable for the repayment of the obligations under the UMMS Master Loan Agreement.

Under the terms of the UMMS Master Loan Agreement and other loan agreements, certain funds are required to be maintained on deposit with the Master Trustee to provide for repayment of the obligations of the Obligated Group (Note 3).

On July 2, 2020, MHHEFA issued \$152,680 of tax-exempt Revenue Bonds, Series 2020B, and \$600,000 taxable Revenue Bonds, Series 2020D. The proceeds were used for the purpose of refinancing existing debt, including the repayment of the Upper Chesapeake term loan and the redemption of the Series 2008F, 2010, and 2013A Bonds. The remaining proceeds are to be used for the purpose of financing a portion of the costs of construction and equipping of certain capital projects related to the Medical Center, Baltimore Washington, Shore Regional, Upper Chesapeake and Capital Region.

On December 8 and 22, 2021, MHHEFA issued \$160,845 of tax-exempt Revenue Bonds, Series 2021A, and \$107,510 taxable Revenue Bonds, Series 2021B. The proceeds were used for the purpose of refinancing existing debt, including the redemption of the Series 2007A, 2008E, 2016A, 2016D and 2017A Bonds.

The Corporation's Series 2008D Bonds are variable rate demand bonds requiring remarketing agents to purchase and remarket any bonds tendered before the stated maturity date. The reimbursement obligations with respect to the letters of credit are evidenced and secured by the respective bonds. To provide liquidity support for the timely payment of any bonds that are not successfully remarketed, the Corporation has entered into a letter-of-credit agreement with a banking institution. The agreement has a term that expires in 2027. If the bonds are not successfully remarketed, the Corporation is required to pay an interest rate specified in the letter-of-credit agreement, and the principal repayment of bonds may be accelerated to require repayment in 48 months from the date of the failed remarketing. The Corporation has reflected the amount of its long-term debt that is subject to these short-term remarketing arrangements within the consolidated balance sheet according to the maturity of the bond's related letter of credit agreements. In the event that bonds are not remarketed, the Corporation maintains available letters of credit and has the ability to access other sources to obtain the necessary liquidity to comply with accelerated repayment terms. All variable rate demand bonds were successfully remarketed as of June 30, 2022 and 2021.

9. Interest Rate Risk Management (continued)

The mark-to-market values of the Corporation's interest rate swaps include a valuation adjustment representing the creditworthiness of the counterparties to the swaps.

The Corporation recorded a net nonoperating gain on changes in the fair value of nonqualifying interest rate swaps of \$96,888 and \$65,325 for the years ended June 30, 2022 and 2021, respectively.

The swap agreements are included in the consolidated balance sheets at their fair value of \$106,721 and \$203,609 as of June 30, 2022 and 2021, respectively, an amount that is based on observable inputs other than quoted market prices in active markets for identical liabilities (Level 2 in the fair value hierarchy).

The Corporation is subject to a collateral posting requirement with two of its swap counterparties. Collateral posting requirements are based on the Corporation's long-term debt credit ratings, as well as the net liability position of total interest rate swap agreements outstanding with that counterparty. The amount of such posted collateral was \$6,840 and \$117,600 at June 30, 2022 and 2021, respectively. As of June 30, 2022 and 2021, the Corporation met its collateral posting requirement through the use of collateralized investments and cash equivalents, which were selected and purchased by the Corporation and subsequently transferred to the custody of the swap counterparty. The amount of posted investments that is required to meet the collateral requirement is computed daily and is accounted for as a component of the Corporation's assets limited as to use on the accompanying consolidated balance sheets as of that date. Any excess investment value is considered a component of the Corporation's unrestricted investment portfolio and is included in investments on the accompanying consolidated balance sheets as of that date.

In November 2021, UMMS executed four interest rate swap novation agreements with two counterparty banks. The novations resulted in the placement of \$341,400 of UMMS' existing swap exposure with substitute counterparties for a period of seven years; at the close of the seven-year period, the novated swaps will resume cash flows to their original counterparty banks. The novated swaps bear an incremental swapped-to-fixed rate, but do not require the posting of any collateral during their seven-year duration. UMMS' total swap exposure and total mark-to-market were unchanged as a result of the novations.

11. Retirement Plans

Employees of the Corporation are included in various retirement plans established by the Corporation, the Medical Center, ROI, Midtown, Baltimore Washington, Shore Regional, Charles Regional, St. Joseph, Upper Chesapeake, and Capital Region. Participation by employees in their specific plan(s) has evolved based upon the organization by which they were first employed and the elections that they made at the times when their original employers became part of the Corporation. The following is a brief description of each of the retirement plans in which employees of the Corporation participate:

Defined Benefit Plans

University of Maryland Medical Center Midtown Campus Retirement Plan for Non-Union Employees (Midtown Plan) – A noncontributory defined benefit plan covering substantially all nonunion employees. The benefits are based on years of service and compensation. Contributions to this plan are made to satisfy the minimum funding requirements of ERISA. In 2006, Midtown froze the defined benefit pension plan.

11. Retirement Plans (continued)

Baltimore Washington Medical Center Pension Plan (Baltimore Washington Plan) – A noncontributory defined benefit pension plan covering full-time employees who have been employed for at least one year and have reached 21 years of age. In 2018, Baltimore Washington closed the defined benefit pension plan to new hires.

On June 30, 2015, the Corporation amended the Baltimore Washington Medical Center Pension Plan to provide for the merger of the Midtown Plan and the Charles Regional Plan into the Baltimore Washington Plan and to change the name of the newly consolidated plan to the University of Maryland Medical System Corporate Pension Plan (the Corporate Plan). All provisions of the respective previous plans shall continue to apply to the respective applicable participants. All of the assets of the three formerly separate plans are now available to pay benefits for all participants under the newly consolidated Corporate Plan.

Civista Health Inc. Retirement Plan and Trust (Charles Regional Plan) – A noncontributory defined benefit pension plan covering employees that have worked at least one thousand hours per year during three or more plan years. Plan benefits are accumulated based upon a combination of years of service and percent of annual compensation. Charles Regional makes annual contributions to the plan based upon amounts required to be funded under provisions of ERISA.

Dimensions Health Corporation Pension Plan (Capital Region Pension Plan) – A noncontributory defined benefit pension plan covering substantially all employees. For employees not covered under collective-bargaining agreements and employees who are represented by the 1199 SEIU Health Care Workers East – Health Care Workers union (formerly District 1199E-DC, SEIU union and formerly Local No. 63 union), the Plan operates as a cash balance plan. The annual contribution by the Corporation is allocated to individual employee accounts based on years of service and the individual's retirement account. For employees represented by the 1199 SEIU Health Care Workers East – Registered Nurses Chapter union (formerly Professional Staff Nurses Association union), benefits are based on years of service and average final compensation. On December 31, 2007, the Capital Region Pension Plan was frozen. No further benefit accruals will be made to the Plan. The Plan freeze substantially reduces annual funding obligations beginning with Plan year 2008. The Corporation's funding policy is to contribute such actuarially determined amounts as necessary to provide assets sufficient to meet the benefits to be paid to the Plan participants and to meet the funding requirements of the Employees Retirement Income Security Act of 1974 (ERISA).

11. Retirement Plans (continued)

Dimensions Health Corporation Post Retirement Benefit Plans (Capital Region Post Retirement Benefit Plans) – A postretirement health care plan is provided to both salaried and non-salaried employees who have retired and certain other employees who were eligible to retire prior to July 1, 1995. The plan is contributory for those who retired prior to July 1, 1995, with retiree contributions adjusted annually. Employees who retired on July 1, 1995 and later are eligible to participate in the plan by paying 100% of the premiums without corporate contributions. The Corporation's policy has been to fund this plan on an as needed basis.

A defined postretirement life insurance plan is a noncontributory plan for all eligible retirees prior to July 1, 2001. For employees represented by the 1199 SEIU Health Care Workers East – Registered Nurses Chapter union, the plan was no longer offered to new retirees as of July 1, 1999. Effective July 1, 2001, the plan was modified to become contributory for the nonunion employees and employees represented by the 1199 SEIU Health Care Workers East – Health Care Workers union who retired prior to July 1, 2001 and for the employees represented by the 1199 SEIU Health Care Workers East – Registered Nurses Chapter union who retired prior to July 1, 1999. The Corporation's policy has been to fund its share of these benefits as they are incurred.

The Corporation recognizes the funded status (i.e., the difference between the fair value of plan assets and projected benefit obligations) of its defined benefit pension plans as an asset or liability in its consolidated balance sheets. The Corporation recognizes changes in the funded status in the year in which the changes occur as changes in unrestricted net assets. All defined benefit pension plans use a June 30 measurement date.

The investment policies of the Corporation’s pension plans incorporate asset allocation and investment strategies designed to earn superior returns on plan assets consistent with reasonable and prudent levels of risk. Investments are diversified across classes, sectors, and manager style to minimize the risk of loss. The Corporation uses investment managers specializing in each asset category, and regularly monitors performance and compliance with investment guidelines. In developing the expected long-term rate of return on assets assumption, the Corporation considers the current level of expected returns on risk-free investments, the historical level of the risk premium associated with the other asset classes in which the portfolio is invested, and the expectations for future returns of each asset class. The expected return for each asset class is then weighted based on the target allocation to develop the expected long-term rate of return on assets assumption for the portfolio.

The Corporation’s pension plans’ target allocation and weighted average asset allocations at the measurement date of June 30, 2022 and 2021, by asset category, are as follows:

Asset Category	Target Allocation	Percentage of Plan Assets as of June 30	
		2022	2021

Defined Contribution Plans

The Corporation offers a number of defined contribution benefits through 403(b) and 401(k) programs that were established by its affiliate hospitals. These plans allow for deferral of compensation or employer matching of compensation, subject to vesting requirements.

Total annual retirement costs incurred by the Corporation for the previously discussed defined contribution plans were \$55,017 and \$51,023 for the years ended June 30, 2022 and 2021, respectively. 12. Net Assets with Donor Restrictions

Net assets are restricted primarily for the following purposes:

	June 30	
	2022	2021
Facility construction and renovations, research, education, and other:		
Capital Region	\$ 4,848	\$ 42,851

Economic and beneficial interests in the net assets of related organizations	59,493	63,095
	\$ 234,092	\$ 302,740

Net assets were released from donor restrictions by expending funds satisfying the restricted purposes or by occurrence of other events specified by donors as follows:

	Year Ended June 30	
	2022	2021
Purchases of equipment and construction costs	\$ 66,729	\$ 386,238
Research, education, uncompensated care, and other	5,925	7,597
	\$ 72,654	\$ 393,835

The Corporation's endowments consist of donor-restricted funds established for a variety of purposes. Net assets associated with endowment funds are classified and reported based on the existence or absence of donor-imposed restrictions.

Interpretation of Relevant Law

The Corporation has interpreted the Maryland Uniform Prudent Management of Institutional Funds Act (MUPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, the Corporation classifies as permanently restricted net assets: (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment

made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment funds are classified in net assets with donor restrictions until those amounts are appropriated for expenditure by the organization in a manner consistent with the standard of prudence prescribed by MUPMIFA. In accordance with MUPMIFA, the Corporation considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

1. The duration and preservation of the fund
2. The purposes of the Corporation and the donor-restricted endowment fund
3. General economic conditions
4. The possible effects of inflation and deflation
5. The expected total return from income and the appreciation of investments
6. Other resources of the Corporation
7. The investment policies of the Corporation

Endowment net assets are as follows:

	Without Donor Restrictions	With Donor Restrictions	Total
June 30, 2022			
Donor-restricted endowment funds	\$ 765	\$ 70,315	\$ 71,080
June 30, 2021			
Donor-restricted endowment funds	\$ 126	\$ 60,287	\$ 60,413

Donor restricted endowment funds within net assets with donor restrictions whose use is restricted in perpetuity were \$55,359 and \$54,907 as of June 30, 2022 and 2021, respectively.

University of Maryland Medical System Corporation and Subsidiaries

Notes to Consolidated Financial Statements (continued) (In Thousands)

12. Net Assets with Donor Restrictions (continued)

Funds with Deficiencies

From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level that the donor or MUPMIFA requires the Corporation to retain as a fund of perpetual duration. The Corporation does not have any donor-restricted endowment funds that are below the level that the donor or MUPMIFA requires.

Investment Strategies

The Corporation has adopted policies for corporate investments, including endowment assets that seek to maximize risk-adjusted returns with preservation of principal. Endowment assets include those assets of donor-restricted funds that the Corporation must hold in perpetuity or for a donor-specified period(s). The endowment assets are invested in a manner that is intended to hold a mix of investment assets designed to meet the objectives of the account. The Corporation expects its endowment funds, over time, to provide an average rate of return that generates earnings to achieve the endowment purpose.

To satisfy its long-term rate-of-return objectives, the Corporation relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The Corporation employs a diversified asset allocation structure to achieve its long-term return objectives within prudent risk constraints.

The Corporation monitors the endowment funds' returns and appropriates average returns for use. In establishing this practice, the Corporation considered the long-term expected return on its endowment. This is consistent with the Corporation's objective to maintain the purchasing power of the endowment assets held in perpetuity or for a specified term, as well as to provide additional real growth through new gifts and investment return.

17. Insurance (continued)

The Corporation provides for and funds the present value of the costs for professional and general liability claims and insurance coverage related to the projected liability from asserted and unasserted incidents, which the Corporation believes may ultimately result in a loss. In management's opinion, these accruals provide an adequate and appropriate loss reserve. The professional and general malpractice liabilities presented above include \$280,763 and \$253,670 as of June 30, 2021 and 2020, respectively, for which related insurance receivables have been recorded within other assets on the accompanying consolidated balance sheets.

The Corporation and each of its affiliates are self-insured for professional and general liability claims up to the limits of \$1,000 on individual claims and \$3,000 in the aggregate on an annual basis. For amounts in excess of these limits, the risk of loss has been transferred to Terrapin, an unconsolidated joint venture. Terrapin provides insurance for claims in excess of \$1,000 individually and \$3,000 in the aggregate up to \$165,000 individually and \$227,000 in the aggregate under claims made policies between the Corporation and Terrapin. For claims in excess of Terrapin's coverage limits, if any, the Corporation retains the risk of loss.

As discussed in Note 5, Terrapin is a joint venture corporation in which a 50% equity interest is owned by the Corporation and a 50% equity interest is owned by University of Maryland Faculty Physicians, Inc.

Total malpractice insurance expense, net of investment return on self-insurance trust funds, for the Corporation during the years ended June 30, 2022 and 2021, was approximately \$137,206 and \$29,661, respectively.

18. Business and Credit Concentrations

The Corporation provides healthcare services through its inpatient and outpatient care facilities, located in the State of Maryland. The Corporation generally does not require collateral or other security in extending credit; however, it routinely obtains assignment of (or is otherwise entitled to receive) patients' benefits receivable under their health insurance programs, plans, or policies (e.g., Medicare, Medicaid, Blue Cross, workers' compensation, health maintenance organizations (HMOs), and commercial insurance policies).

18. Business and Credit Concentrations (continued)

The Corporation maintains cash accounts with highly rated financial institutions, which generally exceed federally insured limits. The Corporation has not experienced any losses from maintaining cash accounts in excess of federally insured limits and, as such, management does not believe the Corporation is subject to any significant credit risks related to this practice.

The Corporation had receivables from patients and third-party payors as follows:

	June 30	
	2022	2021
Medicare	35%	31%
Medicaid	20	29
Commercial insurance and HMOs	35	33
Self-pay and others	10	7

19. Certain Significant Risks and Uncertainties

The Corporation provides general acute healthcare services in the state of Maryland. The Corporation and other healthcare providers in Maryland are subject to certain inherent risks, including the following:

- Dependence on revenues derived from reimbursement by the federal Medicare and state Medicaid programs;
- Regulation of hospital rates by the State of Maryland Health Services Cost Review Commission;
- Government regulation, government budgetary constraints, and proposed legislative and regulatory changes; and
- Lawsuits alleging malpractice and related claims.

Such inherent risks require the use of certain management estimates in the preparation of the Corporation's consolidated financial statements, and it is reasonably possible that a change in such estimates may occur.

The Medicare and state Medicaid reimbursement programs represent a substantial portion of the Corporation's revenues, and the Corporation's operations are subject to a variety of other federal, state, and local regulatory requirements. Failure to maintain required regulatory approvals and licenses and/or changes in such regulatory requirements could have a significant adverse effect on the Corporation.

Changes in federal and state reimbursement funding mechanisms and related government budgetary constraints could have a significant adverse effect on the Corporation.

The healthcare industry is subject to numerous laws and regulations from federal, state, and local governments. The Corporation's compliance with these laws and regulations can be subject to periodic governmental review and interpretation, which can result in regulatory action unknown or unasserted at this time. Management is aware of certain asserted and unasserted legal claims and regulatory matters arising in the ordinary course of business, none of which, in the opinion of management, are expected to result in losses in excess of insurance limits or have a materially adverse effect on the Corporation's financial position.

19. Certain Significant Risks and Uncertainties (continued)

The federal government and many states have aggressively increased enforcement under Medicare and Medicaid antifraud and abuse laws and physician self-referral laws (STARK law and regulation). Recent federal initiatives have prompted a national review of federally funded healthcare programs. In addition, the federal government and many states have implemented programs to audit and recover potential overpayments to providers from the Medicare and Medicaid programs. The Corporation has implemented a compliance program to monitor conformance with applicable laws and regulations, but the possibility of future government review and enforcement action exists.

20. Maryland Health Services Cost Review Commission

Effective July 1, 2013, the Health System and the Health Services Cost Review Commission (HSCRC) agreed to implement the Global Budget Revenue (GBR) methodology for the following hospitals: Medical Center, ROI, UM Midtown, UM Baltimore Washington, UM Charles Regional, UM St. Joseph, UM Memorial, UM Dorchester, UM Chester River, Shore Emergency Center, UM Upper Chesapeake, UM Harford Memorial, UM Prince George's, and UM Laurel. The agreements will continue each year and on July 1 of each year thereafter; the agreements will renew for a one-year period unless they are canceled by the HSCRC or by the Corporation. The agreements were in place for the years ended June 30, 2022 and 2021. The GBR model is a revenue constraint and quality improvement system designed by the HSCRC to provide hospitals with strong financial incentives to manage their resources efficiently and effectively in order to slow the rate of increase in healthcare costs and improve healthcare delivery processes and outcomes. The GBR model is consistent with the Corporation's mission to provide the highest value of care possible to its patients and the communities it serves.

The GBR agreements establish a prospective, fixed revenue base "GBR cap" for the upcoming year. This includes both inpatient and outpatient regulated services. Under GBR, a hospital's revenue for all HSCRC regulated services is predetermined for the upcoming year, regardless of changes in volume, service mix intensity, or mix of inpatient or outpatient services that occurred during the year. The GBR agreement allows the Corporation to adjust unit rates, within certain limits, to achieve the overall revenue base for the Corporation at year-end. Any overcharge or undercharge versus the GBR cap is prospectively subtracted from the subsequent year's GBR cap. Although the GBR cap is fixed each year, it does not adjust for changes in volume or service mix. The GBR cap is also adjusted annually for inflation, and for changes in payor mix and uncompensated care. The Corporation will receive an annual adjustment to its cap for the change

in population in the Corporation's service areas. GBR is designed to encourage hospitals to operate efficiently by reducing excess utilization and managing patients in the appropriate care delivery setting. The HSCRC also may impose various other revenue adjustments, which could be significant in the future.

21. Subsequent Events

The Corporation evaluated all events and transactions that occurred after June 30, 2022 and through October 21, 2022, the date the consolidated financial statements were issued. Other than described below, the Corporation did not have any material subsequent events during the period.

On August 23, 2022, the Corporation amended the term and structure of the revolving line of credit facility (see Note 7).
