

Q1.

Introduction:

COMMUNITY BENEFIT NARRATIVE REPORTING INSTRUCTIONS

The Maryland Health Services Cost Review Commission's (HSCRC's or Commission's) Community Benefit Report, required under §19-303 of the Health General Article, Maryland Annotated Code, is the Commission's method of implementing a law that addresses the growing interest in understanding the types and scope of community benefit activities conducted by Maryland's nonprofit hospitals.

The Commission developed a two-part community benefit reporting system that includes an inventory spreadsheet that collects financial and quantitative information and a narrative report to strengthen and supplement the inventory spreadsheet. The guidelines and inventory spreadsheet were guided, in part, by the VHA, CHA, and others' community benefit reporting experience, and was then tailored to fit Maryland's unique regulatory environment. This reporting tool serves as the narrative report. The instructions and process for completing the inventory spreadsheet remain the same as in prior years. The narrative is focused on (1) the general demographics of the hospital community, (2) how hospitals determined the needs of the communities they serve, (3) hospital community benefit administration, and (4) community benefit external collaboration to develop and implement community benefit initiatives.

The Commission moved to an online reporting format beginning with the FY 2018 reports. In this new template, responses are now mandatory unless marked as optional. If you submit a report without responding to each question, your report may be rejected. You would then be required to fill in the missing answers before resubmitting. Questions that require a narrative response have a limit of 20,000 characters. This report need not be completed in one session and can be opened by multiple users.

Q2. Section I - General Info Part 1 - Hospital Identification

Q3. Please confirm the information we have on file about your hospital for FY 2018.

	Is this information correct?		If no, please provide the correct information here:
	Yes	No	
The proper name of your hospital is: Anne Arundel Medical Center	<input checked="" type="radio"/>	<input type="radio"/>	
Your hospital's ID is: 210023	<input checked="" type="radio"/>	<input type="radio"/>	
Your hospital is part of the hospital system called None - Independent Hospital.	<input checked="" type="radio"/>	<input type="radio"/>	

Q4. The next two questions ask about the area where your hospital directs its community benefit efforts, called the Community Benefit Service Area. You may find [these community health statistics](#) useful in preparing your responses.

Q5. (Optional) Please describe any other community health statistics that your hospital uses in its community benefit efforts.

AAMC uses the Community Health Needs Assessments for Anne Arundel, Prince George's and Queen Anne's Counties to identify under-served areas. Q57. Please describe how the needs and priorities identified in your most recent CHNA compare with those identified in your previous CHNA.

In 2013, the identified needs were obesity/ overweight, cancer, mental health/ substance use, chronic disease (heart disease and diabetes), services for un-insured and under-insured, access to care, and health disparity. In 2016, there were over 50 health needs communicated in the assessment. While many of the needs overlap or are needs we currently address, it was important to prioritize needs to support a strategic framework, maximize resources, and have an impact. Through a very structured strategic prioritization process, AAMC prioritized the following as health needs we would address: improved community based care-coordination, expansion of mental health/ substance use, senior care/ palliative care, infant mortality, and improved resource planning for regional health disparities. The health needs identified in 2013 still exist in the County. Healthy Anne Arundel Coalition (LHIC) includes workgroups to address obesity prevention, access to care, and mental health/substance use. AAMC continues to support those efforts by allocating resources to the LHIC. As a hospital, our focus is to address improved care coordination, chronic disease management, reduce re-admissions and un-necessary utilization, expand mental health and substance use programs, align with local end of life programs, and implement efforts to reduce infant mortality. We monitor our progress through stratified metrics that include race, ethnicity, and gender. AAMC either directly addresses or collaborates with community organizations to address the prioritized health needs in the County. AAMC's prioritized health needs are very similar to the needs that UMBWMC chose. Currently, the hospitals are collaborating on the BATH project which addresses improved care conditions, behavioral health, access to palliative care, and providing resources and support to the vulnerable communities. Both hospitals co-chair the LHIC, with the Health Officer serving as Chair of the committee. All organizations are committed to partnering and supporting the initiatives of the LHIC. Specifically, the needs are obesity, behavioral health, and access to care. AAMC provides staff to all sub-committees and support as needed to promote their work. The health department has taken the lead on these initiatives (all outlined in the CHNA) since they are public health measures.

Q58. (Optional) Please use the box below to provide any other information about your CHNA that you wish to share.

NOTE: For the purposes of the FY18 Community Benefit report, AAMC is using the FY16 Community Health Needs Assessment. Although, the FY2019-2021 CHNA was released during February, 2019, the implementation plans to address the health needs for that assessment were not developed and Board approved until June, 2019. There were several key partners involved in the collaboration and planning process for the FY2016 CHNA. Each organization utilized the CHNA for its own purpose, but the partners collaborate to extend the work of the LHIC (Healthy Anne Arundel Coalition). The LHIC has identified obesity prevention, behavioral health, and access to care as their prioritized health needs. Each need has a dedicated committee to establish objectives, develop work plans, identify and allocate necessary resources etc. Each partner has leadership roles on the LHIC Steering Committee and/or subcommittees. We assist with providing resources, oversight, etc. to achieve the goals of each subcommittee. Other partners include key LHIC members such as Anne Arundel County Department of Recreation and Parks, Anne Arundel Community College, Anne Arundel County Department of Social Services, Anne Arundel County Public Schools, Office of Economic Development, Care First/ Blue Cross Blue Shield, the Office of the Mayor of the City of Annapolis, and the NAACP. Together, the organizations can exchange ideas, maximize resource allocation, develop a county-wide program, and work together to meet targeted goals. There is a collaborative working arrangement in the County. Specifically, each April, the County hosts Healthy Anne Arundel Month. Each organization has the opportunity to showcase programs that reduce the health needs of the County. This increases awareness and fosters community. Refer to the link provided for specific detail on data collection and findings.

Q64. Section III - CB Administration Part 2 - Process & Governance

Q65. Does your hospital conduct an internal audit of the annual community benefit financial spreadsheet? Select all that apply.

- Yes, by the hospital's staff
- Yes, by the hospital system's staff
- Yes, by a third-party auditor
- No

Q66. Does your hospital conduct an internal audit of the community benefit narrative?

- Yes
- No

Q67. Please describe the community benefit narrative audit process.

The Department of Community Health maintains the on-going operations review, communication and documentation of CB activities. The Community Outreach Steering Committee includes a group of educators across the organization (cancer prevention/ smoking cessation, women's health, Pathways/ substance use prevention, dietitians, community health nurses, and health educators) who meet monthly and they report regularly on past activities and future opportunities for community education and outreach. They identify populations and geographic areas in need and topics of interest. This group is responsible for implementing many of the community benefit activities across the organization. They maintain on-going communication within AAMC and the community. The second committee includes a leadership task force that meets 2 -3 times per year to outline strategic objectives for community benefit expense. This group identifies strategic priorities based on the Community Health Needs Assessment (CHNA) and the Annual Operating Plan (AOP). They ensure that community benefit, the AOP and the CHNA are in alignment. The group also audits the financial and narrative portions of the Community Benefit report. Last, it is responsible to coordinate information dissemination to the Board for reporting and approval processes. Senior leadership (CEO, CFO, CSO, COO, CNO, CMO) reviews and approves the narrative and spreadsheet prior to submission to the HSCRC. The Board of Trustees completes the review of the narrative and spreadsheet in January (the month after submission). The spreadsheet is included as part of the financial audit process that the hospital undergoes annually and 990 Form submission to the IRS annually.

Q68. Does the hospital's board review and approve the annual community benefit financial spreadsheet?

- Yes
- No

Q69. Please explain:

Q70. Does the hospital's board review and approve the annual community benefit narrative report?

- Yes
- No

Q71. Please explain:

This question was not displayed to the respondent.

Q72. Does your hospital include community benefit planning and investments in its internal strategic plan?

- Yes
- No

Q73. Please describe how community benefit planning and investments are included in your hospital's internal strategic plan.

AAMC's mission is to enhance the health of the people it serves. It is also guided by its core principles of compassion, trust, dedication, quality, innovation, diversity and collaboration. In February 2010, the Governing Board adopted a 10-year strategic plan and outlined a vision of Living Healthier Together. That means that the care that AAMC provides is centered on the patient. AAMC operates beyond the walls of the hospital and serves a broad geography and diverse population of patients. Our work builds on partnerships, relationships and connectivity. We hold shared accountability among patients, physicians, hospital, employees and community. We are driven by standards based on evidence and outcomes while remaining viable, cost-effective, and responsible. AAMC uses a strategic planning framework that categorized 35 initiatives into 5 strategic goal areas (Quality, Community Health, Workforce, Growth, and Finance). This is reviewed annually by senior leadership, clinical leadership, and administrative leadership to identify opportunities for growth and health improvement through planning retreats, meetings, and data analysis. These initiatives were chosen based on their ability to have significant impact on the care of patients and the community; improve health, increase quality, reduce costs, and strengthen workforce. Leaders identify Community Benefit through the strategic initiatives and report the data and information to Department of Community Health Improvement for collection and analysis. Community Health tracks the data and reports monthly to leadership through the True North Metrics process.

Q74. (Optional) If available, please provide a link to your hospital's strategic plan.

https://www.aahs.org/uploadedFiles/Contents/Eyebrow/About_Us/Promos/V20-brochure-FINAL-web3.pdf

Q75. (Optional) Is there any other information about your hospital's community benefit administration and external collaboration that you would like to provide?

AAMC provides leadership to the Healthy Anne Arundel Coalition (LHIC). The CHNA is an ad-hoc committee of Healthy Anne Arundel. We partner with community organizations through Healthy Anne Arundel to collaborate and extend the work of the Healthy Anne Arundel Coalition. The LHIC has identified obesity prevention, behavioral health, and access to care as their prioritized health needs. Each need has a dedicated committee to establish objectives, develop work plans, identify and allocate necessary resources etc. Each partner has leadership roles on the LHIC Steering Committee and/or subcommittees. We assist with providing resources, oversight, etc. to achieve the goals of each subcommittee. Other partners include key LHIC members such as Anne Arundel County Department of Recreation and Parks, Anne Arundel Community College, Anne Arundel County Department of Social Services, Anne Arundel County Public Schools, Office of Economic Development, Care First/ Blue Cross Blue Shield, the Office of the Mayor of the City of Annapolis, and the NAACP. Together, the organizations can exchange ideas, maximize resource allocation, develop a county-wide program, and work together to meet targeted goals. There is a collaborative working arrangement in the County. Specifically, each April, the County hosts Healthy Anne Arundel Month. Each organization has the opportunity to showcase programs that reduce the health needs of the County. This increases awareness and fosters community. There is additional information included in this report about collaboration in the community through the LHIC for the purposes of CHNA planning, strategy, and community benefit spending.

Q76. (Optional) Please attach any files containing information regarding your hospital's community benefit administration and external collaboration.

Q77. Based on the implementation strategy developed through the CHNA process, please describe *three* ongoing, multi-year programs and initiatives undertaken by your hospital to address community health needs during the fiscal year.

Q78. Section IV - CB Initiatives Part 1 - Initiative 1

Q79. Name of initiative.

Community Care Coordination for Patients with Chronic Disease

Q80. Does this initiative address a community health need that was identified in your most recently completed CHNA?

Yes

No

Q81. In your most recently completed CHNA, the following community health needs were identified:

Access to Health Services: Health Insurance, Access to Health Services: Practicing PCPs, Access to Health Services: Regular PCP Visits, Access to Health Services: ED Wait Times, Behavioral Health, including Mental Health and/or Substance Abuse, Cancer, Diabetes, Environmental Health, Health-Related Quality of Life & Well-Being, Maternal & Infant Health, Nutrition and Weight Status, Older Adults, Physical Activity, Respiratory Diseases, Tobacco Use, Other Social Determinants of Health

Q82. When did this initiative begin?

Q83. Does this initiative have an anticipated end date?

- No, the initiative has no anticipated end date.
- The initiative will end on a specific end date. Please specify the date.
- The initiative will end when a community or population health measure reaches a target value. Please describe.

- The initiative will end when a clinical measure in the hospital reaches a target value. Please describe.

- The initiative will end when external grant money to support the initiative runs out. Please explain.

- The initiative will end when a contract or agreement with a partner expires. Please explain.

- Other. Please explain.

This initiative is an on-going multi-year program that has no end date. However, it is anticipated that the program will change and additional revenue streams will be sought.

Q84. Please describe the population this initiative targets (e.g. diagnosis, age, insurance status, etc.).

The target population includes patients with various chronic disease such as CHF, COPD, diabetes, and cancer. Many have mental health and/or substance use as co-morbid diseases as well. They are often high utilizers of the healthcare system (not just at AAMC) and are at high risk of re-admission due to their disease and how they are affected by social determinants of health.

Q85. Enter the estimated number of people this initiative targets.

179,000

Q86. How many people did this initiative reach during the fiscal year?

4,000

Q87. What category(ies) of intervention best fits this initiative? Select all that apply.

- Chronic condition-based intervention: treatment intervention
- Chronic condition-based intervention: prevention intervention
- Acute condition-based intervention: treatment intervention
- Acute condition-based intervention: prevention intervention
- Condition-agnostic treatment intervention
- Social determinants of health intervention
- Community engagement intervention
- Other. Please specify.

Q88. Did you work with other individuals, groups, or organizations to deliver this initiative?

- Yes. Please describe who was involved in this initiative.
- No.

DSS
 The Coordinating Center
 Department of Aging and Disabilities
 (Anne Arundel, Queen Anne's, Prince
 George's Counties)
 UM-BWMC
 CRISP Care Management Services by
 Johns Hopkins Healthcare
 Healthy Anne Arundel Coalition

Q89. Please describe the primary objective of the initiative.

Reduce un-necessary utilization and charges for chronic disease patients who frequent acute care settings and improve the self management skills of these patients and families (caregivers).

Q90. Please describe how the initiative is delivered.

In a collaborative setting, AAMC refers patients at discharge from the in-patient setting to community based programs who can address social determinants of health (see partners above). Ambulatory physicians in the AAMC Collaborative Care Network refer at-risk patients to our out-patient care coordination program who also refer patients to community based programs who can address social determinants of health (see partners above). Patients are followed through an out-patient care coordination process to address medical and non-medical needs. This fiscal year, AAMC implemented a follow up system for all discharged patients to determine if additional health is required to address medical and non-medical needs (e.g., appointment setting, obtaining medications, understanding care instructions). AAMC also supports disease specific navigators to assist patients with social needs (Pulmonary disease). AAMC also pays for medical transportation and some medications for patients with medical and financial needs.

Q91. Based on what kind of evidence is the success or effectiveness of this initiative evaluated? Explain all that apply.

- Count of participants/encounters
- Other process/implementation measures (e.g. number of items distributed)
- Surveys of participants
- Biophysical health indicators
- Assessment of environmental change
- Impact on policy change
- Effects on healthcare utilization or cost
- Assessment of workforce development
- Other

Q92. Please describe any observed outcome(s) of the initiative (i.e., not intended outcomes).

Shorter interactions between health coaches and patients (30 day) were more effective in reducing costs and patient visits than longer interactions between nurses and patients (60 day).

Q93. Please describe how the outcome(s) of the initiative addresses community health needs.

Community based care managers work with individual patients to link them to community resources for housing, transportation, affordable medications, health insurance etc. The 2016 Community Health Needs Assessment states that community based care coordination was a lacking service in Anne Arundel County. AAMC also provides financial support to patients for transportation and medication costs as well to under-served patients who qualify.

Q94. What was the total cost to the hospital of this initiative in FY 2018? Please list hospital funds and grant funds separately.

Total Hospital Expenses = \$808,660.72

Q95. (Optional) Supplemental information for this initiative.

Q100. When did this initiative begin?

Q101. Does this initiative have an anticipated end date?

- No, the initiative does not have an anticipated end date.
- The initiative will end on a specific end date. Please specify the date.
- The initiative will end when a community or population health measure reaches a target value. Please describe.

- The initiative will end when a clinical measure in the hospital reaches a target value. Please describe.

- Other. Please explain.

Q102. Please describe the population this initiative targets (e.g. diagnosis, age, insurance status, etc.).

AAMC is committed to prevention, treatment and recovery of substance use disorders. We have developed an education program targeted to students and residents in our service area, specifically focusing our efforts in Anne Arundel County. In addition, our Pathways Treatment facility provides charity care for patients who do not have insurance. Our substance use treatment team has developed recovery programs (open to anyone in recovery, not just Pathways Patients) to provide support for individuals and families. The programs target high school students and adults who are at -risk for substance abuse, and patients/ families in recovery.

Q103. Enter the estimated number of people this initiative targets.

Q106. Did you work with other individuals, groups, or organizations to deliver this initiative?

- Yes. Please describe who was involved in this initiative.
- No.

Anne Arundel County Department of Health (LHIC and providers), Anne Arundel County Public School System, Anne Arundel Mental Health Agency, Anne Arundel County Mobile Crisis Unit, Arundel Lodge, private providers (14 in total), commercial insurances.

Q107. Please describe the primary objective of the initiative.

(1) Expand education and awareness about substance use disorders to high school students and adults (2) Increase awareness and access to treatment and substance use recovery programs for individuals and families

Q108. Please describe how the initiative is delivered.

(1) Community health educators work with schools and other partner organizations to deliver messages and education regarding substance use (alcohol, vaping, opioid). This can be accomplished in formal settings (classrooms, community trainings, etc) or through more informal setting by supporting grassroots prevention efforts such as SADD and MADD. (2) Monthly recovery weekends, 12 step programs, and other recovery initiatives are provided free of charge to patients and families. (3) AAMC collaborates with partners (listed above) to extend the reach of programs, avoid duplication, and streamline communication. This is a county wide initiative.

Q109. Based on what kind of evidence is the success or effectiveness of this initiative evaluated? Explain all that apply.

- Count of participants/encounters
- Other process/implementation measures (e.g. number of items distributed)
- Surveys of participants
- Biophysical health indicators
- Assessment of environmental change
- Impact on policy change

- Assessment of workforce development
- Other

Q110. Please describe any observed outcome(s) of the initiative (i.e., not intended outcomes).

Q111. Please describe how the outcome(s) of the initiative addresses community health needs.

Substance use (opioid and alcohol) was a clear community need in the FY2016 CHNA. It is critical to reduce alcohol use rates, opioid use rates, and death by overdose. Prevention efforts and on-going recovery programs are essential to reduce the substance use rates and death.

Q112. What was the total cost to the hospital of this initiative in FY 2018? Please list hospital funds and grant funds separately.

Q124. Did you work with other individuals, groups, or organizations to deliver this initiative?

Yes. Please describe who was involved in this initiative.

DSS, Anne Arundel County Health Department, Housing Authority of the City of Annapolis, other referring sources.

No.

Q125. Please describe the primary objective of the initiative.

Increase access to primary care via low cost clinic, tele-health visits, and technology.

Q126. Please describe how the initiative is delivered.

(1) Un-insured or under-insured patients have access to community clinics on a sliding scale fee. Care management and extensive follow up is provided to support the patients. (2) Access to tele-health visits and self scheduling for primary care visits have improved access for patients.

Q127. Based on what kind of evidence is the success or effectiveness of this initiative evaluated? Explain all that apply.

Count of participants/encounters

Other process/implementation measures (e.g. number of items distributed)

Surveys of participants

Biophysical health indicators

Assessment of environmental change

Impact on policy change

Effects on healthcare utilization or cost

Assessment of workforce development

Other

Q128. Please describe any observed outcome(s) of the initiative (i.e., not intended outcomes).

Patient demand is greater than supply of PCP services as a result of these initiatives. We strive to become efficient and reduce wait times for appointments.

Q129. Please describe how the outcome(s) of the initiative addresses community health needs.

Access to providers and care was a health need stated in the FY16 Community Health Needs Assessment. AAMC determined that partnering with patients to engage in their health in an easy way would be one initiative to address access to care.

Q130. What was the total cost to the hospital of this initiative in FY 2018? Please list hospital funds and grant funds separately.

\$900,174.3

Q137. Why were these needs unaddressed?

We rely on our community partners to provide some community programs. Specifically, the health department provides access to dental health and vision screenings for children. They also have an HIV screening program and case management program. Arthritis, food safety, global health, and sleep health were not included in our CHNA; therefore, they are not considered community health needs and we did not allocate resources to those issues. Last, we have been developing internal programs for employees that address diverse groups and their needs, ie. LGBTQIA. It is anticipated that in FY20-21 additional community work and collaboration will be provided. Social determinants of health was identified as a top health need in the FY19-21 CHNA; housing, food access, transportation, etc will be addressed in that implementation plan.

Q138. Do any of the hospital's community benefit operations/activities align with the State Health Improvement Process (SHIP)? Specifically, do any activities or initiatives correspond to a SHIP measure within the following categories?

Subject: Clarification Required - Anne Arundel Medical Center FY 19 CB Narrative
Date: Thursday, March 12, 2020 12:41:59 PM
Attachments: [Anne Arundel Medical Center FY2019_CBNarrative_Final.pdf](#)

Thank you for submitting Anne Arundel Medical Center's FY 2019 Community Benefit Narrative Report. Upon reviewing your report, we require clarification of certain issues:

- In response to Question 48 beginning on page 5 of the attached, for the line "Senior Executives (facility level)" you selected the "Other" option but did not provide an explanation as required. Please describe how these individuals were involved.
- In response to Question 63 beginning on page 13 of the attached, for the line "Other Hospitals" you selected "N/A – Person or Organization was not involved" but then you selected other activities. Please clarify whether you did not intend to select the "N/A" option. You also added an explanation to the "Other" text box but did not select the "Other" option. Please clarify whether you intended to select the "Other" option.
- In response to Question 81 on page 17 of the attached you selected "Chronic Kidney Disease," "Hear Disease and Stoke," and "Violence Prevention" as needs addressed by the Community Care Coordination for Patients with Chronic Disease initiative but you did not select these as needs identified by the CHNA in Question 56 on page 11. Please clarify whether you intended to select "Chronic Kidney Disease," "Hear Disease and Stoke," and "Violence Prevention" as CHNA needs in Question 56.
- You did not respond to Question 110 on page 22 of the attached. Please describe any observed outcomes of the Substance Use Prevention/ Recovery initiative.
- In response to Question 117 on page 23 of the attached you selected "Access to Health Services: Outpatient Services" as a need addressed by the Access to Care/ Patient Engagement initiative but you did not select this as a need identified by the CHNA in Question 56 on page 11. Please clarify whether you intended to select "Access to Health Services: Outpatient Services" as a CHNA need in Question 56.
- In Question 136 on page 26 of the attached, where you select the CHNA needs that were unaddressed by the hospital, you selected a number of needs that were not selected in Question 56 on page 11. These needs include "Arthritis, Osteoporosis, and Chronic Back Conditions," "Food Safety," "Global Health," "HIV," "Lesbian, Gay, Bisexual, and Transgender Health," "Oral Health," "Sleep Health," "Vision," and "Housing & Homelessness." Please indicate whether these needs should have been selected in Question 56, or should not have been selected in Question 136.
- Question 137 on page 27 is asking for an explanation regarding the CHNA needs that were not addressed by you community benefit initiatives and were selected in Question 136. As addressed above, after you have clarified which needs should have been selected in Question 136, please revise your response to Question 137

accordingly.

- In Question 148 on page 28, your response to the threshold for free care is not clear. Please confirm that you intended that to read “200.”
- In Question 149 on page 28, your response for the range for reduced-cost care is unclear. Please clarify whether you intended to select 200% to 300% FPL as the range for reduced-cost care.
- In Question 150 on page 28 you selected 330% as the lowest threshold for financial hardship. Please clarify whether you intended to select 300% FPL for the lowest threshold.

Please provide your clarifying answers as a response to this message. Thank you for your attention to this matter.
